

Domestic Market Highlights:

- Over 28% more paddy purchase registered after initial hiccups in Odisha. After initial protests by farmers to the online token system, paddy procurement from major producing districts of Western Odisha is not only smooth but 28 per cent more than corresponding period of last year. The agencies appointed by State Government have procured over 39.65 lakh quintals paddy from 58,294 farmers. Procurement of the major kharif crop of the State during the same period last year (as on December 7) was 30.89 lakh quintals. Bargarh district, considered the rice bowl of the State, tops the list with procurement of 18.34 lakh quintals from 26,608 farmers under price support system followed by Kalahandi delivering over 4.96 lakh quintals. Asserting that paddy procurement is done in most transparent manner under paddy procurement automation system (P-PAS), Food Supplies and Consumer Welfare Minister Ranendra Pratap Swain said 2,43,219 farmers of 18 districts have been issued 2,49,932 tokens through 1,118 paddy procurement centres.
- Higher MSP fosters surge in paddy arrivals in Chhattisgarh's centres. There has been a spurt in paddy arrivals at Chhattisgarh's procurement centres, which have been set up for purchasing the crop at the minimum support price (MSP) announced by the state. Procurement had started on December 1. Chhattisgarh Marketing Federation, the nodal agency for purchasing paddy from farmers, had set up over 2,000 procurement centres under the primary cooperative societies. Over 700,000 tonnes of the crop had arrived in the centres. The state government has till date disbursed Rs 7,000 crore to farmers, who will be paid Rs 1,815 a quintal for common grade and Rs 1,835 for A-grade produce. Chief Minister Bhupesh Baghel had declared that farmers would get Rs 2,500 a quintal and the difference between the Centre's price and the MSP would be paid under another head. The state government had set up an inter-ministerial committee to examine under which scheme farmers would be paid the difference. Baghel had urged the Centre to increase the quota of rice purchase from the state to 3.2 million tonnes (MT). Last year, Centre had procured 2.4 MT from Chhattisgarh. The state had set a target to procure 8.5 MT in the current season. In the kharif marketing season 2018-19, it had purchased 8.04 million tonnes of paddy and disbursed Rs 16,933.06 crore to farmers.
- About 15.05 lakh ton wheat and rice sold in open market till Nov 20 by Govt. The government is sitting on a huge stock of over 600 lakh tonnes of food grain, has sold 15.05 lakh tonnes of wheat and rice in the open market so far this fiscal. About 8.99 lakh tonnes of wheat and 6.06 lakh tonnes of rice has been sold through the open market sale scheme (OMSS) till November 20 of this year. The government, through the Food Corporation of India (FCI), sells wheat and rice to bulk consumer/traders/state governments from the central pool at pre-determined prices in the open market from time to time through e-tender to enhance the supply in lean season and check prices. It aims to sell 100 lakh tonnes of wheat and 50 lakh tonnes of rice under OMSS during the ongoing 2019-20 fiscal. In 2018-19 financial year, the government had sold 90.30 lakh tonnes of foodgrain, comprising 81.84 lakh tonnes of wheat and 8.46 lakh tonnes of rice.
- Over 163.5 LMT paddy procured during KMS 2019 in Punjab. Punjab Food and Civil Supplies Minister said the Kharif Marketing Season 2019-20 witnessed arrival of 163.49 lakh metric tonne (LMT) paddy in the mandis across the state, which has been successfully procured within the stipulated time frame by the State Procurement Agencies.
- Over 71.8 LMT paddy arrive in Haryana mandis. More than 71.86 lakh metric tonnes (LMT) of paddy
 has so far arrived in Mandis of Haryana as compared to over 70.70 LMT of paddy arrived during the
 corresponding period last year. Out of the total arrival of paddy, government agencies had so far
 procured over 63.95 LMT of paddy whereas the remaining quantity of over 7.90 LMT of paddy was
 procured by the millers and dealers. More than 34.85 LMT of paddy has been purchased by the Food,
 Civil Supplies and Consumer Affairs department whereas, over 19.76 LMT of paddy has been procured

