

Domestic & International Market Highlights:

- **The central government has started purchasing Kharif crops from farmers at the minimum support price (MSP).** Its marketing season is generally considered to start from October 1, while this time in Punjab - Haryana, procurement started from September 26. Farmers are agitating against agriculture law in a big way in these two states, which contribute the most to rice in the central pool. Farmers fear that the government may stop buying agricultural products at the minimum support price, while the government has flatly denied this. By starting the paddy procurement early on the MSP, the government has also given a message and an indication that it has no intention of ending the MSP. The minimum support price of paddy has been fixed at Rs 1868 per quintal for general category and Rs 1888 per quintal for A grade. As per the available data, a record hardening of 513.50 lakh tonnes of rice was done by the Central Government during the entire marketing season of 2019-20.
- **In India, rates for 5% broken parboiled variety were quoted around \$379-\$385 per tonne,** down from last week's \$387-\$394, due to depreciation in the rupee and weak demand. Demand has been moderating. Buyers are taking a pause after buying aggressively in July and August.
- **Pressure on Paddy prices amid Hopes of Excellent Production in West Bengal:** During the current Kharif season West Bengal is expected to have huge production of paddy, while there is no proper export of rice to Bangladesh, hence there is pressure on prices. In comparison to the procurement target of 52 lakh tonnes in Bengal last year, 49 lakh tonnes of paddy was officially purchased in the season whereas during the current year it is expected to increase to 50-52 lakh tonnes. In Bengal, the price of paddy was Rs. 1615/1620 per quintal in April which jumped to Rs. 1770 per quintal in July-August and has now fallen back to the level of April, which is much lower than the support price declared by the Center of Rs. 1868 per quintal.
- **The government has pegged a record production of food grains at 144.52 million tonnes in the ongoing Kharif season;** the government has estimated the production of rice at 102.36 million tonnes in the current Kharif season, which is also a record.
- **Rice export prices in India rose to their highest in nearly 18 months this week as global supplies remained** constrained due to global pandemic-induced disruptions. India's 5 per cent broken parboiled rice prices climbed to \$387-\$394 per tonne from last week's \$384-\$390. As per traders, Corona virus outbreak has affected rice milling in Andhra Pradesh and loading operations at Kakinada. Limited supplies are available for exports though demand is robust.
- **In Bangladesh, domestic prices have raised by 20 per cent over a month, amid expectation of a serious** production shortfall. Hence, Bangladesh may have to import the rice after natural calamities damaged crops. Excessive rainfall in March-April, cyclone Amphan in May and three spells of floods in June-July damaged most crops, of which 70 per cent was paddy.
