

Domestic & International Market Highlights:

- Even as the standoff between the farmers and the government continues to rage over the three farm laws, paddy procurement in UP has registered an increase of 14% till date in comparison to last year. Paddy procurement has risen from 56.7 lakh metric tonnes (MT) in 2019-20 to around 64 lakh MT till date.
- Robust demand from across Asia and Africa sent Indian rice export prices to a three-year peak this week, while Vietnamese exporters struggled to ship due to high freight prices fuelled by a container shortage.
- India's 5% broken parboiled variety were quoted at USD 402-USD 408 per tonne, its highest since May 2018. Along with traditional buyers, China and Vietnam are also buying from India. Andhra Pradesh will use a deep-water port to export rice for the first time in decades amid a global grain shortage.
- Neighbouring Bangladesh, which has been grappling with limited supply, also bought more than 110,000 tonnes from India with more on its way.
- On 1 January, FCI had a stock of 530 lakh tonnes of grain, while the buffer norm required 214 lakh tonnes. Stock of 187 lakh tonnes of milled rice available in the central pool on 1 January while buffer norms of 76 lakh tonnes. To reduce the stock, the government approved the purchase of rice for ethanol but distillers retreated due to the current prices. It was believed that about 100 lakh tonnes of rice stock would be reduced from the central pool. The ethanol manufacturers were given a purchase price of Rs 2000 per quintal by the centre. The cost price of rice purchased in 2020-21 has been 2727 rupees, which FCI wanted to sell on 2000. FCI is not willing to sell below 2000 price but this price seems to be high to distiller.
- Millers from Andhra Pradesh and Telangana have started exporting broken rice to China. China has started procuring Indian rice for the first time since December 2020 while it is also buying rice from traditional supply countries like Pakistan, Vietnam and Myanmar. China has selected 24 plants (mills) for importing rice from India including three units from Andhra-Telangana. An exporter from Nizamabad says that China is exporting broken rice at the rate of \$ 350 per tonne. Of the three mills selected, one is located in Telangana and two in Andhra Pradesh (East Godavari district). China has made a plan to ship 1 million tonnes of rice, which includes broken and whole grain rice. Of this, 30 percent of rice shipments are expected from Andhra-Telangana. There, broken rice is used for making noodles and floor.
- The rice given under the TPDS of Andhra Pradesh is being exported illegally; this rice was purchased from the government in Andhra Pradesh at the rate of Rs 10 per kg and exported to other countries such as Malaysia @ Rs 123. The government recently caught a consignment of 435.8 tonnes of rice.

- The Chief Minister of Chhattisgarh demanded the Center to increase the amount and time limit for government procurement of paddy. By January 28, 90 lakh tonnes of paddy were procured from the state, for which 2500 crore rupees were transferred to the farmers. The State Government will have to pay for the purchase above the quantity prescribed by the Center.
- Centre Govt has said that more than 84 lakh paddy farmers have been benefited from current Kharif Marketing Season Procurement Operations with Minimum Support Price. Around 587 lakh tonnes of paddy have been procured from across India which is 20.28% % higher from 488 lakh tons of the last year.
