

Domestic Market Highlights:

Indian Basmati rice exports have witnessed a rebound in registering a 32% growth in exports contributed by 25% increase in realizations and 7% increase in volumes. ICRA expects that the demand concerns in the form of Iran import ban and sluggishness from other key geographies would be overcome and export volumes in FY2018 to be around 4.1 million MT (4% higher than FY2017).

All-India progressive procurement of Rice as on 15.09.2017 for 2016-17 was 387.43 lakh tonnes against the procurement of 341.59 lakh tonnes in the corresponding period of last year. The procurement of wheat for the rabi marketing season (RMS) 2017-18 was 308.25 lakh tonnes against the procurement of 229.62 lakh tonnes in the corresponding period of RMS 2016-17.

The Government recently said it has not changed the policy on rice exports, following a “fake” notification which showed that non-basmati rice exports have been “prohibited” from September 15 till November 30 this year. This (fake notification) is of serious concern. Strict action should be taken against it. This (fake notification) shook the whole rice community.

Average weekly wholesale rice prices in India stood at around Rs.2880 per quintal in 02nd week of September- 2017, weak about 4.57% from around Rs.3017 per quintal in last week, and down about 2.61% from around Rs.2957/ quintal a year ago. Due to fresh arrival from major producing states, price is come down in this week and likely to stay steady in coming week.

The total paddy sown area as on 15th September-2017 was 374 lakh hectares which is down by 1.35% from last year area of 379.12 lakh hectares and up about 0.47% from normal area as on date of area of 372.24 lakh hectares.

Indian FOB for 1121 steam in the month of August moved weak from last month and currently is in the range of USD 998-1000/MT which is down by 4.32% from last month price of USD 1045/T. Average basmati rice price too frail this month with lower demand from international markets, however overall sentiments for basmati rice price remains firm in coming two months till the arrival of new crop which starts from October. According to the UN's Food and Agriculture Organization (FAO), Currently Pakistani basmati FOB is moving weak and now it's hovering in the range of USD 1125/MT which is also down by 5.85% from last month FOB of USD 1195/MT.

Basmati rice has regained its position after MY-2014-15 as the top commodity export from India. The fine rice variety replaced buffalo meat to become the top most export for the April-June quarter. Basmati rice export volume were lower than buffalo meat due to import ban from Iran which is largest basmati rice importer from India, now Iran continuing importing basmati even during its harvest season. Another factor behind Basmati grabbing the top spot in exports is the decline in the export of buffalo meat due to ban on the sale of cattle in mandis hit the buffalo trade. The basmati exports increased from Rs 6,196 crore of last year's April-June quarter to Rs 8168 crore in the same quarter this year.

Uttar Pradesh Government decided to give bonus of Rs.15 on the support price of Paddy so that farmers must get right of their produce. Cabinet increases the paddy MSP by Rs.80/quintal for both common grade and fine grade variety to Rs. 1470/quintal and 1510/quintal respectively,

The 4th Advance Estimates of production of major crops for 2016-17 have been released by the Department of Agriculture, Cooperation and Farmers Welfare on 16th August, 2017. As per 4th Advance Estimates, the estimated production of major crops during 2016-17 for food grains is 275.68 million tons and for Rice it is 110.15 million tons.

India's agri exports for the April-June quarter rose by almost a tenth in dollar terms and 7% in rupee terms on strong overseas demand for products such as basmati rice and guar gum. Basmati rice, the largest product in the agri-exports basket, increased buying from Iran during the period. Basmati volumes for the April-June quarter stood at 1.25 million tons, a growth of 6% over last year's 1.18 million tons. As per by APEDA, besides increased buying from Iran, the higher per unit realization fetched by basmati shipments also contributed to the overall export growth in value terms. As against per ton realization of around \$850 last year, basmati rice has commanded an average price of \$1009 per ton in the April-June quarter this year. Higher realizations for non-basmati rice have also pushed up the growth in exports of the cereal as volumes saw a marginal dip at 1.72 million tons (against 1.78 million tons).

Price Outlook:-Average Rice price in all India is likely to trade steady in coming weeks due to fresh arrival from major producing states which may pressurize paddy/rice market to some extent.

International Market Highlight:

The Bangladesh government will procure 50,000 tons of non-basmati and parboiled rice from Thailand through an international tender. The proposal signed by Food Secretary Md Kaikobad Hossain fixes the cost per metric ton of the staple at \$438, while the total cost of the import stands at \$21.9m (Tk181 crore). According to a recent report of the Food Ministry, the government has previously failed to import 300,000 tons of rice from Thailand and India due to price differences between the two countries and the international market. Last month, the government signed two deals with Vietnam and Cambodia to import 2.5 million tons of rice from each of the countries.

Unofficial and preliminary Thailand rice exports (excluding premium white and fragrant rice) for August 28 – September 3, 2017, totaled 187,803 metric tons, down 6,682 metric tons from the previous week, and up 686 metric tons from the four-week moving average of 187,117 metric tons. Rice exports from January 1 – September 3, 2017, totaled 5,939,672 metric tons.

Thailand Export prices increased 2-3 percent from the previous week due to new inquiries for white and parboiled rice from several African and Middle Eastern countries. Exporters are also actively fulfilling pending shipments to African countries using mostly old-crop white rice sourced from government stocks. The new tender for the remaining 0.6 million metric tons of government stocks has not yet been finalized due to the government's ongoing investigation on non-food quality rice being resold in the food chain.

According to the Department of Cultivation under the Ministry of Agriculture and Rural Development (MARD), Vietnam is likely to produce 44.1 million tons of rice in 2017. Unfavorable weather conditions shrank winter-spring rice yield by 300,000 tonnes. However, southern localities are estimated to enjoy a surge in rice production of 400,000 tonnes. They have already harvested 1.08 million hectares of rice, or 56.2 percent.

Pakistan rice exports from the country during the month of July, 2017 grew by 34.74 percent as about 200,995 metric tons of rice worth US\$ 107.896 million was exported as compared the exports of 164,092 metric tons valuing US\$ 83.974 million of same month last year. During the period under review, exports of basmati rice increased by 28.49 percent and reached at 30,951 metric tons worth of US\$ 32.990 million. The exports of basmati rice during July, 2016 were recorded at 28,725 metric tons valuing US\$ 27.731 million, according the data of Pakistan Bureau of Statistics. Meanwhile, the country earned US\$ 74.906 million by exporting about 170,044 metric tons of rice other than basmati rice, which was recorded at 135,367 metric tons valuing US\$ 56.24 million of same period last year.

Bangladesh will import 250,000 tonnes of white rice at \$453.00 a tonne from Cambodia in a government-to-government deal. The country produces around 34 million tonnes of rice annually but uses almost all its production to feed its population, and often requires imports to cope with shortages caused by floods or droughts. It has so far imported 200,000 tonnes of white rice at \$430 a tonne and 50,000 tonnes of parboiled rice at \$470 a tonne from Vietnam in a state-to-state deal at rates much higher than in tenders.

USDA increased its global rice ending stocks estimates by 0.398 MMT TO 122.918 MMT for 2017/18 compared to last month due to fall in domestic consumption estimates by 0.263 MMT for 2017/18 compared to last month estimates.
