

Domestic & International Market Highlights:

- As of 23rd January 2022, 606.19 lakh metric tonnes (LMT) of paddy have been procured in KMS 2021-22 in the procuring states. Till now, approximately, 77 lakh farmers have been benefitted from the procurement with the MSP value of Rs. 1,18,812.56 crore.
- India's rice export prices eased off a more than seven-month high this week as the rupee weakened, while activity in other hubs remained quiet ahead of key harvest and festival seasons. The rupee's depreciation is bringing down export prices. But still, new deals are not picking up due to railway wagon scarcity. India's 5% broken rice was quoted at \$372 to \$379 per tonne this week, down from the last week's 7-month peak of \$375 to \$382.
- In Bangladesh, Kataribhog is a highly sought-after variety of rice which is not opted by farmers currently due to price fluctuations, low production levels and slow sales. Though this year the prices have bounced back. In Dinajpur district, out of 2.61 lakh hectares of paddy cultivation only 1,400 hectares was cultivated for kataribhog variety.
- Thailand's 5% broken rice prices edged higher to \$408-\$415 per tonne, from \$407-\$410 last week. Thailand exported 6.1 million tonnes of rice in 2021, up 6.7% from a year earlier, according to data from the country's commerce ministry. Overseas demand for Thai rice was largely still muted.
- Vietnam's 5% broken rice were offered at \$395-\$405 per tonne, unchanged from a week ago. Trading activity is slow as the Lunar New Year holiday is approaching. The main winter-spring harvest will begin over the next week, but won't peak until mid-March. Winter-spring productivity will likely fall 10%-20% from the same harvest a year earlier as many farmers had cut down on fertilization, which has become more expensive due to the pandemic.
- Due to unseasonal rains, paddy purchase couldn't happen in Bhilai district of Chhattisgarh for almost 10 days. Now, Paddy will be purchased on support price in 138 centres of the district till February 7. This was earlier scheduled for 31 January.
- According to sources in the Agriculture Department, In the district of Trichy in Tamil Nadu, paddy has been raised on about 52,000 hectares during the current season. The coverage was 7,000 hectares more than the rabi season in 2020-21. The abundant storage in Mettur dam and the extended spells of rain during the northeast monsoon helped farmers to bring as many acres as possible under paddy cultivation. Approximately 10% of the area has been harvested so far.
- As of 21st January, Rabi paddy sowing was done in 23.606 lakh hectares down by 21.86% from 30.21 lakh hectares the previous year. Tamil Nadu has sown 11.30 lakh hectares of paddy so far up from 10.19 lakh hectares. The decrease in the acreage is mainly due to Telangana and Andhra Pradesh farmers opting out sowing of paddy due to the procurement issues with centre and

government's crop diversification policies. Also, in West Bengal and Odisha, the sowing has been delayed due to unseasonal rainfalls.

- As per sources, 4,500 MT of rice vessel SUVARI KAPTAN is loading at Kandla Port since 21st January 2022. And 5,750 MT of rice vessel BEEK6 is expected to arrive at Kandla Port on 23rd January 2022. And 42,000 MT of rice vessel NPS MOSA is loading at Kakinada Port since 16th January 2022. Also, 39,900 MT of rice vessel STRANGE ATTRACTOR is loading at Kakinada Port since 17th January 2022. And, 55,000 metric tonnes (MT) of rice vessel ELEFTHERTRIA is waiting for loading at Kandla Port since 17th January 2022. Also, 35,640 MT of rice vessel PROPEL PROSPERITY is loading at Kandla Port since 18th January 2022. Also, 22,000 MT of rice vessel MOMENTUM PHONIX is loading at Krishnapatnam Port since 06th January 2022. Also, 41,000 MT of rice vessel SUPRA ONIKI is loading at Krishnapatnam Port since 08th January 2022.
