

Domestic Market Highlights:

- Rice export rates in Asian hubs fell this week as weak demand and currency fluctuations prompted sellers in India and Thailand to cut prices, while expectations of lower interest from the Philippines weighed on the Vietnamese market. Thailand's benchmark 5% broken rice prices were quoted slightly lower at \$396-\$417 a tonne versus last week's \$400-\$420.Exporters have to lower prices to lure buyers. Thai exporters have struggled since the start of the year as the baht, which has been Asia's best performing currency this year, has kept Thai prices higher than those of competitors India and Vietnam. There could be a possible deal for parboiled rice from African markets ahead of Christmas, and perhaps some demand from China and other Asian markets for jasmine rice towards the end of the year. But as of now there is simply no major demand due to our high prices.
- Prices of top exporter India's 5% broken parboiled variety also extended losses, dipping to around \$369-\$373 per tonne from \$371-\$375 a week ago on a weak rupee and subdued demand. Demand is weak. Traders are waiting for the new season crop. Indian rice exports in April-July plunged 26.5% from a year ago to 3.14 million tonnes, a government body said last month, on subdued demand for non-basmati rice from Africa.
- Crop Production Estimates: As per the 01st Advance Crop Production Estimates 2019-20, Kharif Rice 2019-20 is estimated at 100.35 million tons. This is lower than the last year's production of 102.13 million tons. The 2018-19 Rabi season Rice production is estimated at 14.29 million tons as against 15.62 million tons last year. Total Rice production in 2018-19 is estimated at 116.42 million tons as against 112.76 million tons in 2017-18.
- 5 lakh tonnes of paddy arrived in the Karnal region of Haryana, out of which 3.6 lakh tonnes of paddy was purchased by the Food and Supply Department 97120 tonnes Hafed and 42667 tonnes by HSWC. Paddy piled into the mandis as government sales slowed due to storage problem.
- Punjab Government cuts Security Deposit for Rice Millers: The state of Punjab, which contributes the most to food grains in the central pool, has reduced the amount of security deposit from rice mill owners (rice millers) for paddy milling from Rs 10 lakh to Rs 7.25 lakh. This will provide considerable relief to the millers and it will have safe working capital of Rs 2.75 lakh. The Centre recently sanctioned Cash Credit Limit (CCL) amount of Rs 26,707.5 crore for procurement of paddy in the Kharif marketing season 2019-20 for the month of October. As 10th Oct 2019, a total of 3,26,839 MTs of paddy has been procured by state procurement agencies, with PUNGRAIN purchasing 1,27,575 MTs, followed by MARKFED (80025), PUNSUP (48387) and PSWC (38116). FCI has purchased 5627 MTs.
- The pace of paddy purchase in Patiala is very slow due to the factional strike: In Punjab, the state that contributed the most to food grains in the central pool, although the new marketing season for government procurement of paddy was formally started from October 1, the actual procurement pace is slowing down. Only 8500 tonnes of paddy arrived in the grain markets and government purchasing centers of Patiala district. There are 101 purchasing centers built for the purchase of paddy there, but due to very low arrival of paddy, only three centers Rajpura, Nabha and Samana could start the procurement process. There is silence in other centers.

- Saudi Arabia's tightening of rice import rules may affect Rice Exports from India: Earlier the Indian rice industry is already facing trouble in terms of exports due to the ban on Iran, Saudi Arabia has implemented a new system for quality control from 1 September 2019. A certificate of quality is required for each batch. Only 2 agencies have been allowed to issue COC for rice exports from India.
- Government Grains Storage may Problem for New Paddy Procurement Year: All the government
 warehouses in the country have a storage capacity of 880 lakh tons. On September 1, 676.3 lakh
 tonnes stock was available in the central pool, which did not include 59.7 lakh tonnes of paddy.
 Government procurement of rice has started. There may be a shortage of space in warehouses in
 the future.
- Sowing of 59.93 lakh hectare kharif crops completed in Odisha: The total production area of Kharif crops in Orissa till September 28 this year could reach 59.93 lakh hectare, which is 60.40 lakh hectare in the same period last year and less than the fixed target of 61.50 lakh hectare but more than the normal average area of 56.97 lakh hectare. According to the latest weekly report of the State Agriculture Department, the production of paddy in Orissa has improved from 37.06 lakh hectare to 37.52 lakh hectare during the current kharif season as compared to last year.
- Government procurement of paddy has started since October 1, but FCI rice sales are weak, the stock of food grains has increased in the go downs compared to the previous year, due to lack of space.
 - More than 20 shipwrecks were trapped after the US imposed a sanction on Iran. The pressure of arrival of paddy in the mandi of Uttar Pradesh has not been formed yet, the rain on the standing crop has damaged the paddy crop.

