Sri Lanka is to import over 250,000 tons of rice to maintain a buffer stock sufficient for one and half months owing to a possible shortage of rice during the first quarter of next year, due to drought. The Government has taken a decision to import rice through the private sector and provide bonded warehouse facilities for them as the country's rice production is expected to drop during the drought period. While the private sector will be allowed to freely import rice, there won't be any imports by the government unlike during the previous regime, he pointed out.

The Philippines' state grains agency has approved permits for local rice traders to import 641,080 tons of the staple grain from Thailand, Vietnam, Pakistan and India. The approved imports, which must be brought in by Feb. 28, 2017, account for 80 percent of the maximum volume of 805,200 tons that private traders are allowed to bring in under an annual country-specific quota scheme. Private traders will import 284,780 tons of rice from Thailand; 294,020 tons from Vietnam; 56,140 tons from Pakistan; and 6,140 tons from India. Fresh demand from the Philippines, one of the world's biggest rice buyers, could underpin export prices particularly in Vietnam and Thailand, traditionally its main suppliers. Rice export prices in India and Vietnam weakened last week on thin demand, but still failed to attract buyers, while prices rose slightly in Thailand amid a slowing harvest.
