

Domestic Market Highlights:

- Myanmar has set a target of exporting 2.5 million tonnes of rice in present fiscal year 2019-2020 which started in October.** The country exported 986,345 tonnes of rice and broken rice, earning over 282.9 million USD as of January 10, according to the Myanmar Rice Federation (MRF). From October 1, 2018 to January 10, 2020, Myanmar pocketed 245 million USD from the export of over 842,342 tonnes of rice via sea routes while 144,002 tonnes of rice valued at 37.8 million USD were exported through border gates. During the period, 29 percent of Myanmar's rice and broken rice were shipped to China, EU member states and African countries. From 2018 to 2019, the country exported more than 2.35 million tonnes of rice and broken rice worth 709.6 million USD.
- West Bengal Govt procured only 22% of paddy crop target for this season.** West Bengal government's Agriculture Department has managed to procure only 22% of the rice they had promised to procure from the cultivators across the state till now. The farmers in the state are refusing to sell their produce to the government because of various flaws in the process of procurement. Earlier in November 2018, the West Bengal government had announced that during the current season, it would buy 52 lakh metric tons of paddy from the farmers in the state. Out of these 52 lakh metric tons, 24 lakh metric tons were to be procured by the government directly from the farmers, through Central Purchase Centres (CPCs), while the remaining 28 lakh metric tons are to be procured from cooperatives like National Agricultural Cooperative Marketing Federation (NAFED), West Bengal State Cooperative Marketing Federation Ltd. (BENFED), and West Bengal State Consumer Cooperative Federation (CONFED).
- Prices of India's 5-percent broken parboiled rose to their highest since the first week of October, around \$369-\$373 per tonne, from \$366-\$371 last week, also helped by a depreciation of the rupee.** Buyers from Africa have been making purchases fearing prices could rise further due to the drought in Thailand.
- The Karnataka government has reduced the amount of rice to be given in ration, the Ministry of Food and Public Distribution** said that rice is currently being given at the rate of 7 kg per person per month, which can be reduced to 5 kg per month.
- In the last few days, inquiries of Indian non-basmati rice from African countries started increasing.** In Bangladesh, paddy was damaged due to cyclone which affected production. Rice prices are increasing in Bangladesh for 1 consecutive month, due to which the possibility of export from India to Bangladesh is increasing.
- Uttar Pradesh Paddy Government Procurement Breaks Record:** In Uttar Pradesh, for the first time government procurement of paddy exceeded 50 lakh tons. There is still 5 weeks left for the purchase and the purchase of paddy has crossed 51.5 lakh tons. There was no purchase of 3.5 million tons of rice in the last several seasons. In other words, the effect of the government's assurance to the government not to increase the government procurement is being seen, only the purchase of new paddy such as sorghum, millet, maize and wheat has also increased since last year. In the current season, the government had targeted to procure 5 million tons of paddy. Around 55 lakh tons of paddy can be procured from Uttar Pradesh in the current procurement season. Paddy purchase will last till February 2020.
- The high Thai prices prompted some buyers to opt for rice from India, pushing rates for the Indian variety to their highest in nearly three months.** India's 5% broken parboiled variety rose to around

\$366-\$371 per ton from last week's \$364-\$368, the highest since Oct. 31, further supported by higher demand from African countries. Demand has been improving slowly. Since Thai prices are moving up quickly, some demand is getting diverted to India.

