- **The export offer price of 5% of broken sela rice of India reached \$ 389-393 per ton with an increase of \$ 3, while last week it dropped to the lowest level after 20 April 2017. It is expected that due to the softening of prices in recent times, the competitiveness of Indian rice has increased in the international market and due to the cheap foreign importers have started showing good interest in its procurement. Buyers in Africa are giving new orders. Bangladesh nation imported 19,600 tons of rice in July. International Market Highlight:

The federal government of China has already provided theoretical approval for the import of non-basmati rice and for this there has been a stamp on the name of some Indian rice mills (firms) but its actual contract or shipment has not been possible so far. According to a senior government official, Chinese officials are inspecting Indian rice mills, so that they can be duly approved for the import of non-basmati rice. While China is the world's largest rice-producing country, there is a need to import it there. So far, he has been importing rice mainly from Thailand, Vietnam, Myanmar, Cambodia and Pakistan, while further importing its vast quantity from India. Indian Millers are giving China the confidence to provide good quality rice at competitive prices.

Cambodia exported 271,500 tons of milled rice in the first six months of 2018, down 5.9 percent from 288,500 tons over the same period last year.

Iran rice imports in the first three months of current year (March 21-June 21), were around 379,000 tons of rice worth \$375 million showing 7.9% and 1.3% decrease in volume and value respectively compared with the corresponding period last year

Thailand Rice export prices declined 2 percent due to the Thai baht weakening from 31.9 baht/U.S. \$1.00 to 32.5 baht/U.S. \$1.00 over the past week. This is the lowest the Thai baht has been since December 2017. Additionally, the government is expected to sell almost all of the remaining 2 million metric tons of rice stocks through the two tenders issued last week. Unofficial and preliminary rice exports (excluding premium white and fragrant rice) for June 4-10, 2018, totaled 210,924 metric tons, up 74,436 metric tons from the previous week and up 48,202 metric tons from the four-week moving average of 162,722 metric tons. Rice exports from January 1 – June 10, 2018 totaled 4,045,895 metric tons.

The rice exports from Pakistan during 11 months of current financial year registered 29.15 percent growth as compared the exports of corresponding period of last year as about 3.842 million metric tons of rice worth \$1.889 billion exported. During the period from July-May, 2017-18, 461,472 metric tons of basmati rice worth \$478.853 million was exported as against the exports of 406,824 metric tons worth \$385.746 of same period last year. In last 11 months of financial year 2017-18, basmati rice exports grew

by 24.14 percent as compared the exports of the corresponding period of last year. The exports of rice other than basmati witnessed 104.16 percent growth during the period under review and about 322,802 metric tons of rice worth \$156.514 million exported as against the exports of 173,782 metric tons valuing \$76.664 million of same month of last year.

Philippines rice imports in 2019 could decline by 21.42 percent to 1.1 million metric tons (MMT), as the increase in palay output would allow the Philippines to end 2018 with more stocks. The United States Department of Agriculture (USDA) said in a report that the country's total rice imports next year would decline by 300,000 metric tons (MT), from the projected 1.4 MMT this year. The Philippines is down 300,000 tons to 1.1 million tons on more abundant domestic supplies,

MY 2018/19 (May-April) Bangladesh total rice area and production levels are forecast to increase to 11.7 million hectares (HA) and 34.7 million metric tons (MMT), due to a recovery from last year's Boro and Aman crop losses and an expected higher price. MY 2018/19 rice imports are forecast to fall to 0.8 MMT due to higher domestic production while assuming favorable weather conditions. The rice import estimate is revised upward to 3.6 MMT in MY 2017/18 due to increased imports to fill the supply shortfall caused by the previous year's devastating flood.
