

### **Domestic Market Highlights:**

**All-India progressive procurement of Rice as on 23.04.2018 for 2017-18 was at 319.20 lakh tons against the procurement of 322 lakh tons in the corresponding period of last year. Higher procurement has been received from northern states of Punjab (118.33 lakh Tons), Haryana (39.67 lakh tons), and U.P (28.75 lakh tons) and in south it is picking up in Telangana (13.15 Lakh Tons). Andhra Pradesh Government procurement has reached to 28.89 lakh tons. Chhattisgarh government has also procured around 32.07 lakh tons of rice as of now. Madhya Pradesh and Odisha procurement has reached 10.96 and 25.16 lakh tons respectively. Procurement in West Bengal and other rice growing states is still underway and reached to 0.35 lakh tons.**

**Iran, which is major rice importer country, is allowed to import rice until July 22 and there will be no changes in the customs tariffs on the imports of the product due to ongoing water crisis in the country. Iran normally allows imports of rice in late September when the local farmers have concluded cultivating the cereal grain and again limits the imports in late July.**

**India's rice stocks in the central pool as on April- 1, 2018 stood at around 30.04 million tons down by about 10% from around 33.32 million tons recorded during the corresponding period last year, according to data from the Food Corporation of India (FCI). India's rice stocks in the central pool are up 3.33% about by from around 29.78 million tons recorded on April-01, 2017. Highest stock could be seen in the state of Punjab (85.28 lakh tons) followed by Uttar Pradesh (24.20 Lakh Tons), Andhra Pradesh (19.06 lakh tons) and Haryana (19.98 lakh tons).**

**Average wholesale weekly non-basmati rice prices in India stood at around Rs.2912 per quintal in third week of April- 2018; weak about 0.27% from last week price of Rs.2920/quintal and firm by about 0.16% from Rs.2907 per quintal a year ago. Agriwatch expects non-basmati rice market to move range bound in coming month due to steady demand.**

**As per trade sources, total rice export in the month of March was 13.03 lakh tons, in which basmati rice contribution is 33.05% of total with quantity of 4.30 lakh tons and non-basmati contribution was 66.94% with quantity of 8.72 lakh tons. Major buyers of basmati rice were Iran, Saudi Arabia, UAE, Yemen and Iraq whereas non-basmati buyers from India in the month were Senegal, Saudi, Bangladesh, Sri-lanka and UAE.**

**India is likely to receive normal monsoon rains in 2018, the India Meteorological Department (IMD) said, raising the possibility of higher farm and economic growth in Asia's third-biggest economy, where half of the farmland lacks irrigation. The monsoon is considered normal if the average rainfall is between 96 to 104 per cent of long period average. Anything less than 90 per cent of LPA is termed a 'deficient' monsoon, and 90-96 per cent of the same is considered 'below normal'.**

**Indian FOB for 1121 steam in the month of March moved weak from last month and currently is in the range of USD 1117/MT which is down by 2.68% from last month price of USD 1148/T due to correction in the local market. Aromatic rice prices are also traded weak with lethargic buying from millers; Agriwatch expects that aromatic international rice price is likely to trade firm in coming months with good overseas demand. According to the UN's Food and Agriculture Organization (FAO), Currently Pakistani basmati FOB is moving firmer from last month and is now hovering in the range of USD 1072/MT which is down by 2.1% from last month FOB of USD 1095/MT.**

**Price Outlook:** - Rice prices are expected to ease to some extent in November with the arrival of the new crop across the country. However, domestic prices during the marketing year will also depend on the export demand and international price movement.

### International Market Highlight:

**Rice exports from Pakistan during first 9 months of current financial year increased by 27.67 percent as compared the exports** of the corresponding period of last year. During the period from July-March, 2017-18, about 3,132,997 metric tons of rice worth US\$ 1.494 billion exported as compared the exports of 2,681,253 metric tons valuing of US\$ 1.170 billion of same period last year. Basmati rice exports from the country also grew by 19.13 percent as 332,179 metric tons of basmati rice costing US\$ 348.558 million exported during last 9 months as against the exports of 302,339 metric tons valuing US\$ 290.897 million of same period last year. During the period under review, about 2,800,818 metric tons of rice others then basmati were exported and earned US\$ 1.148 billion as compared the exports of 2,378,914 metric tons valuing of US\$ 897.804 million of same period last year, showing an increase of 30.49 percent

**Unofficial and preliminary Thailand rice exports (excluding premium white and fragrant rice) for April 2-8, 2018,** totaled 97,675 metric tons, down 116,199 metric tons from the previous week and down 80,599 metric tons from the four-week moving average of 178,274 metric tons. Rice exports from January 1- April 8, 2018, totaled 2,687,472 metric tons.

**Indonesia's state food procurement agency Bulog is seeking offers from sellers in Pakistan to buy about 50,000 tons** of rice. The agency is seeking rice of both 5 per cent broken grade and 15 percent broken grade. Bulog said on March 20 it planned to import a total 500,000 tons of rice up to the end of June to improve local supplies and cool domestic prices. Bulog bought about 500,000 tons of rice to be sourced from Vietnam and Thailand, traders said on March 29. Bulog also bought about 50,000 tons of rice from Pakistan on March 21 for shipment up to May 31.

**MY 2018/19 (May-April) Bangladesh total rice area and production levels are forecast to increase to 11.7 million hectares (HA)** and 34.7 million metric tons (MMT), due to a recovery from last year's Boro and Aman crop losses and an expected higher price. MY 2018/19 rice imports are forecast to fall to 0.8 MMT due to higher domestic production while assuming favorable weather conditions. The rice import estimate is revised upward to 3.6 MMT in MY 2017/18 due to increased imports to fill the supply shortfall caused by the previous year's devastating flood.

**Indonesia's rice imports in 2017-18 are expected to rise to 1.3 million tons as the country attempts to stabilize prices and** rebuild stocks. The Indonesian Bureau of Logistics (BULOG) has set its domestic procurement target for 2017-18 at 2.7 million tons of milled rice equivalent but only 650,000 tons had been procured through March. Faced with rising prices prior to the main harvest and BULOG's insufficient stocks, on Jan. 11 the Minister of Trade instructed BULOG to import 500,000 tons of rice.

**According to Thai Rice Export Association, Rice exports of Thailand in 2018 will be less than the target growth of 9.5 percent** due to strong baht and decrease in rice production, the target was 18 percent lower than 2017's 11.6 million tons. Meanwhile, The Thai Government recently announced the rice production in 2018 stands at 30 million tons, a decline compared to the 33 million tons of 2017.

Turkey's state grain board TMO has issued a series of international tenders to purchase a total **30,000 tons of rice**. The TMO had made no purchase in its previous tenders for 41,250 tons of rice on March 8 when only one company participated, partly because of a rapid shipment period of March 15 to April 6. Shipment in the new tenders was also quick, requested between March 26 to April 16. The TMO has issued 30 separate tenders of 1,000 tons, long grain medium grain rice is sought. The TMO reserves the right to purchase 20 percent more or less than the tender volumes.
