

Domestic Market Highlights:

Wholesale Prices for India as an average for 03rd week of September traded weak by 5.42% from last week. Prices are currently hovering at Rs.2790-2795 /quintal and 5.13% up from price of Rs.2660Quintal during corresponding period last year. Agriwatch expects non-basmati rice market to move range bound with some firm tone in coming week due to lean season against normal domestic and overseas demand.

The total sown area as on 23th September, 2016 as per reports received from States, stands at 1067.53lakh hectare as compared to 1030.89 lakh hectare at this time last year and total normal area of 1062.50 lakh hectare. It is reported that rice has been sown/transplanted in 387.04 lakh hectare, up by 2.56% from last year till date acreage of 377.35 lakh hectares.

Paddy arrival in major mandis of Punjab and Haryana starts and mostly 1509 paddy arrival is hitting in the market while other non-basmati varieties arrivals in limited quantity. Modal price of 1509 paddy is in between Rs.1800-2100/quintal, sugandh paddy price is at Rs.1600-1700/quintal, sarbati paddy is at Rs.1500-1600/quintal and parmal paddy is at Rs.1350-1450/quintal.

As per 01st Advance Estimate released by Union Agriculture Minister, Total production of Kharif rice is estimated at 93.88 million tons which is a new record. This year rice production is higher by 1.1 million tons than previous record production of 92.78 million tons achieved during 2011-12. Production of Kharif rice is also higher by 4.16 million tons and 2.57 million tons over the average production of the last five years and the last year's Kharif rice production respectively.

Total Rice exported from India in between 05th to 11th September was 138696.19 tons out of which basmati rice contribute 45.84%, and non-basmati rice is 54.15% in this period with quantity of around 63587.9 tons and 75108.29 tons respectively as per latest data extract from IBIS.

Indian FOB for 1121 steam in the month of August moved down from last month and currently is in the range of USD 850-855/MT which is down by around 6.30% from last month price of 910USD/T. Average basmati rice price decreased due to fall in buying interest which push the price in southward direction. Pakistani basmati price has also moved down from USD 907/MT to 862\$/MT, according to the UN's Food and Agriculture Organization (FAO). Currently Pakistani basmati FOB is hovering in the range of USD 860-862/MT which is down by 5% from last month FOB of USD 907/MT.

Price Outlook:-Average Rice price in all India is likely to trade steady with firm tone due to normal demand and tight supply.

International Market Highlight:

Total rice production in Vietnam for MY 2015/2016 is down about a million tons, due mainly to the impact of drought weather conditions caused by El Nino, which lowered the spring crop production in the Mekong River Delta. However, the planting expansion of the late autumn crop in the Delta, and in other areas has superseded the loss of harvested area. Currently, the annual flooding in the Mekong River Delta is diminished due to dams constructed up-stream.

Unofficial preliminary Thailand rice exports (excluding premium white and fragrant rice) for August 29 – September 4, 2016 totaled 99,123 metric tons, down 21,339 metric tons from the previous week and up 11,915 metric tons from the four-week moving average of 87,208 metric tons. Rice exports from January 1 – September 4, 2016 totaled 2,460,701 metric tons, down 12 percent from the same period last year.

Since January 2016, the Thai government has sold approximately 3.9 million metric tons from total tenders of 9.3 million metric tons. These sales consist of 3.5 million metric tons of food-grade rice, mainly for exports, and 0.4 million metric tons of non-food grade rice, mainly for feed use. Presently, the government is still holding rice stocks of around 8.4 million metric tons.

Bangladesh rice is forecast to fall to 34.51 million tons from an estimated 11.7 million hectares on reduced planting of its summer rice and increased winter rice production, summer rice production was estimated lower at 2.4 million tons due to decreased acreage against the initial expectation due to insufficient irrigation.

Post revises the estimate of MY 2015/16 Indonesian paddy harvested area to 12.0 million hectares from the previous estimate of 11.8 million hectares. Thus, it is estimated that MY 2015/16 Indonesian paddy production will increase to 36.2 MMT compared to the previous estimate of 35.6 MMT of milled rice equivalent. Considering higher production estimates, Post expects MY2015/16 Indonesian rice imports will decline to 1.8 MMT compared to the initial estimate of 2.0 MMT.
