

Domestic Market Highlights:

- **Odisha Government has directed to procurement** agency to clear the payment of farmers in 72 hours. Odisha government has targeted procurement of 55 lakh ton Paddy compared to 49.06 lakh ton procurement in late kharif season.
- **Government has Procured 16.51 MT of Rice so far in 2018-19 marketing year** and total quantity is likely to cross the target of 37 million tons this 2018-19 season. During the last marketing year (October to September) government had procured 38.18 million tons. This year Government has fixed paddy MSP of 'common' grade variety at Rs 1,750 per quintal, while that of 'A' grade variety at Rs 1,770 per quintal.
- **So far, 215.65 lakh tons of Paddy has been procured from Punjab and Haryana. In which Punjab's share is 150.37 lakh tons.** Out of the total purchase, the remaining amount purchased by government agencies has been purchased by private millers. The Punjab government has so far paid Rs 23 thousand crore to the commission agent and farmers. In this kharif season, 65.28 lakh tons of paddy has been procured from Haryana, out of which 57.31 million procured by government agencies and rest 7.97 lakh tons of paddy is procured by private. This season, Punjab Government has set a target of procuring 200 lakh tons of paddy. In 2017-18 Punjab procured 180 lakh tons of paddy.
- **India's rice exports dropped 9.6 percent to 5.8 million tons between April and September from a year earlier,** as leading buyer Bangladesh trimmed purchases due to bumper local harvest.
- **Average weekly wholesale prices of rice in India stood at Rs.3016per quintal second week, down 6% from Rs.3211 per quintal** from the previous week, and up 6.42% from Rs.2833per quintal a year ago. Agriwatch expects non-basmati rice market to move steady with normal demand and exaptation of lower arrival from last year.
- **Various agencies of the country procured 180 lakh tons of paddy till Nov 5. Purchase of 115.12 from Punjab,** 55.55 from Haryana, 5.32 from Telangana, 1.26 from Tamil Nadu, 1.11 from Utrakhand, 0.33 from Kerala, 0.19 lakh tons from Chandigarh. The pace of procurement of paddy procurement in Uttar Pradesh was slow, this year Uttar Pradesh announced the purchase of 50 lakh tons of paddy, but the speed of procurement does not seem to be that the purchase will be in this quantity.
- **Due to the stability in production and increase in consumption, the global outstanding stock of rice is likely** to be reduced from 12.60 million tons in the year 2018-18 season to 12.40 million tons at the end of the 2018-19 season. Out of the five top exporting countries - India, Thailand, Vietnam, Pakistan and USA, the outstanding stocks of rice will be presently combined with 310 million tons. The majority of this is that 229 lakh tons is expected to be available in India.
- **Under the guidelines of Environmental Pollution (Prevention and Control) Authority, nearly 500 rice mills of Haryana,** Uttar Pradesh and Rajasthan will have to close their business from 4th November.
- **India's 2018-19 (Oct-Sep) basmati rice output at 5.31 million tons, down 6% from 5.64 million tons in the** previous year. At 5.31 million tons, basmati rice output projection for 2018 is lower than the industry estimate of 5.56 Million tons. According to a crop survey report, conducted

by Agricultural and Processed Food products Export Development Authority, the fall in basmati rice output this year was because of a decline in acreage due to crop shift in key growing regions. Total acreage under the notified varieties of basmati rice has declined around 2.48% on year to 1.52 million tons.

