

Domestic Market Highlights:

All-India progressive procurement of Rice as on 05.05.2017 for 2016-17 was 351.45 lakh tonnes against the procurement of 320.62 lakh tonnes in the corresponding period of last year. The procurement of wheat for the rabi marketing season (RMS) 2017-18 was 257.85 lakh tonnes against the procurement of 215.63 lakh tonnes in the corresponding period of RMS 2016-17.

The 3rd Advance Estimates of production of major crops for 2016-17 have been released by the Department of Agriculture, Cooperation and Farmers Welfare. The assessment of production of different crops is based on the feedback received from States and validated with information available from other sources. As a result of very good rainfall during monsoon 2016 and various policy initiatives taken by the Government, the country has witnessed record food grain production in the current year.

Total production of Rice is estimated at record 109.15 million tonnes which is also a new record. This year's Rice production is higher by 2.50 million tonnes (2.34%) than previous record production of 106.65 million tonnes achieved during 2013-14. It is also higher by 3.73 million tonnes (3.54%) than the five years' average Rice production of 105.42 million tonnes. Production of rice has increased significantly by 4.74 million tonnes (4.54%) than the production of 104.41 million tonnes during 2015-16.

Indian FOB for 1121 steam in the month of April moved firm from last month and currently is in the range of USD 1229-1230/MT which is up by 7.5% from last month price of USD 1143/T. Average basmati rice price too firmed this month with higher demand and lower stocks, however from last one week prices traded weak due to profit booking by traders. According to the UN's Food and Agriculture Organization (FAO), Currently Pakistani basmati FOB is also moving firmer from last seven months due to lower production estimates and now it's hovering in the range of USD 1203-1205/MT which is also up by 11.66% from last month FOB of USD 1078/MT.

India average wholesale rice prices have decreases in April- 2017 due to some arrival pressure coming from traders who are doing profit booking at higher level, however prices is expected to move again firm after some correction as demand of Indian rice is coming from different countries. Average monthly wholesale rice prices in India stood at around Rs.2, 903 per quintal in April 2017, down about 3.11% from around Rs.2, 996 per quintal in March 2017, and up about 4.29% from around Rs.2, 785 per quintal a year ago. Agriwatch expects non-basmati rice market to move range bound with firm tone in coming month due to expectation of higher international demand.

As per market sources as on 11- May, Basmati rice traded at Rs.7300/quintal, 1121 golden sella rice traded @ Rs. 6600/quintal while 1121 sella at Rs.6300/quintal, 1121 steam rice traded @ Rs.7300/quintal, sharbati steam rice traded at Rs.4800/quintal and Parmal-11 steam at Rs.32-3300/quintal.

As per market sources as on 11-May, total paddy arrival in Narela mandi is 5000 bags with 1121 rate of Rs.3350/quintal.

As per market sources Iran is likely to produce 22.5 MMT of rice in 2017 compared to 21 MMT in 2016. For meeting its additional requirements of Basmati rice Iran depends on imports. However the increase in production over the years is continuously reducing its dependency on imports. Iran imported 14.40 LMT in 2013-14, 9.66 LMT in 2014-15, 6.95 LMT in 2015-16 and 5.50 LMT during the first ten months of 2016-17 i.e. from April'16 to January'17 from India. It is estimated that in fiscal year 2016-17 Iran is likely to import 6.50 LMT of basmati rice from India. Therefore Iran's demand of basmati rice is likely to fall in coming year on account of increase in production.

India's major rice importer, Government Trading Corporation of Iran (GTC) recently issued a tender for rice import of 65000 tons from India and Thailand. Iran import around 80-90% of country total rice import from India, but from last year, Iran banned rice imports due to huge stocks, which is ended now. As per USDA, Iran's milled rice ending stock for MY-2016-17 is likely to down by 53% to 321,000 tons from last year stock of 691,000 tons. Agriwatch expects that Iran will buy rice from India in coming months and thus aromatic rice price is likely to move up continuously in near to mid term.

Price Outlook:-Average Rice price in all India is likely to trade steady to firm tone due to fresh demand with lower arrival.

International Market Highlight:

Indonesia will export 15 to 50 thousand tons of rice to Malaysia in an effort to meet the country's demand. In addition to exporting rice to Malaysia, Indonesia had exported rice to Papua New Guinea, which was shipped from Papua Province. According to government, rice stock now reaches 1.9 million tons and is sufficient to meet the public's need during the fasting month of Ramadan.

Vietnam exported an estimated 1.28 million tons of rice in the first three months of the year, which is 18 percent lower compared to same period last year. China remains Vietnam's largest rice importer, with a market share of 36 percent, followed by the Philippines with nearly 25 percent market share. The export drops were strongest in Ghana, Hong Kong and Malaysia.

As per USDA latest report, china rice imports for MY-2016-17 is unchanged at 5 million tons. Vietnam and Thailand remain leading exporters of rice to China due to their competitive prices and freight advantage. Rice imports will continue to be profitable if South East Asian countries offer the prices below China's floor price of renminbi 2,660 per ton (\$389). The average CIF rice price from South East Asia to China is renminbi 2,432 per ton (\$350).

In a recent tender, Iran purchased about 40,000 tons of rice from Thailand which indicates that sanctions have been lifted. According to Thailand authorities, in late January that they had secured a deal to sell rice to Iran for the first time in 10 years, with delivery of 50,000 to 100,000 tons of white rice due over the next one to two months. About 300,000 tons in shipments would be made in total. The Iranian state grains buyer GTC bought Hom Mali grade A rice from Thailand at about €600 (US\$645) a ton. The rice was for shipment between April 15 and May 15 to Bandar Imam Khomeini or Bandar Abbas ports.

Thailand Unofficial preliminary rice exports (excluding premium white and fragrant rice) for February 27 – March 5, 2017, totaled 39,166 metric tons, down 99,799 metric tons from the previous week, and down 92,910 metric tons from the four-week moving average of 132,076 metric tons. Rice exports from January 1 – March 5, 2017, totaled 1,280,409 metric tons. Export prices declined 1-2 percent following the sale of 1.3 million metric tons of government food-quality rice stocks. The government is likely to retender the remaining food-quality rice stocks and issue a new tender for feed-quality rice stocks by the end of March 2017.
