#### International Market Highlight:

- **Thailand Rice export prices further increased 1-2 percent from the previous week as foreign traders are still seeking** parboiled rice for African markets. Additionally, exporters are securing white and parboiled rice supplies for contracted shipments, particularly to African and Middle Eastern markets. This export demand for both white and parboiled rice caused further increase in farm-gate prices of white paddy rice by around 3 percent from the previous week. However, the increase in domestic prices of white paddy rice was partly offset by the weakening of the Thai baht, which further depreciated to 31.70 baht/U.S. \$1.00 from the previous week's exchange rate of 31.57 baht/U.S. \$1.00. Unofficial and preliminary rice exports (excluding fragrant rice) for March 25-31, 2019 totaled 149,538 metric tons, up 23,364 metric tons from the previous week and up 757 metric tons from the four-week moving average of 148,781 metric tons. There will be some lost market potential in the EU, offset by some increased market potential in China.
