

Domestic Market Highlights:

All India progressive procurement of Rice as on 21 .02.2018 for 2017-18 was 296.87 lakh tons against the procurement of 290 lakh tons in the corresponding period of last year. Higher procurement has been received from northern states of Punjab (118.33 lakh Tons), Haryana (39.67 lakh tons), and U.P (28.22 lakh tons) and in south it is picking up in Telangana (12.24 Lakh Tons). Andhra Pradesh Government procurement has reached to 24. 40 lakh tons. Chhattisgarh government has also procured around 32.07 lakh tons of rice as of now. Madhya Pradesh and Odisha procurement has reached 10.96 and 21.42 lakh tons respectively. Procurement in West Bengal and other rice growing states is still underway and reached to 0.18 lakh tons.

All-India progressive procurement of Rice as on 16.02.2018 for 2017-18 was 293.94 lakh tons against the procurement of 285.05 lakh tons in the corresponding period of last year. Higher procurement than last year is receiving from states like Andhra Pradesh, Telangana, Haryana, Uttar Pradesh, Punjab, Odisha and Tamil Nadu while lower procurement received from States like Bihar, Chhattisgarh, Kerala, Madhya Pradesh and Uttarakhand.

As per Agriwatch, rice price in cash market is likely to going up in coming weeks due to lean season supported by higher demand and lower carry over stock. As per market sources, millers and exporters are highly active in gulf food which is going in Dubai Mall from 18-22 Feb-2018. Demand of Indian basmati paddy and rice like 1121, basmati, DP is highest in Middle East countries due to its aroma and taste, thus overseas demand push the rice price up in coming months.

Average wholesale weekly non-basmati rice prices in India stood at around Rs.3205 per quintal in First week of February- 2018; weak about 0.61% from last week price of 3225, and up by about 6.36% from Rs.3013 per quintal a year ago. Agriwatch expects non-basmati rice market to move range bound with firm tone in coming month due to overseas and local demand.

As on 02nd february-2018, acreage under rice was reported at 28.61 lakh hectares compared to 24.21 lakh hectares same time last year, thus 4.41 lakh hectares more area has been covered compared to last year. States having higher acreage compared to last year are Tamil Nadu, Andhra Pradesh, Telangana, Odisha and Kerala. States where acreage has declined are West Bengal, Karnataka and Chhattisgarh.

India's rice stocks in the central pool as on January- 1, 2017 stood at around 33.25 million tons up by about 12% from around 29.69 million tons recorded during the corresponding period last year, according to data from the Food Corporation of India (FCI). India's rice stocks in the central pool are up about by 10.35% from around 30.13 million tons recorded on December-01, 2017. Highest stock could be seen in the state of Punjab (134.25 lakh tons) followed by Haryana (34.87 lakh tons) and Chhattisgarh (24 Lakh Tons).

After flooding hit the rice crop in Bangladesh, India's rice exports likely jumped 22 percent in 2017 to a record 12.3 million tons. Bangladesh and Sri Lanka continue to buy aggressively amid depleting inventories in Number two exporter Thailand. Bangladesh's purchases likely lifted India's non-basmati rice exports by 38 percent in 2017 to 8.4 million tons and total exports to 12.3 million tons; Last year Bangladesh reduced import taxes on rice to boost private buying. It also bought rice from India in state-to-state deals. For key markets like Bangladesh and Sri Lanka, India has freight advantage over Thailand. This will help even in 2018.

Indian FOB for 1121 steam in the month of December moved weak from last month and currently is in the range of USD 1080-1085/MT which is down by 3.65% from last month price of USD 1126/T due to supply pressure in local markets, however prices of aromatic is likely to up in coming months due to higher overseas demand. Local aromatic rice prices too, are weak this month even with active demand from international markets. According to the UN's Food and Agriculture Organization (FAO), Currently

Pakistani basmati FOB is moving weaker from last month and is now hovering in the range of USD 1135.6/MT which is down by 1.67% from last month FOB of USD 1155/MT.

Price Outlook: - Rice prices are expected to ease to some extent in November with the arrival of the new crop across the country. However, domestic prices during the marketing year will also depend on the export demand and international price movement.

International Market Highlight:

Unofficial and preliminary Thailand rice exports (excluding premium white and fragrant rice) for January 29 – February 4, 2018, totaled 234,413 metric tons, up 23,272 metric tons from the previous week and up 17,838 metric tons from the four-week moving average of 216,575 metric tons. Rice exports from January 1- February 4, 2018, totaled 971,138 metric tons.

Thailand Export prices of white and parboiled rice further declined approximately 2 percent from the previous week due mainly to the lack of new inquiries. Additionally, the Thai baht is reversing from an appreciation trend over the past six weeks to 31.5 baht/U.S. \$1.00. Foreign buyers are reportedly delaying their purchase as rice prices remain volatile. However, export prices of fragrant rice continued to increase 6 percent from the previous week, driven by tighter domestic supplies. Farm-gate prices of fragrant paddy rice further increased to 16,033 baht per metric ton this week. This is a 56 percent increase from the same period last year.

According to the Vietnam Food Association (VFA), more than 5.7 million tons of rice was shipped abroad in 2017, surpassing last year's target. There remain some 630,000 tons of rice under contracts signed last year to be shipped in 2018. Global rice demand is forecast to soar in 2018, and China will remain the biggest rice importer. While Indonesia resumed rice imports after a two-year halt, the Philippines is also predicted to buy more rice. These rosy signs are expected to give a boost to rice exporters, including Vietnam, according to the VFA. In January, the country shipped 524,000 tons of rice worth 249 million USD abroad, up 56.5 percent in volume and 74.2 percent in value from a year earlier

MY 2017/18 (May-April) Bangladesh rice production is forecast down slightly to 32.65 million metric tons on lower Aman variety production caused by unexpected rain during the grain maturing stage. Post raised MY 2017/18 rice imports to 3.4 million metric tons based on increased demand until the next harvest. MY 2017/18 (July-June) wheat imports are forecast at 6.5 million tons, due to competitive international prices and strong demand. For MY 2017/18, Post's corn import forecast is raised by 0.1 MMT due to increased demand in the feed industry.

MY 2017/18 total rice area and production in Turkey are estimated at 99,000 hectares and 776,000 metric tons, up slightly from last year. Paddy rice was planted in April and the harvest was completed in October due to rains. The rice harvest started two weeks late all over the country. According to producers, new seed varieties have contributed to better yields.

Harvesting of the MY2017/18 rice crop is complete and production is estimated at 7.2 MMT, up 350,000 tons from a year ago. According to preliminary data during MY 2016/17, Pakistan exported 3.6 MMT of rice compared to 4.2 MMT during MY 15/16. Lower exports are mainly due to stiff competition from other suppliers such as Thailand, Vietnam, and India which continue to supply rice more competitively than Pakistan.

Vietnam exported roughly 5.9 million tons of rice worth nearly 2.7 billion U.S. dollars in 2017, posting respective year-on-year rises of 20.5 percent and 20.8 percent. Vietnam is likely to export 6.3 million tons of rice in 2018, mainly due to high demand from the Southeast Asian market, especially the Philippines. Vietnam's paddy rice-growing area was over 7.7 million hectares in 2017, down 26,100 hectares against 2016, said the Ministry of Agriculture and Rural Development. As a result, the country's paddy rice output dropped for the first time over the past 20 years to 42.8 million tons in 2017.
