

Domestic Market Highlights:

- **The major food grains-rice acreage in Kharif season is reported to be declining in many states, which include** major producing states like Uttar Pradesh, Bihar, West Bengal, Jharkhand, Orissa, Karnataka, Assam and Tamil Nadu. As on 27th July-2018, about 197.63 lakh hectares area coverage under rice has been reported compared to normal of corresponding week (223.95 Lakh hectares), thus 26.32 lakh hectares less area has been covered compared to normal of corresponding week. Higher area is reported from the states of Madhya Pradesh (4.92 Lakh hectares), Andhra Pradesh (2.06 Lakh hectares), Telangana (1.56 Lakh hectares), Haryana (1.18 Lakh hectares), Punjab (0.77 Lakh hectares), Uttarakhand (0.19 Lakh hectares), Maharashtra (0.27 Lakh hectares).
- **This year, the Punjab government had reduced the area of paddy by one lakh hectare but so far, 29.57 lakh** hectares of paddy was planted and it is expected to reach 30 lakh hectares which is almost same as last year.
- **Chinese government allowed import of rice to 5 more rice mills in India** There are **Lal Setia, Adani etc** Companies which will now export rice from India to China while the other 4 companies are asked to improve the storage conditions by the Chinese government.
- **Due to the softness in the prices of benchmark Indian non-basmati rice during the last few days, there is** now a signal of increase in export demand, which is likely to improve its prices. Rice prices have remained largely stable due to the cool trade and abundant supply in other producing and exporting countries of Asia.
- **The export offer price of 5% of broken sela rice of India reached \$ 389-393 per ton with an increase of \$ 3,** while last week it dropped to the lowest level after 20 April 2017. It is expected that due to the softening of prices in recent times, the competitiveness of Indian rice has increased in the international market and due to the cheap foreign importers have started showing good interest in its procurement. Buyers in Africa are giving new orders. Bangladesh nation imported 19,600 tons of rice in July. There is a huge increase of 28 percent duty on rice imports, which has imposed a great extent on its imports. Last year, he bought rice from India in huge quantities.
- **Despite the increase in the MSP of paddy by the central government to Rs 200 a quintal, the disappointment** in the farmers of Chhattisgarh But the farmers of Chhattisgarh hope that the existing government will pay 2100 rupees for their paddy to the farmers. The Minister of Agriculture of Chhattisgarh said that the government can give a bonus of Rs.300 / - per quintal to the farmers so that the farmers can get a price of Rs.2050 per quintal.
- **All-India progressive procurement of Rice as on 20.07.2018 for 2017-18 was at 363.23 lakh tons against** the procurement of 380.02 lakh tons in the corresponding period of last year. Higher procurement has been received from northern states of Punjab (118.33 lakh Tons), Haryana (39.67 lakh tons), and U.P (28.75 lakh tons) and in south it is started in Telangana (34.92 Lakh Tons). Andhra Pradesh Government procurement has reached to 38.72 lakh tons. Chhattisgarh government also procured around 32.07 lakh tons of rice as of now, Madhya Pradesh and Odessa procurement reached to 10.96 and 28.65 lakh tons respectively. Procurement in West Bengal and other rice growing states is still underway.

- **Rice export from India in the month of June-2018 was 15.02 lakh tons in which basmati rice contribution was 31.9% of total and around 4.79 lakh tons of aromatic rice was exported in the month, Iran, Iraq and Saudi Arabia were the major Indian aromatic rice importers in this month; on the other hand non-basmati rice export in this month was 10.23 lakh tons which was higher by around 6.56% from previous month export, major importing countries of non-basmati rice in the month were Benin, Indonesia and Bangladesh followed by Qatar. Total rice export in MY-2017-18 (From Oct to May) from India was 10.53 lakh tons up by 33% from corresponding period of last year export of 79.2 lakh tons.**

Price Outlook: - Rice prices are expected to trade steady in Last week of July with the normal domestic demand across the country. However, prices during the last quarter of MY 2017-18 will largely depend on the progress of 2018 monsoon and the impact on MY 2018-19 rice planting.

International Market Highlight:

The federal government of China has already provided theoretical approval for the import of non-basmati rice and for this there has been a stamp on the name of some Indian rice mills (firms) but its actual contract or shipment has not been possible so far. According to a senior government official, Chinese officials are inspecting Indian rice mills, so that they can be duly approved for the import of non-basmati rice. While China is the world's largest rice-producing country, there is a need to import it there. So far, he has been importing rice mainly from Thailand, Vietnam, Myanmar, Cambodia and Pakistan, while further importing its vast quantity from India. Indian Millers are giving China the confidence to provide good quality rice at competitive prices.

Cambodia exported 271,500 tons of milled rice in the first six months of 2018, down 5.9 percent from 288,500 tons over the same period last year.

Iran rice imports in the first three months of current year (March 21-June 21), were around 379,000 tons of rice worth \$375 million showing 7.9% and 1.3% decrease in volume and value respectively compared with the corresponding period last year

Thailand Rice export prices declined 2 percent due to the Thai baht weakening from 31.9 baht/U.S. \$1.00 to 32.5 baht/U.S. \$1.00 over the past week. This is the lowest the Thai baht has been since December 2017. Additionally, the government is expected to sell almost all of the remaining 2 million metric tons of rice stocks through the two tenders issued last week. Unofficial and preliminary rice exports (excluding premium white and fragrant rice) for June 4-10, 2018, totaled 210,924 metric tons, up 74,436 metric tons from the previous week and up 48,202 metric tons from the four-week moving average of 162,722 metric tons. Rice exports from January 1 – June 10, 2018 totaled 4,045,895 metric tons.

The rice exports from Pakistan during 11 months of current financial year registered 29.15 percent growth as compared the exports of corresponding period of last year as about 3.842 million metric tons of rice worth \$1.889 billion exported. During the period from July-May, 2017-18, 461,472 metric tons of basmati rice worth \$478.853 million was exported as against the exports of 406,824 metric tons worth \$385.746 of same period last year. In last 11 months of financial year 2017-18, basmati rice exports grew

by 24.14 percent as compared the exports of the corresponding period of last year. The exports of rice other than basmati witnessed 104.16 percent growth during the period under review and about 322,802 metric tons of rice worth \$156.514 million exported as against the exports of 173,782 metric tons valuing \$76.664 million of same month of last year.

Philippines rice imports in 2019 could decline by 21.42 percent to 1.1 million metric tons (MMT), as the increase in palay output would allow the Philippines to end 2018 with more stocks. The United States Department of Agriculture (USDA) said in a report that the country's total rice imports next year would decline by 300,000 metric tons (MT), from the projected 1.4 MMT this year. The Philippines is down 300,000 tons to 1.1 million tons on more abundant domestic supplies,

MY 2018/19 (May-April) Bangladesh total rice area and production levels are forecast to increase to 11.7 million hectares (HA) and 34.7 million metric tons (MMT), due to a recovery from last year's Boro and Aman crop losses and an expected higher price. MY 2018/19 rice imports are forecast to fall to 0.8 MMT due to higher domestic production while assuming favorable weather conditions. The rice import estimate is revised upward to 3.6 MMT in MY 2017/18 due to increased imports to fill the supply shortfall caused by the previous year's devastating flood.
