Paddy procurement is in full swing in most of the districts except Kandhamal where the process will start from next week. Setting a target to procure 30 lakh tons of rice for the 2016-17 kharif marketing season (KMS), the state government started the procurement operation from Bargarh district on November 29 last year. Since post-harvest operation of paddy is still on in many parts of the state,

the state government requested the Ministry of Agriculture to extend the paddy procurement deadline from March 30 to end of April, 2017. About 17.45 lakh tons of paddy (equivalent to 11.87 lakh tons of rice) worth Rs 2,562 crore has been procured till date.

International Market Highlight:

Rice imports to Ukraine continued shrinking this season, So, Ukraine imported 14 KMT of rice from July till November 2016/17 that is 35% less than at the same time last year. India continues to be Ukraine's traditional rice supplier, though with noticeably reduced shipments. 5.5 KMT of Indian rice was imported to Ukraine in the period under review against 7.9 KMT in July-November 2015/16. Rice imports from Pakistan plummeted to 2.4 KMT that is down two-thirds from last year. However, some increase in rice purchases from Kazakhstan. So, Kazakhstan had exported to Ukraine 78% more rice than for the entire last season. Logistic advantages along with a rice crop increase in Kazakhstan suggest that Kazakh rice deliveries to Ukraine will further expand.

Rice Harvesting of the market year 2016/17in Pakistan rice crop is complete and initial reports suggest production was 6.6 MMT, down slightly from a year ago. MY15/16 production is slightly higher based on the latest official data. During MY 2015-16, Pakistan exported nearly 4.3 MMT of rice, slightly above the current USDA estimate of 4.2 MMT. Sri Lanka is to import over 250,000 tons of rice to maintain a buffer stock sufficient for one and half months owing to a possible shortage of rice during the first quarter of next year, due to drought. The Government has taken a decision to import rice through the private sector and provide bonded warehouse facilities for them as the country's rice production is expected to drop during the drought period. While the private sector will be allowed to freely import rice, there won't be any imports by the government unlike during the previous regime, he pointed out.

The Philippines' state grains agency has approved permits for local rice traders to import 641,080 tons of the staple grain from Thailand, Vietnam, Pakistan and India. The approved imports, which must be brought in by Feb. 28, 2017, account for 80 percent of the maximum volume of 805,200 tons that private traders are allowed to bring in under an annual country-specific quota scheme. Private traders will import 284,780 tons of rice from Thailand; 294,020 tons from Vietnam; 56,140 tons from Pakistan; and 6,140 tons from India. Fresh demand from the Philippines, one of the world's biggest rice buyers, could underpin export prices particularly in Vietnam and Thailand, traditionally its main suppliers. Rice export prices in India and Vietnam weakened last week on thin demand, but still failed to attract buyers, while prices rose slightly in Thailand amid a slowing harvest.
