

Domestic & International Market Highlights:

- As of 23rd January 2022, 606.19 lakh metric tonne (LMT) of paddy have been procured in KMS 2021-22 in the procuring states. Till now, approximately, 77 lakh farmers have been benefitted from the procurement with the MSP value of Rs. 1,18,812.56 crore.
- Rice exports from Vietnam in January are estimated to have risen 4.2 percent from a year earlier to 360,000 tonne. Revenue from rice exports in the period was seen decreasing 4.3 percent to \$182 million. The high prices along with stiff competition from India is the reason for a decrease in the exports.
- In Ghazipur district of Uttar Pradesh, a target has been set to procure 2,31,200 metric tonne of paddy in the district, but till now eighty percent i.e., 1,86,000 metric tonne of paddy have been procured. This purchase has been done from more than 27,900 farmers. Paddy will be procured for one month now. And it is expected that the target will be achieved.
- Thailand's 5% broken rice prices edged higher to \$408-\$415 per tonne, from \$407-\$410 last week. Thailand exported 6.1 million tonne of rice in 2021, up 6.7% from a year earlier, according to data from the country's commerce ministry. Overseas demand for Thai rice was largely still muted.
- Vietnam's 5% broken rice were offered at \$395-\$405 per tonne, unchanged from a week ago. Trading activity is slow as the Lunar New Year holiday is approaching. The main winter-spring harvest will begin over the next week, but won't peak until mid-March. Winter-spring productivity will likely fall 10%-20% from the same harvest a year earlier as many farmers had cut down on fertilization, which has become more expensive due to the pandemic.
- As of 21st January, Rabi paddy sowing was done in 23.606 lakh hectares down by 21.86% from 30.21 lakh hectares the previous year. Tamil Nadu has sown 11.30 lakh hectares of paddy so far up from 10.19 lakh hectares. The decrease in the acreage is mainly due to Telangana and Andhra Pradesh farmers opting out sowing of paddy due to the procurement issues with centre and government's crop diversification policies. Also, in West Bengal and Odisha, the sowing has been delayed due to unseasonal rainfalls.
