

Domestic & International Market Highlights:

- Govind Bhog rice price in Bengal intensifies due to strong domestic and export demand. It is exporting better in Dubai and West Asia. The interesting fact is that the production of this fragrant Govind Bhog rice is also increasing gradually with the producers getting good income. The farmers of Bengal have generally been emphasizing on increasing the production of Swarna rice, which is a common species. Govind Bhog paddy-rice prices are higher than Swarna. Last year, the average market price of Govind Bhog paddy was Rs 3200 per quintal, which has increased by 10-15 per cent to Rs 3500 per quintal in the current year. The mill price of rice is running around Rs 6000 per quintal and the retail market price is around Rs 7500 per quintal.
- Rice export prices in India rose for a third straight week to its highest in more than two months due to an appreciation in the rupee and healthy demand from buyers in Asia and Africa.
- Prices for the top exporter's 5% broken parboiled variety rose to \$378-\$383 per tonne, their highest since the week of Sept. 24, from \$375-\$381 last week.
- The appreciating rupee reduces traders' margin from overseas sales and higher freight charges have been forcing exporters to hike prices, said an exporter based at Kakinada in the southern state of Andhra Pradesh. "Demand is good. Buyers like China are switching to India due to lower prices," the exporter said. China will import 100,000 tonnes of broken rice from India due to dwindling supplies from Thailand, Myanmar and Vietnam.
- Bangladesh will buy another 50,000 tonnes at \$404.35 per tonne from India through a tender in an effort to shore up domestic reserves
- Export orders for non-basmati rice from Bangladesh are likely to increase prices of paddy this rabi season, helping farmers to realise better margins compared with the kharif crop. Bangladesh has issued tenders for importing non-basmati rice, which is likely to bail out West Bengal from an abundant situation. The Indian rice export to Bangladesh is mainly sourced from West Bengal, but export doesn't take place every year.
- For this, West Bengal often faces an abundant situation and paddy prices at the open market falls. Open market paddy prices have been lower by 600-800 per quintal during the Kharif season, and paddy at the current point of time is being traded at 800 a quintal, against an MSP of 1,868 a quintal. West Bengal produces an average 20.5 million tonne of rice every year, with more than 15 million tonne coming during the khariff season. The MSP of 1,868/quintal is the best price that farmers get from their produce and it just recovers the cost, leaving only a thin margin if sold in bulk. The state government had procured 4.8 million tonne of paddy last year (procurement year is November to October) at MSP rates and this year it has set a target of procuring 5.2 MT at the same MSP.
- Paddy procurement for the current Kharif season is progressing smoothly with purchase of over 344.86 Lakh Metric Tonnes of paddy as against corresponding purchase of 282.66 Lakh Metric Tonne (LMT) last year. This is an increase of 22 percent over last year. Out of the total purchase of 344.86 LMT, Punjab alone has purchased 202.77 LMT till the close of procurement season in the state on 30th November which is 58.79 percent of total procurement in the country. About

35.03 lakh farmers have already benefitted from the ongoing procurement operations with Minimum Support Price value of 65111.34 crore rupees.

- Despite around 2 lakh hectares lower area under Kharif paddy (pamal) crop this year as compared to last year, Punjab has procured around 206 lakh tonnes which is 2.98 lakh tonnes more paddy than last year.
- **After 30 years, China started importing rice from India for the first time.** China did not import due to the high amount of pesticides in Indian rice. There is a shortage of rice supply in the world at the moment. If rice is of good quality then China can become a big buyer of Indian rice. December to February shipment took place at 300 \$ / ton, about 1 lakh tonnes of rice will be contracted for export. Thailand, Pakistan, Myanmar, Vietnam International price of rice, 30 \$ / ton more than Indian rice.
