

Domestic & International Market Highlights:

- **Rice procurement reached 28.10 lakh tonnes in this season of 2020-21, which is up by 33% from the same period last year.** Highest procurement from Punjab is recorded 17.4 lakh tonnes followed by Haryana 10.27 lakh tonnes.
- **Thailand's benchmark 5 percent broken rice prices eased slightly to \$470-\$475 per tonne from \$472-\$477 last week,** with traders expecting the slight dip to fluctuation in the currency exchange amid relatively flat demand. The prices may go lower if the harvest volume bigger than expected, which will be known around the end of the month.
- **India rice prices remained steady due to softening demand after a surge in exports in the last few months.** Prices of the 5 percent broken parboiled variety were unchanged from last week, around \$376-\$382 per tonne. Traders may not able to hold the prices low despite ample crop, due to the appreciating rupee.
- **Myanmar has managed to achieve its rice export target of 2.5 million tons in over 11 months of the present fiscal year (FY) 2019-2020.** As of Sept. 11 in the present FY, the country exported over 2.53 million tons of rice and broken rice.
- **Pakistan is yet to implement the Geographical Indications (GI) law promulgated in March this year,** India has applied for an exclusive GI tag to Basmati rice in the European Union (EU).
- **Rice exports from India are expected to rise to a new record level, due to severe drought** in India's second largest rice exporter in the global export market - Thailand, the paddy crop has suffered extensive damage. This is expected to result in a sharp decline in rice production and exportable stocks. India is expected to get its direct and maximum benefits. There is plenty of rice stock available in India and its kharif season is also going to produce excellently. The export offer price of Indian rice is running much lower than Thailand and Vietnam and the exchange rate of rupee is also favorable. Overall, the export of rice from India is sure to increase to a new record level in MY2020-21. The President of the All India Rice Exporters Association (AIREA) says that in the year 2020, rice exports from India can boom and reach a new record level of 14.0 million tonnes, which has reduced the rice exports from the previous year's 9.9 million tonnes.
- **Non-basmati rice exports from India increased 68% year-on-year in the April-July period,** helped by a drop in rice production in Thailand. India exported 2.99 million tonnes of non-basmati rice in the first four months of this financial year, up from 1.78 million tonnes a year ago; It is expecting 7 million tonnes of non-basmati rice exports in FY21. A drought in Thailand and resilient currency made rice shipments from the country more expensive, putting India in an advantageous position. The Thai Rice Exporters Association recently cut its export target for 2020 by 13% to 6.5 million tonnes, from an earlier forecast of 7.5 million tonnes. Indian rice is cheaper than Thai rice by \$100 per tonne. The demand for non-basmati rice is very strong this year, with Africa being the largest buyer.
