to lower production estimates and now it's hovering in the range of USD 1203-1205/MT which is also up by 11.66% from last month FOB of USD 1078/MT.

India's major rice importer, Government Trading Corporation of Iran (GTC) recently issued a tender for rice import of 65000 tons from India and Thailand. Iran import around 80-90% of country total rice import from India, but from last year, Iran banned rice imports due to huge stocks, which is ended now. As per USDA, Iran's milled rice ending stock for MY-2016-17 is likely to down by 53% to 321,000 tons from last year stock of 691,000 tons. Agriwatch expects that Iran will buy rice from India in coming months and thus aromatic rice price is likely to move up continuously in near to mid team.

Price Outlook:-Average Rice price in all India is likely to trade steady to firm tone due to fresh demand with lower arrival.
