

4Domestic & International Market Highlights:

- As per trade sources, during the month of February, around 16.82 lakh MT of rice was exported from India at an average FOB of \$838.34 per tonne. China emerged as the largest buyer of rice from India with 2.48 lakh MT of imports followed by Iran with 1.50 lakh MT and Benin with 1.20 lakh MT. The exports are higher compared to January month with 16.63 lakh MT. There was huge demand from South East Asia, Middle East and African countries.
- Cambodia's rice exports during the month of January and February 2022 records an increase compared to the same period in previous year. During the first two months, Cambodia exported 103,058 tons of rice, including all kinds of fragrant rice. This is an increase of 26,836 tons compared to the previous year's exports for 76,222 tons. Rice exports in February 2022 amounted to 50,022 tons which is an increase of 8,073 tons or 19.24 percent compared to February 2021's export of 41,949 tons. The exports increased after the country recovered from covid related restrictions and also after the removal of import duty by European union.
- Odisha government is gearing up for procurement of summer paddy and asked 17 districts to keep the rice millers ready before the start of the operation. The department has started the process of farmers' registration from March 1 for sale of their rabi paddy under the price support system which will start from May 1 and end on June 30, 2022.
- As of 13th March 2022, 731.53 lakh metric tonne (LMT) of paddy have been procured in KMS 2021-22 in the procuring states. Till now, approximately, 103.40 lakh farmers have been benefitted from the procurement with the MSP value of Rs. 1,43,382.03 crore.
- The 5% broken rice of IR 64 variety is being traded at FOB \$350 per tonne from Kolkata Port and \$368 per tonne from Nhava Sheva port. For 5% broken rice of Swarna variety, the price is \$334 per tonne from Vizag Port.
- The CIF price for 5% broken rice include \$498 per tonne for Togo, \$515 per tonne for Gambia, \$455 per tonne for Djibouti and \$505 per tonne for Benin.
- The non-basmati rice prices remain bullish as the increase in freight charges to African destination has supported the market. Also, many traders find it difficult to get the containers which haven't eased till now and is taking longer period of time to complete the contracts. There is a huge demand coming from African markets.
- As the stocks available is low, by the end of April it is expected that 90% of rice millers will stop
 the regular operations and will operate only according to the export demand. As rupee turned
 weaker, exporters maintained a competitive side on FOB offers but affected by the uncertain
 movements of vessels and containers.

- The basmati market is expected to remain steady in the coming week, the prices are already high
 which is making the market bit uncompetitive. Though lower availability and production will
 support the market.
- Ocean container rates from Asia to Europe and to the US have not increased drastically as a result
 of the war in Ukraine and the resulting boycott of Russian shipments by a number of ocean
 carriers. Transpacific lanes increased up by 1-2% this week, while Asia-Europe lanes even fell
 slightly. There are also reports of added congestion at European hubs as Russia-bound cargo stops
 getting moved, and worsening congestion and delays at already overwhelmed ports will slow
 operations and decrease available capacity in the coming days.
