

Domestic Market Highlights:

As per trade sources, total rice export in the month of March was 13.03 lakh tons, in which basmati rice contribution is 33.05% of total with quantity of 4.30 lakh tons and non-basmati contribution was 66.94% with quantity of 8.72 lakh tons. Major buyers of basmati rice were Iran, Saudi Arabia, UAE, Yemen and Iraq whereas non-basmati buyers from India in the month were Senegal, Saudi, Bangladesh, Sri-lanka and UAE.

India is likely to receive normal monsoon rains in 2018, the India Meteorological Department (IMD) said, raising the possibility of higher farm and economic growth in Asia's third-biggest economy, where half of the farmland lacks irrigation. The monsoon is considered normal if the average rainfall is between 96 to 104 per cent of long period average. Anything less than 90 per cent of LPA is termed a 'deficient' monsoon, and 90-96 per cent of the same is considered 'below normal'.

All-India progressive procurement of Rice as on 06.04.2018 for 2017-18 was at 314.18 lakh tons against the procurement of 315 lakh tons in the corresponding period of last year. Higher procurement has been received from northern states of Punjab (118.33 lakh Tons), Haryana (39.67 lakh tons), and U.P (28.75 lakh tons) and in south it is picking up in Telangana (12.23 Lakh Tons). Andhra Pradesh Government procurement has reached to 27.89 lakh tons. Chhattisgarh government has also procured around 32.07 lakh tons of rice as of now. Madhya Pradesh and Odisha procurement has reached 10.96 and 24.79 lakh tons respectively. Procurement in West Bengal and other rice growing states is still underway and reached to 0.31 lakh tons.

Average monthly wholesale rice prices in India stood at around Rs.2941 per quintal in March-2018, up about 2.90% from around Rs.2858 per quintal in February- 2018, and up about 2.97% from around Rs.2856 per quintal a year ago. Agriwatch expects non-basmati rice market to move range bound with firm tone in coming month due to overseas and local demand.

Indian FOB for 1121 steam in the month of March moved weak from last month and currently is in the range of USD 1117/MT which is down by 2.68% from last month price of USD 1148/T due to correction in the local market. Aromatic rice prices are also traded weak with lethargic buying from millers; Agriwatch expects that aromatic international rice price is likely to trade firm in coming months with good overseas demand. According to the UN's Food and Agriculture Organization (FAO), Currently Pakistani basmati FOB is moving firmer from last month and is now hovering in the range of USD 1072/MT which is down by 2.1% from last month FOB of USD 1095/MT.

Average wholesale weekly non-basmati rice prices in India stood at around Rs.3050 per quintal in fourth week of March- 2018; firm about 0.5% from last week price of Rs.3033/quintal and firm by about 1.65% from Rs.3000 per quintal a year ago. Agriwatch expects non-basmati rice market to move range bound in coming month due to millers demand.

India's rice stocks in the central pool as on March- 1, 2017 stood at around 33.32 million tons up by about 6% from around 31.43 million tons recorded during the corresponding period last year, according to data from the Food Corporation of India (FCI). India's rice stocks in the central pool are down about by 1.88% from around 33.96 million tons recorded on February-01, 2018. Highest stock could be seen in the state of Punjab (85.28 lakh tons) followed by Uttar Pradesh (24.20 Lakh Tons), Andhra Pradesh (19.06 lakh tons) and Haryana (19.98 lakh tons).

Agriwatch has updated the rice exports in the month of March based on data released by APEDA. Rice export in MY-2017-18 starting from Oct-17 to Jan-17 was 43.89 lakh tons which is 55% higher than last year till January export of 28.43 lakh tons, higher export demand from Middle East, Sri-lanka, Bangladesh and African countries led to increase in rice export. Non-basmati rice export in MY-2017-18(Oct-Jan) was 32.69 lakh tons which is higher than 97% from last year export of 16.63 lakh tons of

corresponding months, while basmati rice in these months were 11.2 lakh tons against 11.8 lakh tons of corresponding period last year.