- **Tamil Nadu sets 25 lakh ton as paddy procurement target this season.** The paddy procurement target for the current samba season has been fixed at 25 lakh tons against 19.1 lakh tons in previous year. Tamil Nadu Civil Supplies Corporation (TNCSC) had set up 1,766 direct procurement centers (DPCs) last year, through which 19.1 lakh tons paddy was procured from 1 lakh farmers. Through 513 DPCs established in the state including 63 in non-delta districts this season, government has procured 87,000 tons of paddy so far. Based on the requirements, the number of DPCs will be increased.
- **Export of non-basmati rice from India declined by over 37 per cent** between April and November of 2019 as compared to the corresponding period in 2018, India managed to export only 31,41,000 metric tonnes (MT) of non-basmati rice during the April-November period last year, compared to the 50,48,000 MT it did during the corresponding period in 2018.
- **India seeks to push sugar, rice exports to Indonesia.** The government has sought a deal with Indonesia to push Indian sugar, rice and bovine meat in return for higher quantity of palm oil imports from the Southeast Asian country. The move comes after the government decided to license the import of refined palm oil, which was meant to signal its displeasure to Malaysia over Mahathir Mohamad's comments on Kashmir, the Citizenship Amendment Act and his government's reluctance to extradite controversial preacher Zakir Naik.
- **Paddy procurement hits new high in Telangana.** The Telangana Civil Supplies Corporation has procured a record 44 lakh metric tonnes of paddy this kharif. Arrangements have been made to procure another 2 lakh metric tonnes of paddy from farmers, which would take the total to 46 lakh metric tonnes paddy production in kharif season. In the last kharif season, the Civil Supplies Corporation had purchased 40.41 lakh metric tonnes of paddy from 8 lakh farmers through 3,297 paddy purchase centres (PPCs).
- **India's rice stocks in the central pool as on January- 1, 2020 stood at 42.39 million tons including unmilled** paddy with FCI and state agencies which is up by 15.63% from 36.66 million tons recorded during the corresponding period last year, according to data from the Food Corporation of India (FCI). India's rice stocks in the central pool are up by 9.73% by from 38.63 million tons recorded on December-01, 2019.

International Market Highlight:

- **Myanmar has set a target of exporting 2.5 million tonnes of rice in present fiscal year 2019-2020 which started in October.** The country exported 986,345 tonnes of rice and broken rice, earning over 282.9 million USD as of January 10, according to the Myanmar Rice Federation (MRF). From October 1, 2018 to January 10, 2020, Myanmar pocketed 245 million USD from the export of over 842,342 tonnes of rice via sea routes while 144,002 tonnes of rice valued at 37.8 million USD were

exported through border gates. During the period, 29 percent of Myanmar's rice and broken rice were shipped to China, EU member states and African countries. From 2018 to 2019, the country exported more than 2.35 million tonnes of rice and broken rice worth 709.6 million USD.

- **Thai rice prices climb to over 20-month high.** Thai rice export prices scaled a more than 20-month peak this week as a persistent drought heightened supply concerns, while improved demand from African countries drove an uptick in rates for the Indian variety. Thailand's benchmark 5% broken rice prices rose to their highest since late April 2018 at \$435-\$445 compared with \$425-\$435 last week. Risks to supply from the ongoing drought, coupled with a strong baht have supported Thai prices. Exports from Thailand, the world's second largest rice exporter after India, are forecast to drop to their lowest in seven years, at 7.5 million tonnes, in 2020.
- **Pakistan rice exports grow 26.30%.** Rice exports from the country during first half of current financial year grew by 26.30% as compared the exports of the corresponding period of last year. During the period from July-December 2019-20, rice over 2.020 million metric tons worth \$1.033 billion exported as compared to the exports of 1.587 million tons valuing \$817.923 million of same period of last year. According the latest trade data released by the Pakistan Bureau of Statistics, exports of Basmati rice witnessed overwhelming growth of 55.89% as about 415,083 metric tons of above mentioned commodity worth \$380.623 million exported as compared to the exports of 241,491 metric tons valuing \$244.169 million of same period of last year. Meanwhile, exports of rice other then Basmati also grew by 13.71% during the period under review as 1,605,613 metric tons of rice worth \$652.428 million exported as against 1,345,961 metric tons valuing \$573.754 million of same period of last year. However, on month on month basis, rice exports decreased by 8.19% in December, 2019 as 403,923 metric tons of rice valuing \$197.185 million against exports of 431,744 metric tons of same month of last year.
