

Domestic Market Highlights:

Due to current political unrest going on in Iran, major importers of 1121 rice are unwilling to buy in prevailing condition. Besides, liquidity crunch also is impacting price of 1121 rice. There is a common view that lower demand may further drag price down by Rs.150-200/quintal in the short term. Major Mills in markets of aromatic rice like Taraori, Kaithal, and Cheeka, 1121 sella traded at Rs.5850-5900/quintal. Paddy markets also traded weak. As new crop is still 4 months away, so market would improve once again from mid-July, by then more than 50 % of stock held with stockiest would be consumed and it would push price up once again in the medium term.

Assuming no significant changes in the price parity for Indian rice during the remaining marketing year, MY 2016-17 exports are likely to reach 11 MMT compared to 10.2 MMT in the previous year. However, any change in the import policy of the major destination country or in the value of Indian rupee against the US dollar may affect the export prospects in the second half of the marketing year. MY 2017-18 rice exports are forecast at 10 MMT on sufficient domestic supplies, assuming continued export demand and international price parity for Indian rice.

Average weekly wholesale rice prices in India stood at around Rs.3077 per quintal in first week of June- 2017, steady about 6.74% from around Rs.2882 per quintal in last week, and up about 6.44% from around Rs.2890 per quintal a year ago. Arrival in the mandis of major producing hubs like -Punjab and Haryana has come to halt now and sources say that old stock too is depleting fast in the mandis. Besides shortage of paddy, exporters start buying in the mandis. It drove the price of 1121 by rs 100 to Rs 6150 to Rs6250 per qtl. New crop is at

least away from 4 to 4.5 months from now. As buyers/exporters remain active, prices of rice is bound to move up by Rs 300/400 per qtl from current level. Firmness in rice market may continue on export demand.