- **1121 Paddy arrival in Jind mandi is down by 76% from last year to 29185 quintals as on 30th Oct 2018**, PR paddy is also down in the mandi by 58% from last year arrival of 38269 quintals to 15835 quintal this year where as 1509 paddy arrival is higher than last year arrival of 55317 quintal to 107920 quintals this year. Arrival of Duplicate basmati in Pundri mandi is higher this year by 207% from 1130 quintal in 2017 to 3475 quintals in 2018.
- **Basmati paddy price is ruling around 20% higher in India compared with last year due to the depreciating rupee**, the government's decision to increase the minimum support price for non-basmati rice and a low carryover stock. The price is likely to firm up further as sentiment from global markets is positive and traders are keen to replenish stocks. The price is likely to firm up further as sentiment from global markets is positive and traders are keen to replenish stocks.
- **China recently sanctioned 4 more Indian Rice mills / companies to export rice. Now, 24 rice millers can export** non-basmati rice to China. China is one of the largest rice producing and consuming countries in the world and imports 5 million tons of rice annually. India can export one million tons of rice to China. India has become the world's largest exporting country by exporting 127 million tons of rice. During the visit of Prime Minister of India to China, the two countries had compromised on rice imports, after which the first shipments of 100 metric tons from Nagpur to China came out in November. If the pesticide in exported rice is done according to excise standards then it will be good news for rice markets.
- **Due to the all-round active buying of paddy, the prices touched the sky. Small Rice Millers are in a state** of distress and confused by seeing this fast that they do not buy or buy paddy. The fastest firmness came in the fine paddy, the production of fine rice this year, half of last year and the end of the old stock got support. The other paddy also caught the speed of the fine rice arrival.
- **In the domestic division, the prices of basmati paddy are high; especially Punjab and the farmers are getting** better earnings. Demand for Indian basmati rice is being revived in the global market due to which the millers and exporters are showing good interest in procurement of this paddy. Basmati rice prices in Haryana's mandis have reached this level of Rs 3,700 per quintal, which is about 30 percent higher than last year.
- **Despite the increase of paddy, the prices of paddy are going up fast. Whatever the paddy arrival are coming** in the market, rice millers are buying it in greater quantity. With the possibility of lower production of paddy and the old stock was reduced, rice mills came in all round purchase. This is the half of the paddy arrival in comparison to the previous year due to which the prices of paddy remained steady to firm. 1121 paddy price is likely to touch Rs.4000/quintal in coming month.
- **Saudi Arabia eased the rules of rice imported from India and said that India will have to reduce the level of pesticide** in rice in the future. This issue was discussed in a high-level meeting between India and Saudi Arabia last week. This is good news for rice markets.

International Market Highlight:

- **Rice production in South Korea hit the lowest in 38 years this year on the reduced area for rice paddies** and bad weather conditions. The estimated rice output for 2018 was 3,868,000 tons, according to Statistics Korea. It was down 2.6 percent from 3,972,000 tons tallied in 2017, marking the lowest since 1980 when the rice production was 3.55 million tons.
- **About 958,000 tons of wholly or semi-milled rice worth \$985.4 million were imported into Iran during the** first seven months of the current Iranian year (March 21-Oct. 22) to register a 12.54% and 4.21% decline in weight and value respectively compared with the similar period of last year.
- **A weaker baht pushed rice export prices in Thailand lower this week, although there were expectations of new deals** with the Philippines and China, while rates in India languished at the 21-month lows hit last week due to sluggish demand. In Thailand, benchmark 5% broken rice prices were quoted at \$380-\$400 per tonne, free on board (FOB) Bangkok, dropping from \$400-\$402 last week. The weakening of the baht against the US dollar was the main factor behind the drop in prices this week, Bangkok-based traders said, adding that overseas demand for Thai rice remained flat and the market also expected additional supply from the new crop. However, Thai rice exporters are expecting a deal with the Philippines before the end of the year and a possible government-to-government rice sale to China, the Rice Exporters Association of Thailand this week said it expects Thailand to meet the 11 million ton rice export target before the end of the year.
- **Iran has sold 74 tonnes of rice to Canada, marking the first export of the crop since the Islamic Republic** in 1979.
- **As per latest report by USDA, Bangladesh rice production estimate for marketing year (MY) 2018/19 (May-April)** is revised slightly upward to 34.5 million metric tons (MMT) based on increased Aus rice production. It is raised for MY 2018/19 rice imports to 0.8 million metric tons based on slightly increased demand until the next Aman rice harvest. Based on the latest official data, in MY 2018-19, Aus rice area and production estimates (May-April) are revised up to 1.1 million ha and production of 2.4 MMT. Aman rice cultivated area and its production forecast are marginally revised to 5.8 million ha and 13.2 MMT, assuming optimal growth and normal yield.
- **The TY 2017/18 (Jan-Dec) Bangladesh rice import forecast is lowered to 1.7 MMT from old post's estimate** based on weak import pace after imposing a higher import duty on rice in the July budget for FY 2018-19. According to official sources, 1.626 MMT of rice was imported in the period January to September, 2018. Imports in Jan-June were 1.557 MMT, and from July to September it was 0.68 MMT. In MY 2018/19, the rice import forecast is raised to 0.8 MMT from old post's estimate following yearly average imports.
- **Hom mali fragrant rice production for the 2018-19 main crop is expected to drop 10% from the previous season** because of drought in the North and Northeast. As a result, paddy production for the annual harvest season, which starts later this month, will decline from 7.6 million tonnes in

the previous season. Last year's premium rice production also fell from 7.9-8 million tonnes of paddy in previous years because of the impact of floods. overall rice production will stay at around 25 million tonnes of paddy rice this year, on par with the previous season, boosted by white paddy and glutinous paddy production. White paddy production is estimated at 9.2 million tonnes, a marginal rise from the previous season, while glutinous paddy production is predicted to rise to 6.2 million tonnes from 6 million.