- by Hafed, over 9.28 LMT by the Haryana Warehousing Corporation and 4,725 MT by the Food Corporation of India.
- India basmati price up on higher demand. Prices of Pusa 1121 basmati paddy rose due to a rise in export demand from millers and a decline in arrivals at spot markets. The December contract of Pusa 1121 basmati paddy on the Indian Commodity Exchange rose over 3% during early trade, tracking spot market cues. The contract closed at 3,280 rupees per 100 kg, up 3.3% from the previous close. Bulk demand rose due to firm purchases by overseas buyers, including Saudi Arabia. Arrivals fell as farmers did not offload paddy at lower prices.
- India Govt plans cut in reserve price of rice by almost Rs 500 per quintal. The government is considering downward revision of reserve price of rice from Rs 2,785 per quintal to Rs 2,250 per quintal in order to boost sale from central pool stock under the Open Market Sale Scheme. Sitting on a huge buffer stock, the government is considering cutting reserve price of rice by almost Rs 500 per quintal for bulk buyers to boost its sale through open market. The government is considering downward revision of reserve price of rice from Rs 2,785 per quintal to Rs 2,250 per quintal in order to boost sale from central pool stock under the Open Market Sale Scheme in 2019-20.
- MY 2018-19 rice exports estimate is revised lower to 10.5 MMT, more than 13 percent lower than last year. Market sources report significant exports slowdown of non-Basmati (coarse grain) rice in the second half of the marketing season on weakening export competitiveness of Indian rice vis-a-vis other origins. Post's MY 2018/19 rice exports estimate is revised lower to 10.5 MMT, more than 13 percent lower than last year. Market sources report significant exports slowdown of non-Basmati (coarse grain) rice in the second half of the marketing season on weakening export competitiveness of Indian rice vis-a-vis other origins.

International Market Highlight:

- The US Department of Agriculture (USDA) in its November report had estimated the global availability of rice to be 67.10 million tons in the 2019-20 marketing season, which has been increased from 6 lakh tons to 67.16 million tons in the December report. The main reason for this is the increase in China's production. USDA has increased rice production estimates by 7 lakh tons to 14.77 million tons, based on the latest data from the National Bureau of Statistics of China.
- For rice marketing year (MY) 2019/20 (May-April), Bangladesh's rice production area and output have been marginally increased to 11.8 million hectares (HA) and 35.8 million metric tons (MMT), respectively. The increase is due to a reportedly strong year for Aus rice (April-August) production and a forecasted good season for Aman rice (July-December). Harvested Aus rice area is revised up to 1.1 million HA and production up to 2.45 MMT, based on official data from the Government of Bangladesh (GOB). Harvest of Aman rice is just started in November. The planted Aman rice area is revised at 5.8 million HA and production forecast is raised to 14 MMT as official sources and other contacts believe that continued favorable weather will result in an above average Aman rice harvest.
- The MY 2019-20 Bangladesh rice import forecast is lowered to 50,000 MT, which is 50 percent lower than MY 2018-19 imports. The forecasted decrease in imports is the result of the increased import tariff to on rice, from 28 percent to 55 percent.

- During the period from July-September 2019, about 839,356 metric tons of rice worth \$470.584 million was exported as compared the exports of 551.5,86 metric tons valuing \$312.147 million of same period of last year. According the data released by the Pakistan Bureau of Statistics, the exports of basmati rice increased by 47.29%, about 212,873 metric tons of basmati rice valuing \$194.669 million exported as compared the 127,669 metric tons worth \$132.166 million of same period of last year.
- Rice rates for Vietnam's benchmark 5% broken rice were unchanged from last week's \$350 a tonne, a two-month high. Demand is weak, but low supplies have helped keep prices from falling. However, there were concerns that a move by the Philippines Vietnam's largest rice export market accounting for 36% of total shipments to reduce imports could further hit the Vietnamese market. Sluggish demand pushed export prices for Vietnamese rice to their lowest in nearly 12 years, at \$325 per tonne, in September.
