

Domestic & International Market Highlights:

- As of 31st January 2022, 642.30 lakh metric tonne (LMT) of paddy have been procured in KMS 2021-22 in the procuring states. Till now, approximately, 83.71 lakh farmers have been benefitted from the procurement with the MSP value of Rs. 1,25,020.85 crore.
- As per sources, the government is likely to reduce up to 10 MMT of rice stocks over the next five years through subsidized prices for ethanol producers. Current estimates are that rice-based ethanol production could be around 10 MMT-11 MMT of rice annually, producing up to 4.8 billion liters of ethanol. Rice stocks on April 1, 2021 were 368% higher than the prescribed stocks level of 13.58 MMT.
- In Bihar, as of February 1, around 32.61 LMT of paddy has been procured from 4.5 lakh farmers. The procurement will end on February 15th and a target of 45 LMT of paddy has been fixed by the government.
- Andhra Pradesh government has to pay over ₹320 crore to farmers towards paddy which was procured from them during the kharif-2021-22 in East Godavari district. During the year, the government procured above 6.18 LMT of paddy from 1.17 lakh farmers in the district. The total worth of paddy procured is ₹1,200 crore. However, it has paid ₹880 crore till date. The delay in clearing the pending amount would further impact the rabi operations in the district, where paddy is sown in over 1.68 lakh hectares in the rabi season.
- Rice export prices in India fell for a second straight week as buyers opted for cheaper offers from Pakistan and Myanmar which are offering the rice at competitive price, while activity in other Asian hubs remained relatively quiet due to the Lunar New Year holidays. India's 5% broken parboiled variety was quoted at \$370 to \$376 per tonne this week, down from last week's range of \$372 to \$379. Freight train availability is still limited, and that has been delaying shipments for deals signed last month.
- As of 28th January, Rabi paddy sowing was done in 28.160 lakh hectares down by 19.31% from 34.900 lakh hectares the previous year. Tamil Nadu has sown 11.38 lakh hectares of paddy so far up from 10.51 lakh hectares. The decrease in the acreage is mainly due to Telangana and Andhra Pradesh farmers opting out sowing of paddy due to the procurement issues with centre and government's crop diversification policies. Also, in West Bengal and Odisha, the sowing has been delayed due to unseasonal rainfalls.
- Thailand's 5% broken rice prices were little changed at \$408-\$417 per tonne, compared to \$408-\$415 last week. The market was still dull from the Lunar New Year holidays and most businesses have not resumed. Some orders made before the new year were fulfilled last week and some new deals have been made with buyers from Southeast Asian countries such as the Philippines, Singapore and Malaysia.

- In Bangladesh, farmers are expanding cultivation of hybrid rice to reap benefits of higher yield than inbred varieties and profit from sale of the staple food. The cultivation of hybrid rice during the current season has reached 12.11 lakh hectares and government has set a target to bring the area to 12.36 lakh hectares. The hybrid rice is expected to produce 20 percent higher than the normal variety and the acreage has increased by 34 percent from 9.04 lakh hectares the previous year.
- As per sources, 39,000 MT of rice vessel AGGELOS B is loading at Kakinada Port since 30th January 2022. And 13,250 MT of rice vessel JOAHAR UK is waiting for loading at Kandla Port since 31st January 2021 55,000 MT of rice vessel ELEFHEROTRIA is loading at Kandla Port since 29th January 2022. And 40,000 MT of rice vessel IOANNIS THEO is loading at Kakinada Port since 26th January 2022. Also, 13,250 MT of rice vessel NADEEN is waiting for loading at Kandla Port since 27th January 2022. And 18,000 MT of rice vessel STORM RIDER is waiting for loading at Kandla Port since 25th January 2022. And 27,600 MT of rice vessel SUN BULK is waiting for loading at Kandla Port since 28th January 2022.