International Market Highlight:

- Despite the strengthening of the Thai baht to 30.28 Baht/U.S. \$1.00 from the previous week's exchange rate of 30.42 baht/U.S. \$1.00, rice export prices declined around 2 percent from the previous week as supplies of new-crop white rice are entering the market. Presently, farm-gate prices of white paddy rice fell to 7,500 7,900 baht per metric ton (U.S. \$248 261/MT), down 2-3 percent from the previous week. The reduced domestic prices more than offset the current strengthening of the Thai baht. The reduced domestic prices also helped lower the price difference between the more expensive Thai rice and Vietnamese rice to around U.S. \$40-50/MT, compared to U.S. \$75 80/MT over the past weeks. Rice Export Update Unofficial and preliminary rice exports (excluding fragrant rice) for September 23-29, 2019, totaled 127,651 metric tons, up 19,389 metric tons from the previous week and up 28,331 metric tons from the four weeks moving average of 99,320 metric tons. Rice exports from January 1 September 29, 2019, totaled 4,682,735 metric tons, down 34 percent from the same period last year.
- Egypt is set to produce 4 million tonnes of white rice in the 2019 season, the figure compares
 to 2.7 million tonnes produced in the 2018 season. 2019 production would be enough to cover
 local needs and leave a surplus. Egyptians consume around 3.2 million tonnes of rice annually.
 According to government sources, in September that there would be no need for rice imports this
 current financial year, which ends on June 30, 2020.

- Meanwhile, Vietnam's 5% broken rice rates were unchanged at \$325 per tonne, their lowest since November 2007, as "trading activity remains subdued on weaker demand. A lack of fresh deals has squeezed the Vietnamese market, with prices now about 13% lower than at the beginning of the year.
- Prices for second-biggest exporter Thailand's benchmark 5% broken rice were also unchanged at \$400-\$418 a tonne on lack of demand and little fluctuation in the exchange rate between the baht and U.S. dollar. At an average of \$409, Thai rice was still near its highest since June 2018. Demand remains flat as higher prices have deterred buyers, traders said. A strong baht has kept rates elevated compared with competitors since the start of the year.
- Indonesia Agrees to Import Indian Rice & Sugar to Push Trade Volume to \$50 billion: South East Asia's biggest nation Indonesia has decided to purchase rice and suga rNSE 0.74 % from India a move that will help to reduce trade deficit between the two sides and push trade volume to \$50 billion by 2025. The bilateral trade is currently in favor of Indonesia and export of rice and sugar from India will help to bridge trade deficit. This decision to import Indian rice and sugar is understood to have been taken by Jakarta in the backdrop of India providing level playing field to Indonesian palm oil by charging same duties on Malaysian palm oil. On September 16 the Embassy of India, Jakarta, in partnership with the Ministry of Trade of Government of Indonesia, jointly hosted a Multi-Product Road Show, focusing on exports of Bovine Meat, Rice and Sugar from India to Indonesia.
- Sri Lanka has raised a paddy (rough rice) output from both cultivation seasons in 2019 to 4.613 million metric tons up 5.5 percent from an earlier estimate, and up 17 percent from last year. In the ongoing Yala season, 1,540 paddy is forecast to be produced after crop damage, up from a earlier forecast of 1.47 million metric tonnes. This year's Yala forecast is around the same as 1.53 million metric tonnes produced in 2018. After wastage and seed paddy needs, 1.38 million tonnes of paddy will be available for milling from the Yala crop. About 940,000 metric tonnes milled rice will be available for consumption. The final main Maha rice output is now estimated to 3.073 million metric tonnes up 28 percent from last year and 5.9 percent higher from a preliminary estimate. For the full year 4.613 million metric tonnes of paddy and 2.88 million metric tonnes of milled rice would be available.
