

Domestic Market Highlights:

Thanks to high basmati prices in the overseas market, exporters have registered a better realization in the first six months of the current fiscal as compared to the previous year. While the export of basmati has risen marginally by 3% during the period, the realization was 26% more per ton in dollar terms in the current year. As per the Agricultural and Processed Food Products Export Development Authority (APEDA) data, basmati exports during April-September (2017-18) was 21.32 lakh ton as compared to 20.67 lakh tone during the corresponding period previous year.

India average wholesale rice prices have increased slightly in October- 2017 due to increased demand from domestic and overseas buyers even with peak arrival season from producing belts. Average monthly wholesale rice prices in India stood at around Rs.2972 per quintal in October- 2017, up about 0.12% from around Rs.2968 per quintal in September 2017, and up about 3.74% from around Rs.2,865 per quintal a year ago. Agriwatch expects non-basmati rice market to move range bound with some weak tone in coming month due to arrival pressure in all major mandis.

The government's rice procurement rose marginally to 69.89 lakh tons (LT) so far in the 2017-18 marketing year that started this month, compared to 69.31 LT in the year-ago. Food Corporation of India (FCI), the nodal agency for procurement and distribution, had procured 381 LT in the 2016-17 marketing season (October-September). For the current year, the government has fixed a higher rice procurement target at 375 LT on hopes of good production. The arrival of paddy is picking up in mandis. Till last week, about 111 LT of paddy had arrived in Haryana, Punjab and Uttar Pradesh. FCI and state agencies, which normally buy in rice format, have procured 41.33 LT of the grain in Punjab and 28.56 LT in Haryana so far. The procurement in Uttar Pradesh and Uttrakhand has just begun and will pick up pace in the coming days, and over 22,000 tons have been procured from Uttar Pradesh so far.

All-India progressive procurement of Rice as on 27.10.2017 for 2017-18 was 103.15 lakh tonnes against the procurement of 100.00 lakh tonnes in the corresponding period of last year. The procurement of wheat for the rabi marketing season (RMS) 2017-18 was 308.25 lakh tonnes against the procurement of 229.62 lakh tonnes in the corresponding period of RMS 2016-17.

The Bangladesh government has decided to import 100,000 tons of parboiled rice from India in January to meet the growing domestic demand created by crop losses in recent floods. The rice will be supplied by Project and Equipment Corporation of India Ltd, under the Indian Commerce Ministry. This demand could influence rice price to a certain extent.

Indian FOB for 1121 steam in the month of September moved firm from last month and currently is in the range of USD 1070-1072/MT which is up by 7.20% from last month price of USD 998.59/T. Average basmati rice price too firmed this month with active demand from international markets, however sentiments for basmati rice price may change in coming months due to fresh arrival of crop. According to the UN's Food and Agriculture Organization (FAO), Currently Pakistani basmati FOB is moving weak and now it's hovering in the range of USD 1100/MT which is down by 2.22% from last month FOB of USD 1125/MT.

Price Outlook:-Average Rice price in all India is likely to trade steady in coming weeks due to fresh arrival from major producing states which may pressurize paddy/rice market to some extent.

International Market Highlight:

Pakistan's rice exports surged by 28.74% during the first three months of the country's current fiscal year starting from July 2017. Rice exports from the country jumped to 621,094 metric tons during the period as compared to the exports of 482,445 metric tons of the same period last year. Exports of the Basmati rice rose by 2.43% and reached at 86,672 tons valuing at 90.31 million dollars in the three months as against 92,321 metric tons worth 88.772 million dollars of the same period last year.

First Ten-month rice exports of Vietnam the world's third-largest shipper of the grain were forecast to rise 21.6 percent to 5 million tons. Revenue from the January-October rice exports was seen rising 20.3 percent year-on-year to \$2.2 billion. Vietnam would ship an estimated 400,000 tons of rice in October, compared to 516,000 tons in September

Despite foreign exchange appreciation, export prices for most grades of rice declined 1 percent from the previous week. The Thai baht appreciated again this week from 33.38 baht/U.S. \$1 to 33.18 baht/U.S. \$1.00. However, Thai rice quotations were lower this week as downward pressure on domestic prices for white and fragrant rice more than offset the strengthening of the Thai baht. Foreign buyers are reportedly waiting for supplies of MY217/18 main crop rice which are expected to enter the market in the latter half of October

Japan's MAFF regularly maintains 828,100 MT of rice in reserve. An additional 640,000 MT (actual tonnage) of MA rice stocks were held (as of October 2016), of which 350,000 MT (actual tonnage) is set aside for the GOJ contingency feed grain reserve. As a result of the decline in table rice production, private stocks have decreased in 2016 and 2017. Accordingly, aggregated ending stocks are expected to total 2.4 million MT in MY2016/17, and are forecast to further decline to 2.2 million MT in MY2017/18 (given an anticipated decrease in production).
