

Domestic & International Market Highlights:

- Government rice sales under OMSS 5.48 lakh tonnes. Wheat and rice are sold under the Open Market Sales Scheme (OMSS)** by the government with the objective of reducing prices in the central pool and controlling prices by increasing supply and availability in the open market. For this, e-auction sale is conducted on a weekly basis by Food Corporation of India (FCI). The government has reduced the price of rice with OMSS to Rs 2250 per quintal, which is its minimum reserve price. According to the available data, during the current financial year (April-2020-March 2021), a target has been set to sell 5 million tonnes of rice, of which 5.48 lakh tonnes were sold by the third week of August. Under this, a total of about 1.87 lakh tonnes of rice were sold in April 2020, out of which 25 thousand tonnes were purchased by bulk consumers and the remaining 1.62 lakh tonnes were procured by the State Governments.
- Source says 4 states seek extension for rice procurement till Sep 30. At least four states have** written to the central government seeking an extension till Sep 30 to procure rice for 2019-20 (Oct-Sep), since procurement has taken a hit on account of heavy rain recently. The current deadline for procurement of rabi rice is Sep 15. States like West Bengal, Maharashtra, Tamil Nadu, and Assam have sought an extension as they feel that the procurement will not be over. These four states are major rabi rice growers and key contributors to the central pool. West Bengal and Tamil Nadu have sought extension citing delay in the arrival of the rabi crop and a subsequent lag in starting procurement due to the nationwide lockdown to curb the spread of COVID-19. The nationwide lockdown began from Mar 25 and was partially lifted from June. Usually, rabi crop arrivals are delayed in Tamil Nadu and West Bengal as they are sown late. This year the further delay in starting the procurement operations due to the lockdown has also hit government purchases.
- India's export price of 5% broken parboiled variety rose to USD 383-USD 389 per tonne this** week against USD 382-USD 387 previous week, even as exporters struggling to fulfil orders due to limited stocks in pipeline and shortage of containers and workers at the Kakinada which is one of the country's biggest rice handling port. Demand is huge for Indian rice due to lower prices, but exports are getting affected by floods and the corona virus outbreak in major exporting states.
- Global production of rice is estimated to increase by around 4.3 million tonnes during the** current year compared to last year, while demand is expected to remain strong in major importing countries due to the Corona epidemic. In view of this, the US Department of Agriculture (USDA) has expected the global trade in rice to increase by about 2.8 million tonnes during the 2020-21 season as compared to 2019-20 season.
- As per USDA, the total global consumption of rice is expected to be 49.09 million tonnes in the** 2019-20 season, which can rise to above 49.65 million tonnes in the 2020-21 season and the remaining surplus stock of 18.52 million tonnes of rice will be present at the end of the season.
- Government's big decision on basmati and non-basmati rice, export rules relaxed.** The Central Government (Government of India) has decided to relax the terms of export of Basmati Rice Export and Non-Basmati Rice Export. This exemption is given in export for European countries. The Ministry of Commerce has issued a notification. Let you know that India is the world's largest rice exporting country with 25 percent global share. Basmati rice during April 11 to February, first 11 months of FY 2019-20 Exports of 38.36 lakh tonnes have been slightly lower than 38.55 lakh tonnes in the same period of the last financial year. Basmati rice exports by value have been valued at Rs 27,427 crore during April-February of FY 2019-20 as against Rs 28,604 crore in the previous financial year. Non-basmati rice exports for FY 2019- In the first 11 months of 20, it was

reduced to 46.56 lakh tonnes, while in the last financial year it exported 68.25 lakh tonnes. The demand for basmati rice continues to be sustained by Saudi Arabia, Yemen, the US and European countries. The import demand of these countries has been good even during the Corona virus epidemic, due to which the prices of rice and paddy have improved in the domestic market.
