Unofficial and preliminary Thailand rice exports (excluding premium white and fragrant rice) for September 4-10, 2017, totaled 185,583 metric tons, down 2,220 metric tons from the previous week and down 9,750 metric tons from the four-week moving average of 195,333 metric tons. Rice exports from January 1 – September 10, 2017, totaled 6,017,791 metric tons.

The Bangladesh government will procure 50,000 tons of non-basmati and parboiled rice from Thailand through an international tender. The proposal signed by Food Secretary Md Kaikobad Hossain fixes the cost per metric ton of the staple at \$438, while the total cost of the import stands at \$21.9m (Tk181 crore). According to a recent report of the Food Ministry, the government has previously failed to import 300,000 tons of rice from Thailand and India due to price differences between the two countries and the international market. Last month, the government signed two deals with Vietnam and Cambodia to import 2.5 million tons of rice from each of the countries.

Thailand Export prices increased 2-3 percent from the previous week due to new inquiries for white and parboiled rice from several African and Middle Eastern countries. Exporters are also actively fulfilling pending shipments to African countries using mostly old-crop white rice sourced from government stocks. The new tender for the remaining 0.6 million metric tons of government stocks has not yet been finalized due to the government's ongoing investigation on non-food quality rice being resold in the food chain.

According to the Department of Cultivation under the Ministry of Agriculture and Rural Development (MARD), Vietnam is likely to produce 44.1 million tons of rice in 2017. Unfavorable weather conditions shrank winter-spring rice yield by 300,000 tonnes. However, southern localities are estimated to enjoy a surge in rice production of 400,000 tonnes. They have already harvested 1.08 million hectares of rice, or 56.2 percent.

Pakistan rice exports from the country during the month of July, 2017 grew by 34.74 percent as about 200,995 metric tons of rice worth US\$ 107.896 million was exported as compared the exports of 164,092 metric tons valuing US\$ 83.974 million of same month last year. During the period under review, exports of basmati rice increased by 28.49 percent and reached at 30,951 metric tons worth of

US\$ 32.990 million. The exports of basmati rice during July, 2016 were recorded at 28,725 metric tons valuing US\$ 27.731 million, according the data of Pakistan Bureau of Statistics. Meanwhile, the country earned US\$ 74.906 million by exporting about 170,044 metric tons of rice other than basmati rice, which was recorded at 135,367 metric tons valuing US\$ 56.24 million of same period last year.

Bangladesh will import 250,000 tonnes of white rice at \$453.00 a tonne from Cambodia in a government-to-government deal. The country produces around 34 million tonnes of rice annually but uses almost all its production to feed its population, and often requires imports to cope with shortages caused by floods or droughts. It has so far imported 200,000 tonnes of white rice at \$430 a tonne and 50,000 tonnes of parboiled rice at \$470 a tonne from Vietnam in a state-to-state deal at rates much higher than in tenders.

USDA increased its global rice ending stocks estimates by 0.398 MMT TO 122.918 MMT for 2017/18 compared to last month due to fall in domestic consumption estimates by 0.263 MMT for 2017/18 compared to last month estimates.
