

Domestic & International Market Highlights:

- The latest Rice Kharif sowing data suggests 414.18 lakh hectares of sowing of rice as on September 17th, 2021, higher 0.20% from 413.34 lakh hectares the previous year at the same time. Telangana has sown 21.28 lakh hectares of rice up by 3.30% from 20.60 lakh hectares the previous year. While Odisha has sown 35.13 lakh hectare of rice down by 5.18% from 37.05 lakh hectares last year.
- The agriculture ministry's fourth advance estimate suggests rice output to reach a new high of 122.27 million tonnes in 2020-21.
- Procurement of paddy in ongoing KMS 2020-21 is continuing smoothly in the procuring States of India at MSP, as was done in previous seasons and till now (up-to 13.09.2021) a quantity of over 889.88 LMT of rice higher by 15.42% against last year. About 130.47 lakh farmers have already been benefitted with MSP value of Rs. 1,67,960.77 crore.
- The Kharif marketing season 2021-22 in Punjab would start from 1st October 2021 and the operation would continue till 15th December 2021. The paddy would be stored in eligible rice mills as per entitlement and agreement between state agencies and rice millers. The rice millers shall deliver rice from the paddy stored upto March 31, 2020 as per policy and agreement.
- With GI tag for Indian basmati rice by European union more developments are coming in rice commodity. Indian has currently 45 % market share of rice export in the world. This year Bangladesh and China are added as new market for Indian rice. Analyst expect the basmati rice demand is expected to be doubled. Analysts also suggest logistic infrastructure as a major problem haltering rice export.
- For the first time, Department of Food and Public Distribution (DFPD) has issued uniform specification for fortified rice kernel (FRK) for grade A and common rice in case of procurement, of which 1% of FRK (w/w) should be blended with normal rice stock. The department has issued the uniform specification of food grains for Central pool procurement with regard to Kharif marketing season 2020-21.
- Thailand is expected to target a shipping of 6 million tons overseas this year as supply boosting rains and weaker currency has made Thailand highly competitive in international market. This year's target is higher than last year's 5.7 million ton of rice which is lowest since 1997. Thai export has been poor since last 2 years due to prolonged drought and strong baht currency.
- Iraq signs first contract in seven years to import Thai rice. Report suggests this as the second lot of rice that Iraq has bought from Thailand this year. The first lot of 44,000 tonnes has been delivered on August 18. Iraq had banned Thai rice 7 years ago owing to quality concerns.

- Under Haryana government's 'Mera pani mera virasat' crop diversification scheme around 98,000 acre of paddy land has been shifted to alternative crops like maize, pulses and horticultural and vegetable growing crops. The primary reason for switching from paddy include payment of incentive of Rs7,000 per acre.
- The Telangana government has urged farmers in the state not to grow paddy as it will not purchase them due to already higher availability of the stocks. This has put lakhs of farmers in peril, as the rabi season is just a few months away.
