

Domestic & International Market Highlights:

- As per trade source estimates, 40,000 metric tonne (MT) of rice vessel SEABOSS is loading at Kakinada since 10<sup>th</sup> February 2022. And 5,750 MT of rice vessel BEEK6 is loading at Kandla since 12<sup>th</sup> February 2022.

40,000 MT of rice vessel BOZBURUN M is loading at Kakinada Port since 04<sup>th</sup> February 2022. And 50,000 MT of rice vessel CL CENTURY is loading at Kakinada Port since 01<sup>st</sup> February 2022. Also 21,700 MT of rice vessel OCEAN BAO is loading at Kakinada Port since 07<sup>th</sup> February 2022. And 14,000 MT of rice vessel MANTICORE is loading at Kandla Port since 05<sup>th</sup> February 2022. And 18,000 MT of rice vessel STORM RIDER is loading at Kandla Port since 07<sup>th</sup> February 2022. And 23,000 MT of rice vessel DMC JUPITER is waiting for loading at Kandla Port since 08<sup>th</sup> February 2022. And 27,000 MT of rice vessel HALIT YILDIRIM is waiting for loading at Kandla Port since 09<sup>th</sup> February 2022. And 30,000 MT of rice vessel SINCERE is waiting for loading at Kandla Port since 06<sup>th</sup> February 2022. And 50,2000 MT of rice vessel PARVRAJ is loading at Krishnapatnam Port since 06<sup>th</sup> February 2022.
- Currently, Thailand seems to be the only major competitor in the parboiled sector of rice trade as Thailand is likely to offer stiff competition to India in the global rice market this year with its production rebounding from the poor harvests seen in 2019 and 2020. As per USDA, Thailand's rice production during the 2021-22 season is projected at 20.8 million metric tonne (MMT) compared to 18.8 MMT in 2020-21 and 17.65 MMT in 2019-20. Production is expected to recover due to better availability of water. Currently, Indian parboiled rice 5 percent broken is being quoted at \$370-376, while Thailand is quoting at \$395. Thailand's exports are expected to increase to 8 MMT from 6-6.5 MMT last year.
- Due to the ban on chemical fertilizers, Sri Lanka may see a drop of 30 percent in the production of the main Maha rice harvest season. Sri Lanka can get up to 3.2 MMT of paddy but it has fallen to around 1.5 MMT in drought year and is expected to be around 2.3 MMT due to organic farming program implemented in the country.
- Pakistan's export of rice to China has crossed \$400 million in 2021, up by 133 percent year-on-year, and in the first five months of the last year, Pakistan remained the largest rice supplier to China. This year China imported about 973,000 MT of rice worth \$ 437 million from Pakistan. This year semi or wholly milled rice import crossed about \$249 million, increased by 85% as compared to last year, which was followed by broken rice reaching \$125 million, up by 201% year-on-year.
- In Tamil Nadu, the Delta districts of Tiruvarur, Thanjavur, Nagapattinam and Pudukkottai contribute more than 10 lakh acres under paddy cultivation and of this 1.5 lakh acres have been affected by floods. Besides the flood damage, the state had also slowed down the procurement of paddy through DPCs. The state on a daily basis should procure at least 1,500 paddy bags to complete the procurement.

- Farmers in Pratapgarh district of Uttar Pradesh is facing payment issues as many farmers were still unpaid for the paddy procurement. Paddy procurement is still going on in the district. So far 73,123 MT of paddy has been procured, whereas the government had given a target of 83,000 MT of paddy. Around Rs 2.5 crore are still to be paid to 368 farmers selling paddy at the purchasing centres.
- The wholesale price index of rice for the month of January has reached 164.6 up from previous month's 164.1. The inflation is higher largely due to higher domestic prices of the crop. The cereals whole sale price index increased from 162.8 in December to 163.6 in January.
- As per trade source estimates, India's rice exports for January month were estimated to be around 16.63 LMT down from 18.04 LMT during December month. The decrease in exports is due to low export demand from Bangladesh. China emerged as the largest importer of Indian rice with 2.34 LMT followed by Iran with 1.78 LMT and Nepal with 1.40 LMT.
- Odisha government have procured 36.33 LMT of paddy under the decentralized procurement system as against 43.98 lakh tonne during the same period last year. In the CMR, the State is way behind last year's achievement. As per FCI, the State has so far delivered 12,313 MT of custom milled rice to the Central agency against the last year's figure of 4.56 LMT. The progress in milling rice for distribution under different food security schemes is comparatively better than last year. Odisha under PDS, has received over 2.87 lakh tonne of rice against 2.51 lakh tonne during the corresponding period last year. The total rice procurement till end of January 2022 was 2.99 lakh tonne against 7 lakh tonne last year.
