

Domestic Market Highlights:

- **In the absence of monsoon, Chhattisgarh is once again becoming dry like situation. With fewer monsoons, paddy** cropping was not done in 50% of the area of Chhattisgarh. Durg and Rajnandgaon districts are battling shortage of water. Rainfall in the state so far 24% less than normal. If the rain does not rain at the right time, the productivity of crops especially paddy in Chhattisgarh can fall.
- **15,000 farmers of Haryana, who were producing traditional paddy for the last 20 years, sown maize** instead of paddy this year. Paddy has been sown in 6.8 lakh hectares in Haryana till July 18, which was 10.6 lakh hectare last year. About 23 thousand hectares of maize has been sown, which was 21 thousand hectare last year.
- **Indian farmers planted an array of summer-sown crops on 56.7 million hectares, down 6.9% year on year.** Planting of rice, the key summer crop, was at 14 million hectares on Friday, against 15.1 million hectares at the same time last year. The sowing of rice and pulses are worst affected with oilseeds and coarse cereals showing some recovery. Some of the States reporting lower planting of rice are Haryana, Madhya Pradesh, Chhattisgarh, West Bengal, Andhra Pradesh and Telangana. The monsoon rainfall has been patchy in most of these States so far this season India's monsoon rains were 20% below average in the week ending on Wednesday, with summer showers having turned patchy over the central, western and southern parts of the country. Overall, India has received 16% lower than average rain since the monsoon season began on June 1.
- **With the shortage of rain in Andhra Pradesh, the sowing of Kharif crops is going much behind the previous year** and its speed remains slow. According to official figures, till July 17 this year, the total production area of kharif crops was reached at 6.01 lakh hectares which is much lower than last year's sowing area of 11.48 lakh hectares and the general average area is only 15.7 percent of 38.30 lakh hectare. The Andhra Pradesh government has set a target of sowing of kharif crops in 42.04 lakh hectares this time. According to latest data of State Agriculture Department, this year, the production of paddy in Andhra Pradesh has dropped from 4.17 lakh hectares to 2.06 lakh hectare compared to last year.
- **The total procurement by FCI for Rice KMS 2018-19 stood at 437.51 lakh tonnes much higher than 381.84lakh tonnes in previous year** due to higher production estimate, procurement is higher this year as compare to last year. As on 8th July'19, highest procurement of 113.34 lakh tonnes was in Punjab followed by Telangana & AP procuring 51.86 lakh tonnes and 45.65 lakh tonnes respectively.
- **Government has offered 237290 tonnes of rice in OMSS until fourth tender in June'19 out of which 218690 tonnes was sold.** State government bought 218690 tonnes of rice whereas no sales happened among bulk consumers. In the month of June'19, government has sold 111000 tonnes of wheat against offered quantity of 190100 tonnes.
- **The Government has announced to increase the MSP of normal grade paddy by 65 rupees to 1815** and 'A' grade Paddy MSP of 1835 rupees per quintal. MSP increased in paddy, not according to expectation. The government does not want to encourage paddy sowing to see the water crisis. Increasing the MSP will not affect the prices of paddy.

- **Rice export prices in India edged higher this week, helped by an uptick in demand, while a strong Thai baht** propped up prices in the world's second largest rice exporter amid subdued consumption. In India, the top exporter of the staple grain, 5 percent broken parboiled variety was quoted around \$369-\$372 per tonne this week, up from last week's \$367-\$370. Traders are seeing interest building up from West African markets. Farmers have planted summer-sown rice on 630,000 hectares as of June 21, down 32% compared with the same period a year ago, according to provisional data from the Ministry of Agriculture, as the monsoon delivered less-than-average rainfall.
- **To save Basmati export to Europe, USA and Arab countries, Punjab, which is highest user of fertilisers** and insecticides per hectare in the country, much above the national average, has launched a 'pesticide-free' Basmati campaign in the state. Basmati exporters and Basmati growers in the state are now working together to use fewer pesticides in order to meet the new guidelines of the European Union (EU) and other countries regarding the Basmati import from India. This effort is to achieve total compliance with EU Maximum Residue Level (MRLs). The Department of Agriculture, through its network of field officers, would recruit fresh agriculture graduates to fan out to all the Basmati clusters in the state and directly remain in touch with the farmers.

International Market Highlight:

- **Thailand Rice export prices declined 1-2 percent due to the weakening Thai baht and the lack of new inquiries.** The Thai baht weakened to around 30.7 baht/U.S. \$1.00 from the record exchange rate of 30.4 baht/U.S. \$1.00 over the past two weeks. However, new inquiries for Thai rice remain quiet as Thai white rice prices are U.S. \$15-20/MT higher than Vietnamese and Indian rice. Additionally, Thai fragrant rice prices are U.S. \$500-600/MT higher than Vietnamese fragrant rice. Unofficial and preliminary Thailand rice exports (excluding fragrant rice) for June 24-30, 2019 totaled 100,146 metric tons, down 14,267 metric tons from the previous week and down 15,317 metric tons from the four week moving average of 115,463 metric tons. Rice exports from January 1 – June 30, 2019, totaled 3,373,365 metric tons, down 26 percent from the same period last year.
- **Restrictions will be imposed on rice cultivation in Iranian provinces other than the two Northern provinces** of Gilan and Mazandaran. According to deputy agriculture minister for water and soil affairs, the decision has been made by the Cabinet and conveyed to provinces across the country for implementation.
- **In the international market, India's 5% broken parboiled rice was quoted around \$371 - \$374 per tonne this week-** down from last week's \$373 - \$376. Aggressive selling of old inventories by China was reported to weigh on the global prices.
- **Bangladesh has postponed a decision on lifting its ban on rice exports** until the completion of summer rice harvest as cyclone Fani is estimated to have partially damaged the summer sown "Boro" crop on 55,600 hectares of land.
- **Egypt is seeking to buy at least 20,000 tonnes of 10-12 percent broken rice for delivery between July 25 and Aug. 20,** a source with Vietnam's Ministry of Industry and Trade was reported saying.

- **Ivory Coast banned rice imports from Singapore-based commodity trader Olam International for one year** after destroying an 18,000-tonne shipment of spoilt.
- **Rice production in Burma (also called Myanmar) in MY 2019/20 is forecast to increase as farmers increase** planting acreage in anticipation of favorable weather and due to attractive prices. Burma's overall rice exports in MY 2019/20 are forecast remain at the same level as MY 2018/19 at 3.0 MMT. There will be some lost market potential in the EU, offset by some increased market potential in China.
