

Domestic Market Highlights:

As per market sources, Paddy (1509) arrival in Hathras Mandi is around 1000 bags and modal price is at Rs.1841/quintal whereas in Taraori Mandi price is around Rs.1725/quintal. New hybrid parmal paddy arrival in kaithal Mandi of Haryana is around 100 bags at Rs.1260/quintal.

MY 2016/17 rice production unchanged at 105 MMT, based on timely planting and sufficient monsoon rains during the critical planting period (July-Mid-August). Based on the MoA Forth Advance Estimate, MY 2015/16 rice production is forecast higher to 104.3 MMT derived from 43.4 million hectares due to strong yields based on the latest information from the crop cutting experiments.

Indian FOB for 1121 steam in the month of August moved down from last month and currently is in the range of USD 850-855/MT which is down by around 6.30% from last month price of 910USD/T. Average basmati rice price decreased due to fall in buying interest which push the price in southward direction. Pakistani basmati price has also moved down from USD 907/MT to 862\$/MT, according to the UN's Food and Agriculture Organization (FAO). Currently Pakistani basmati FOB is hovering in the range of USD 860-862/MT which is down by 5% from last month FOB of USD 907/MT.

IR-64 5% broken parboiled rice price is around 2150-2180/quintal which is Ex-factory price of Kolkata.

The total sown area as on 2nd September, 2016 as per reports received from States, stands at 1033.99 lakh hectares as compared to 997.11 lakh hectares at this time last year. It is reported that rice has been sown/transplanted in 372.95 lakh ha which is 2.34% up from last year acreage of 364.43 lakh hectares.

Paddy sowing in top producing states are on its peak, paddy acreage as on 2 September in U.P was 59.55 lakh hectares which is up by 0.54% from last year this time area of 59.23 lakh hectares whereas in West Bengal and Odisha and is also up by 9.77%, 2.3% respectively.

Total Rice exported from India in the third week of August was 267584.14 tons out of which basmati rice contribute 15.39%, and non-basmati rice is 84.60% in this period with quantity of around 41192.07 tons and 226393.06 tons respectively as per latest data extract from IBIS.

Price Outlook:-Average Rice price in all India is likely to trade steady with firm tone due to normal demand and tight supply.

International Market Highlight:

Unofficial preliminary rice exports (excluding premium white and fragrant rice) for August 22-28, 2016 totaled 120,462 metric tons, up 42,051 metric tons from the previous week and up 45,476 metric tons from the four-week moving average of 74,986 metric tons. Rice exports from January 1 – August 28, 2016 totaled 2,361,578 metric tons, down 13 percent from the same period last year.

Global rice trade in 2017 was projected at 40.6 million tons, up just 0.1 million tons from the previous forecast, but almost 2% below a year earlier and the third consecutive year of decline. India's 2017 export forecast was raised while Vietnam's was lowered. Global trading prices declined over the past month, largely due to a lack of fresh demand. U.S. milled rice prices continue to fall as well.

Philippines, one of the world's top rice buyers, is planning to import an additional 750,000 tons of rice to secure the country's supplies of the grain staple through 2017. The immediate volume to be purchased will be the 250,000 tons that the government announced earlier, followed by another tranche of 250,000 tons.

Vietnam's rice exports could fall 27% in 2016 from last year to 4.75 million tons, the lowest since 2008, lack of demand from key markets in Asia and Africa, along with Thailand's sales from state stockpiles would be major reason for the fall.

Bangladesh rice is forecast to fall to 34.51 million tons from an estimated 11.7 million hectares on reduced planting of its summer rice and increased winter rice production, summer rice production was estimated lower at 2.4 million tons due to decreased acreage against the initial expectation due to insufficient irrigation.

Post revises the estimate of MY 2015/16 Indonesian paddy harvested area to 12.0 million hectares from the previous estimate of 11.8 million hectares. Thus, it is estimated that MY 2015/16 Indonesian paddy production will increase to 36.2 MMT compared to the previous estimate of 35.6 MMT of milled rice equivalent. Considering higher production estimates, Post expects MY2015/16 Indonesian rice imports will decline to 1.8 MMT compared to the initial estimate of 2.0 MMT.