Price Outlook: - Rice prices are expected to ease to some extent in November with the arrival of the new crop across the country. However, domestic prices during the marketing year will also depend on the export demand and international price movement.

International Market Highlight:

Indonesia's state food procurement agency Bulog is seeking offers from sellers in Pakistan to buy about 50,000 tonnes of rice. The agency is seeking rice of both 5 per cent broken grade and 15 percent broken grade. Bulog said on March 20 it planned to import a total 500,000 tonnes of rice up to the end of June to improve local supplies and cool domestic prices. Bulog bought about 500,000 tonnes of rice to be sourced from Vietnam and Thailand, traders said on March 29. Bulog also bought about 50,000 tonnes of rice from Pakistan on March 21 for shipment up to May 31.

MY 2018/19 (May-April) Bangladesh total rice area and production levels are forecast to increase to 11.7 million hectares (HA) and 34.7 million metric tons (MMT), due to a recovery from last year's Boro and Aman crop losses and an expected higher price. MY 2018/19 rice imports are forecast to fall to 0.8 MMT due to higher domestic production while assuming favorable weather conditions. The rice import estimate is revised upward to 3.6 MMT in MY 2017/18 due to increased imports to fill the supply shortfall caused by the previous year's devastating flood.

Indonesia's rice imports in 2017-18 are expected to rise to 1.3 million tons as the country attempts to stabilize prices and rebuild stocks. The Indonesian Bureau of Logistics (BULOG) has set its domestic procurement target for 2017-18 at 2.7 million tons of milled rice equivalent but only 650,000 tons had been procured through March. Faced with rising prices prior to the main harvest and BULOG's insufficient stocks, on Jan. 11 the Minister of Trade instructed BULOG to import 500,000 tons of rice.

According to Thai Rice Export Association, Rice exports of Thailand in 2018 will be less than the target growth of 9.5 percent due to strong baht and decrease in rice production, the target was 18 percent lower than 2017's 11.6 million tons. Meanwhile, The Thai Government recently announced the rice production in 2018 stands at 30 million tons, a decline compared to the 33 million tons of 2017.

Unofficial and preliminary Thailand rice exports (excluding premium white and fragrant rice) for March 12- 18, 2018, totaled 235,513 metric tons, up 42,385 metric tons from the previous week and up 57,896 metric tons from the four-week moving average of 177,617 metric tons. Rice exports from January 1- March 18, 2018, totaled 2,120,456 metric tons.

Thailand MY2017-18 and MY2018-19 rice stocks are likely to decline to around 3 million metric tons due to the reduction in government rice stocks. The government is expected to sell the remaining 1.5 million metric tons of feed-quality rice stocks and 0.6 million metric tons of deteriorated rice stocks in 2018. Traders expect that most of these remaining feed-quality government rice stocks will likely be used for swine feed while the deteriorated rice stocks will be used for fertilizer and power generation. The sale of the remaining government stocks in 2018 means that ending stocks for MY2017-18 and MY2018-19 are all private stocks. Normally, private sector maintains stocks for around 2 months of use. However, due

to the large quantities of government stocks, private industry has been carrying a lot less the last couple of years.

Turkey's state grain board TMO has issued a series of international tenders to purchase a total 30,000 tons of rice. The TMO had made no purchase in its previous tenders for 41,250 tons of rice on March 8 when only one company participated, partly because of a rapid shipment period of March 15 to April 6. Shipment in the new tenders was also quick, requested between March 26 to April 16. The TMO has issued 30 separate tenders of 1,000 tons, long grain medium grain rice is sought. The TMO reserves the right to purchase 20 percent more or less than the tender volumes.

Thai rice exports will reach 9.5 million tons this year due to stable high demand in the global market. Between January and March 2018, Thailand sold 2 million tons of rice to overseas buyers, accounting for an increase of 4.17% year-on-year. The combined value of rice exports rose 22.13% to 999 million US dollars during the period. Global rice production is expected to drop to 484.33 million tons this year due to the low production output among major producers such as India, Bangladesh, USA, South Korea, and Japan, in addition to a slight decrease in rice consumption as some consumers turn to other high-fiber crops.
