

Domestic & International Market Highlights:

- **The government has pegged a record production of food grains at 144.52 million tonnes in the ongoing Kharif season;** the government has estimated the production of rice at 102.36 million tonnes in the current Kharif season, which is also a record.
- **Rice export prices in India rose to their highest in nearly 18 months this week as global supplies remained** constrained due to global pandemic-induced disruptions. India's 5 per cent broken parboiled rice prices climbed to \$387-\$394 per tonne from last week's \$384-\$390. As per traders, Corona virus outbreak has affected rice milling in Andhra Pradesh and loading operations at Kakinada. Limited supplies are available for exports though demand is robust.
- **In Bangladesh, domestic prices have raised by 20 per cent over a month, amid expectation of a serious** production shortfall. Hence, Bangladesh may have to import the rice after natural calamities damaged crops. Excessive rainfall in March-April, cyclone Amphan in May and three spells of floods in June-July damaged most crops, of which 70 per cent was paddy.
- **Rice procurement estimated at 495.37 lakh tonnes in Kharif season of 2020-21.** Around 495.37 lakh tonnes rice has been estimated for procurement during the forthcoming KMS 2020-21 season which is 19.07 percent more than the 416 lakh tonnes procurement estimate of KMS 2019-20. During ensuing KMS 2020-21, procurement estimates for Tamil Nadu and Maharashtra have jumped by 100 percent and more, and for Madhya Pradesh, Telangana, Bihar and Jharkhand are higher by 50 percent and more in comparison to KMS 2019-20. The leading states in terms of estimated procurement of rice do Haryana (44 lakh tonnes), Andhra Pradesh (40 lakh tonnes), Uttar Pradesh (37 lakh tonnes) and Odisha (37 lakh tonnes) follow Punjab (113 lakh tonnes), Chhattisgarh (60 lakh tonnes) and Telangana (50 lakh tonnes).
- **With the support of better monsoon rains, the sowing of Kharif crops is continuously in the up-trend.** According to the latest data of the Union Ministry of Agriculture, in the current year till September 11, area of Kharif crops has risen to 1104.54 lakh hectares, compared to 1045.18 lakh hectares (5.6 percent higher than last year). According to the report of the Ministry of Agriculture, during the current Kharif season of 2020-21, the area under paddy has ascended from 373.87 lakh hectare to 402.25 lakh hectares.
- **First advance estimate of production of Kharif crops released in Andhra Pradesh:** The first advance estimate of production of kharif crops has been released in Andhra Pradesh. Under this, the production of paddy has been projected to increase compared to last year. According to the latest data of the State Agriculture Department, the production of paddy in Andhra Pradesh increased from 79.98 lakh tonne to 81.48 lakh tonne during the kharif season of 2020-21 as compared to 2019-20.
- **The month of August was very disappointing for the sale of government rice. In the first and second week** of August, the purchase and sale of government rice remained completely closed. In the third week, FCI offered to sell more than 2.86 lakh tonnes of rice, but out of this only 27,530 tonnes were purchased. In this, bulk consumers only contributed 130 tonnes while the remaining 27,400 tonnes were procured by the state governments. In this way, a total of 5,47,860 tonnes of rice were sold in the tender from April 1 to the third week of August.
- **Government procurement of rice is projected to increase from the fixed target of 416 lakh tonnes** to 418 lakh tonnes in the marketing season of 2019-20, which already exceeded the target and as on 14th September, rice procurement reached 511 lakh tonnes. While the target of procurement is 430 lakh tonnes has been set for the 2020-21 season.
