

Domestic & International Market Highlights:

- **Myanmar exported over 2.25 million tons of rice and broken rice as of July 17-2020, according to a data** release from the Myanmar Rice Federation. Traders are expecting to reach target of 2.4 million tons of rice export in present fiscal year which will end in two months. According to the figures released by the federation, the country exported over 1.4 million tons of rice and 839,956 tons of broken rice, earning over 678.29 million U.S. dollars.
- **Export prices of Indian rice rose this week while overriding the worsening coronavirus crisis in the country** leading to logistical snags. The prices of India's 5-percent broken parboiled variety went up from last week's price of USD 377- USD 382 per tonne to USD 380- USD 385 per tonne.
- **In Bangladesh the pervading floods severely damaged crops. According to the agriculture ministry** of Bangladesh the on-going floods has impacted nearly 50,000 hectares of paddy fields.
- **Due to shortage of containers and workers at mills at the Kakinada port, Indian rice exporters are** struggling to fulfil the export demand. The existing capacity of Kakinada port has gone down to around 8,000 tonnes of rice per day through only five vessels. This has slowed down the loading of rice and compelled others to wait in anchorage.
- **The strengthening of Thailand's Bhat against Dollar has pushed the prices of benchmark 5-percent** broken rice which rose to USD 465-USD 483 as compared to USD 450–USD 482 quoted last week. According to trade sources, supply remains a concern in Thailand. Thai's market is expecting a new batch of off-season rice next month, that may lead to the prices to go down.
- **During the current year till July 31, the area of all kharif crops in India has increased to 88.22 million** hectares, which is about 14 percent more than the sowing area of 77.44 million hectares in the same period last year. This time the general average area of kharif crops is estimated at 1063.65 lakh hectares. According to the latest weekly data of the Union Ministry of Agriculture, the area under paddy has increased from 22.395 million hectares to 26.66 million hectares as compared to last year.
- **India's support price for rice under WTO lens as US, EU question 'peace clause'.** India's minimum support programme (MSP) for rice is under scrutiny at the World Trade Organisation with the US and the EU challenging the increase in subsidies beyond ceiling (de minimis) limits in the marketing year 2018-19. Invocation of the 'peace clause' by India to justify the subsidies was also questioned by the opposing members who posed several queries on the various conditions
- **Corona has Less Effect on Paddy Cultivation in Myanmar:** Although, like many countries of the world, there is a serious outbreak of corona virus disease in Myanmar, but paddy cultivation is not affected much. The good monsoon rains are helping farmers to plant paddy, but farmer's economic condition is very weak and they are finding it difficult to get government loans. Compared to 2018-19, there was an increase of 4 lakh tonnes in export volume. Rice exports from Myanmar are expected to rise above 2.5 million tonnes by the end of the current financial year, ie, 30 September 2020.
- **Uttar Pradesh farmers expect bumper paddy crop this year with good monsoons:** While there is considerable gloom on the industrial front in Uttar Pradesh, paddy farmers in the state are expecting a good crop due to above-average rain this monsoon. After several years, UP farmers completed paddy plantation in more than 80 per cent of crop area in the third week of July. In most of the paddy-rich districts above average rain has been recorded this year in July. In most of the districts the plantation of early variety of paddy has been completed
