

Domestic Market Highlights:

Indian rice exports from October 2016 to March 2017 were estimated at 5.2 MMT compared to 4.8 MMT for the corresponding period last year, largely on strong resurgence in the demand for both Basmati and non-Basmati rice since December 2016. Assuming no significant changes in the price parity for Indian rice during the remaining marketing year, MY 2016-17 exports are likely to reach 11 MMT compared to 10.2 MMT in the previous year. However, any change in the import policy of the major destination country or in the value of Indian rupee against the US dollar may affect the export prospects in the second half of the marketing year. MY 2017-18 rice exports are forecast at 10 MMT on sufficient domestic supplies, assuming continued export demand and international price parity for Indian rice.
