

**Domestic & International Market Highlights:**

- According to the latest Rice Kharif sowing data, sowing of rice in India reached 388.56 lakh hectares on August 27<sup>th</sup> 2021, lower 1.23% from 393.41 lakh hectares the previous year at the same time. As of Aug 27, 2021, Telangana has a total area of 17.61 lakh hectares, lower from 18.79 lakh hectares the previous year at the same time. It is 1.94 lakh hectares in Rajasthan lower from 2.14 lakh hectares the previous year, and 8.02 lakh hectares in Gujarat up from 7.71 hectares the year before. Paddy sowing in Odisha has reduced by 13.29% from the previous year, reaching 31.25 lakh hectares down from 36.04 lakh hectare the previous year.
- A total of 24 districts of 30 in Odisha faced a drought like situation due to lack of rain this season. The sowing operation in the non irrigated part of the state has become difficult due to deficient rainfall. The excess rain in May has already destroyed the paddy field of the state followed by lesser rain during June, July and August month.
- Rice output is expected to reach a new high of 122.27 million tonnes in 2020-21, according to the agriculture ministry's fourth advance estimate. It is 9.83 million tonnes higher than the average production estimates of 112.44 million tonnes over the previous five years. Due to higher output of rice, wheat, and pulses, India's food grain production is expected to rise by 3.74 percent to a new record of 308.65 million tonnes in the crop year 2020-21 compared to 297.5 million tonnes in 2019-20 due to good monsoon rains last year. From its third estimate of 305.43 million tonnes for the same year, the estimate has been revised higher by 3.22 million tonnes.
- Procurement of paddy in ongoing KMS 2020-21 is continuing smoothly in the procuring States of India at MSP, as was done in previous seasons and till now (up-to 26.08.2021) a quantity of over 873.99 LMT of rice higher by 13.36% against last year. About 129.03 lakh farmers have already been benefitted with MSP value of Rs. 1,62,348.83 crore.
- Haryana government has decided to start the procurement of paddy from 25<sup>th</sup> September and the procurement will continue till 15<sup>th</sup> November. This year around 200 procurement centres have been set up for paddy procurement by the Haryana government.
- A survey in China reported that the nation's early seasoned rice variety harvest exceeds 28 million metric tons mark an increase of 2.7 percent year on year. The area sown on rice covered a total of 4.73 million hectares this year which is a 0.47 percent decline year on year.
- The Telangana government has started efforts to convince FCI to lift the rice grown this season in order to extent the ongoing cultivation of paddy so as to increase the area of cultivation from planned area of 42 lakh acres to 55 lakh acres. The production is expected to be about 1.48 crore tons at the rate of 27 quintal per acre.
- As per DGCIS report, Basmati rice exports were 7.29 lakh tonnes in the current fiscal year Apr to May 2021. In the fiscal year 2020-21, Basmati rice was exported total 46.30 lakh tonnes.
- India's rice export this week has improved from four and half a year low which is benefitted by improved overseas demand, though high shipping cost still remains a challenge. This week India's 5% broken parboiled variety was quoted in the range \$355 to \$360 per tonne up from \$352 to \$356 last week.

- In Thailand, freight charges remained a hurdle as the ships were not readily available. However, prices of Thailand's 5% broken parboiled rice moved up slightly to \$390-\$403 from \$387-\$400 per tonne due to strengthening of Thai baht.
- Bangladesh, the third largest producer of rice in the world has allowed private traders to import 400,000 tonnes of rice in order to break rising grain prices. Depleted stocks and ravaged floods has made Bangladesh to import rice and emerging as a big importer. Vietnam's 5% broken rice price was unchanged at \$385 per ton and exports of rice this year is estimated at 6 million ton, down 4 percent.
- On 1 August, FCI had a stock of 29.10 million tonnes of rice in central pool while buffer norms of 7.6 million tonnes. To reduce the stock, the government approved the purchase of rice for ethanol but distillers retreated due to the current prices. It was believed that about 100 lakh tonnes of rice stock would be reduced from the central pool.
