

Domestic Market Highlights:

The Government recently said it has not changed the policy on rice exports, following a “fake” notification which showed that non-basmati rice exports have been “prohibited” from September 15 till November 30 this year. This (fake notification) is of serious concern. Strict action should be taken against it. This (fake notification) shook the whole rice community.

Basmati rice has regained its position after MY-2014-15 as the top commodity export from India. The fine rice variety replaced buffalo meat to become the top most export for the April-June quarter. Basmati rice export volume were lower than buffalo meat due to import ban from Iran which is largest basmati rice importer from India, now Iran continuing importing basmati even during its harvest season. Another factor behind Basmati grabbing the top spot in exports is the decline in the export of buffalo meat due to ban on the sale of cattle in mandis hit the buffalo trade. The basmati exports increased from Rs 6,196 crore of last year's April-June quarter to Rs 8168 crore in the same quarter this year.

Uttar Pradesh Government decided to give bonus of Rs.15 on the support price of Paddy so that farmers must get right of their produce. Cabinet increases the paddy MSP by Rs.80/quintal for both common grade and fine grade variety to Rs. 1470/quintal and 1510/quintal respectively,

The 4th Advance Estimates of production of major crops for 2016-17 have been released by the Department of Agriculture, Cooperation and Farmers Welfare on 16th August, 2017. As per 4th Advance Estimates, the estimated production of major crops during 2016-17 for food grains is 275.68 million tons and for Rice it is 110.15 million tons.

India's agri exports for the April-June quarter rose by almost a tenth in dollar terms and 7% in rupee terms on strong overseas demand for products such as basmati rice and guar gum. Basmati rice, the

largest product in the agri-exports basket, increased buying from Iran during the period. Basmati volumes for the April-June quarter stood at 1.25 million tons, a growth of 6% over last year's 1.18 million tons. As per by APEDA, besides increased buying from Iran, the higher per unit realization fetched by basmati shipments also contributed to the overall export growth in value terms. As against per ton realization of around \$850 last year, basmati rice has commanded an average price of \$1009 per ton in the April-June quarter this year. Higher realizations for non-basmati rice have also pushed up the growth in exports of the cereal as volumes saw a marginal dip at 1.72 million tons (against 1.78 million tons).

Price Outlook:-Average Rice price in all India is likely to trade steady in coming weeks due to fresh arrival from major producing states which may pressurize paddy/rice market to some extent.

Exporters are also actively fulfilling pending shipments to African countries using mostly old-crop white rice sourced from government stocks. The new tender for the remaining 0.6 million metric tons of government stocks has not yet been finalized due to the government's ongoing investigation on non-food quality rice being resold in the food chain.

It has so far imported 200,000 tonnes of white rice at \$430 a tonne and

50,000 tonnes of parboiled rice at \$470 a tonne from Vietnam in a state-to-state deal at rates much higher than in tenders.
