

Domestic & International Market Highlights:

- Rice procurement estimated at 495.37 lakh tonnes in Kharif season of 2020-21.**
 Around 495.37 lakh tonnes rice has been estimated for procurement during the forthcoming KMS 2020-21 season which is 19.07 percent more than the 416 lakh tonnes procurement estimate of KMS 2019-20. During ensuing KMS 2020-21, procurement estimates for Tamil Nadu and Maharashtra have jumped by 100 percent and more, and for Madhya Pradesh, Telangana, Bihar and Jharkhand are higher by 50 percent and more in comparison to KMS 2019-20. The leading states in terms of estimated procurement of rice do Haryana (44 lakh tonnes), Andhra Pradesh (40 lakh tonnes), Uttar Pradesh (37 lakh tonnes) and Odisha (37 lakh tonnes) follow Punjab (113 lakh tonnes), Chhattisgarh (60 lakh tonnes) and Telangana (50 lakh tonnes).
- With the support of better monsoon rains, the sowing of Kharif crops is continuously in the up-trend.** According to the latest data of the Union Ministry of Agriculture, in the current year till September 11, area of Kharif crops has risen to 1104.54 lakh hectares, compared to 1045.18 lakh hectares (5.6 percent higher than last year). According to the report of the Ministry of Agriculture, during the current Kharif season of 2020-21, the area under paddy has ascended from 373.87 lakh hectare to 402.25 lakh hectares.
- Government procurement of rice is projected to increase from the fixed target of 416 lakh tonnes to 418 lakh tonnes in the marketing season of 2019-20, which already exceeded the target and as on 14th September, rice procurement reached 511 lakh tonnes.** While the target of procurement is 430 lakh tonnes has been set for the 2020-21 season.
- Vietnam hopes to export 100,000 tonnes of rice to EU. The EVFTA will bring many benefits to agricultural products.** Rice exports have huge potential under the EVFTA, the EU pledges to provide an annual rice quota of 80,000 tonnes to Vietnam and completely liberalize trade in broken rice. This means Vietnam can export as much as 100,000 tonnes of rice to the EU annually.
- Govt decides cut in rice base price under open market plan to boost sales. Food Corp of India is mulling a reduction in the base price of rice sold at its weekly open market sale scheme to boost private purchases and clear out excess stock from the central pool.** A cut in rice price is being considered to reduce the base price as it may help boost demand from private buyers. However, the quantum of the cut is yet to be decided. The government is currently selling rice under the auction scheme at 2,250 rupees per quintal. The private purchases are not very encouraging so far as private buyers can source the grain at lower prices from spot markets. The government needs to offload much more to clear out enough stocks. For 2020-21 (Apr-Mar), the government had aimed to offload 5 mln tn of rice at the weekly auctions from the central pool. So far, it has been able to sell only 547,890 tn rice, which includes 507,650 tn sold to states government.
- Kharif paddy sowing has finally come to an end and acreage under paddy has increased by 30.35 lakh hectares and reached 396.18 Lakh hectares (up from last year acreage of 365.92 lakh hectares).** Except Punjab, area is reported higher in all major producing states. Area in Telangana is reported to 20 lakh hectares which is up by 9 Lakh hectares from last year. Uttar Pradesh area is reported 60 lakh hectares which is almost same to the last year.
- Thailand Unofficial and preliminary rice exports (excluding Hom Mali fragrant rice) for August 10-16, 2020, totaled 79,353 metric tons, down 1,317 metric tons from the previous week and up 13,245 metric tons from the four weeks moving average of 66,108 metric tons.** Rice exports from January 1 – August 16, 2020, totaled 2,527,849 metric tons, down 37 percent from the same period last year.

- **Non-basmati rice exporters see huge demand as prices increase in Vietnam and Thailand.**

Indian exporters of non-basmati rice have seen a surge in orders after the price of the grain increased in Vietnam and Thailand. Indian rice is now cheaper than the Southeast Asian varieties by almost \$100 per tonne. Export demand for non-basmati rice remains robust due to price rise in Vietnam and Thailand. Their rice is commanding a price of \$490-500 per tonne, whereas our price is around \$400 per tonne. Indian prices have gone up by 3-5% as the rupee has depreciated against the dollar. In the first four months of FY21, non-basmati rice exports from India were up by 35% compared with the same period of FY20. Total exports in the first month were around 3.5 million tonnes. India supplies rice to 170 countries in the world. Supplies to global markets from Vietnam have ebbed after local traders increased their purchases recently and the summer-autumn harvest ended. The rising count of Covid-19 in Vietnam has led to some hoarding of rice. Vietnamese rice prices are expected to stay elevated for the next few months until a new harvest in October.
