

Domestic & International Market Highlights:

- As of 08th December 2021, 326 lakh MT of paddy has been procured in KMS 2021-22 in the procuring states. Till now approximately, 25.94 lakh farmers have been benefitted from the procurement with MSP value of Rs. 63,897.73 crores.
- Andhra Pradesh government is likely to take a decision on purchasing of discoloured and germinated paddy in a day or two. The decision would be in favour of farmers in distress due to rainfall as the standing crops of Paddy and Black gram in 63,891 hectares belonging to 1,22,086 farmers were badly damaged.
- As per Telangana Government till 12th December, 42.22 lakh metric tonnes of paddy was purchased that is worth of Rs 8,268 crores. Around 3.75 lakh farmers were given the payments out of 4.5 lakh farmers listed on Online Procurement Management System (OPMS).
- India's 5 percent broken rice was quoted at \$351-\$356 per tonne down from \$353-\$358 last week. The price fell as Indian rupee weakened touching two months low. This has made Indian rice highly competitive in international market.
- As of 10th December, rabi paddy sowing was done in 10.81 lakh hectares up by 0.525 lakh hectares from 10.366 lakh hectares the previous year during corresponding period. In Tamil Nadu, around 9.611 lakh hectares up by 1.127 lakh hectares from 8.484 lakh hectares the previous year.
- Domestic price for rice in Bangladesh continues to rise despite hefty imports and good crops. The rise in the price is mainly due to artificial crisis being created in the market. The officials blamed on hoarding by middlemen.
- International rice prices have been generally subdued since May 2021, reflecting currency depreciations against the US dollar and efforts to attract fresh sales, held off by high freight costs and container shortages.
- Centre has targeted a distribution of around 35 LMT of fortified rice till March 2022 in Phase 1. While in Phase 2 around 175 LMT of fortified rice targeted to be distributed till March 2023.
- In Philippines, rice imports may reach as much as 2.95 million metric tons (MT) this year, according to the Department of Agriculture (DA). Based on the DA's latest rice supply outlook, rice imports may reach 838,000 MT in the fourth quarter of the year, with 356,000 MT forecast to arrive in December.
