

Domestic Market Highlights:

Wholesale Prices for India as an average for 03rd week of November traded firmed by 4.10% from last week. Prices are currently hovering at Rs.2905-2910/quintal and 9.86% up from price of Rs.2649Quintal during corresponding period last year. Agriwatch expects rice market to move in firm tone as cash crunch in the market and thus arrival is lower than previous week.

As on 18 November 2016, total paddy arrival in Narela mandi is 60000 bags and 1121 paddy traded at Rs.2542/quintal, sugandh paddy traded at Rs.2100/quintal, 1509 paddy traded at Rs. 2301/quintal, sharati paddy traded at Rs. 1831/quintal and RS 10 paddy traded at Rs.1750/quintal.

As per market sources as on 18 November 2016, 1509 paddy arrival in Hapur (U.P) Mandi is 500 bags @ Rs.2201/quintal, sugandh paddy arrival is 1500 bags, @ Rs.2153/quintal and 1121 paddy arrival is 1600 bags, up by 600 bags at Rs. 2451/quintal.

1121 paddy price in Dabra Mandi (M.P) is hover in the range of Rs.2200-2450/quintal where as in Kaithal Mandi (Haryana) it is in between Rs. 2425-2450/quintal

Indian FOB for 1121 steam in the month of October moved steady from last month and currently is in the range of USD 800-801/MT which is almost same from last month price of 802USD/T. Average basmati rice price steady even with arrival pressure as aromatic rice production estimates is 25-30% lower than last year . Pakistani basmati price has also moved steady USD 862.5/MT to 936\$/MT, according to the UN's Food and Agriculture Organization (FAO). Currently Pakistani basmati FOB is hovering in the range of USD 820-825/MT which is down by 1.31% from last month FOB of USD 836/MT.

India's rice stocks in the central pool as on October 1, 2016 stood at around 16.56 million tons up by about 11% from around 14.93 million tons recorded during the corresponding period last year, according to data from the Food Corporation of India (FCI). India's rice stocks in the central pool are down about 16% from around 20 million tons recorded on September-01, 2016. The current rice stocks are about one million tons more than the required strategic reserve norms of around 1.25 million tons for this time of the year, according to the FCI.

As per latest report released by USDA, MY 2016/17 milled rice production at a record106.5 million metric tons (MMT) on higher planted area and normal 2016 monsoon in the major growing states. Planting of rabi (winter planted) rice is also likely to be slightly higher than last year at 4 million hectare compared to 3.9 million hectare last year on improved availability of availability of irrigation water, particularly in south India.

Among the food grains, the inflation for Cereals has increased to 7.23% from the previous month's level of 7.03%, Rice to 4.76% from the previous month's level of 4.08% and Wheat 7.27% from the previous month's level of 6.90%. The inflation for Pulses has decreased to 34.55% from the previous month's level of 35.76%.

As per 01st Advance Estimate released by Union Agriculture Minister, Total production of Kharif rice is estimated at 93.88 million tons which is a new record. This year rice production is higher by 1.1 million tons than previous record production of 92.78 million tons achieved during 2011-12. Production of Kharif rice is also higher by 4.16 million tons and 2.57 million tons over the average production of the last five years and the last year's Kharif rice production respectively.

Price Outlook:-Average Rice price in all India is likely to trade steady tone due to normal demand even with regular arrival.

International Market Highlight:

The Philippines paddy rice output is now expected to hit 17.91 million tons in 2016, the lowest in three years and below a July forecast of 18.135 million tons, due to crop losses from an El Niño dry spell and typhoons. The Philippines, one of the world's biggest rice importers, could buy another 250,000 tons of rice in addition to the 250,000 tons purchased recently from Vietnam and Thailand, if it sees a need to boost state buffer stocks. The latest forecast from the Philippine Statistics Authority for output this year is 1.3% lower than a 2015 harvest of 18.15 million tons, which followed record production of 18.97 million tons in 2014.

Thai rice export prices hovered around 13-month lows over the past week, attracting more African buyers and leading to dull trade in Vietnam. Currently Thai benchmark 5 percent broken rice prices hovered in between \$345-\$348 /Ton, free-on-board (FOB) basis, from \$345-\$350 /Ton a week ago when they hit their lowest in 13 months. As per market sources, the rainy season may also have an impact on rice prices, The recent rain will prompt farmers to harvest more rice as they fear that their rice will get spoiled and this might have an effect on rice prices. The fall in Thai rice prices has raised concerns among Vietnamese exporters of the grain, as their quotations for the 5 percent broken rice stood at \$350/Ton, FOB basis, against \$350-\$355 last week. Thai rice prices are falling and that could attract African buyers while Vietnam could not do anything because their rice stock has been built at an already high cost. As per trade sources, last week African buyers had already switched to rice offered by Thailand and Pakistan.

Unofficial preliminary Thailand rice exports (excluding premium white and fragrant rice) for October 24-30, 2016 totaled 102,618 metric tons, down 50,392 metric tons from the previous week and down 22,399 metric tons from the four-week moving average of 125,017 metric tons. Rice exports from January 1 – October 30, 2016 totaled 3,425,042 metric tons, down 6 percent from the same period last year.

Total rice production in Vietnam for MY 2015/2016 is down about a million tons, due mainly to the impact of drought weather conditions caused by El Nino, which lowered the spring crop production in the Mekong River Delta. However, the planting expansion of the late autumn crop in the Delta, and in other areas has superseded the loss of harvested area. Currently, the annual flooding in the Mekong River Delta is diminished due to dams constructed up-stream.

Bangladesh rice is forecast to fall to 34.51 million tons from an estimated 11.7 million hectares on reduced planting of its summer rice and increased winter rice production, summer rice production was estimated lower at 2.4 million tons due to decreased acreage against the initial expectation due to insufficient irrigation.
