

Domestic & International Market Highlights:

- The concern over the procurement of rice between Telangana and Centre is going over the rabi rice. Telangana government is demanding that Centre must make 100 percent procurement of paddy at MSP instead of MSP on rice. They also asked Centre to procure paddy instead of rice.
- Indonesia has set its 2023 production target for unhusked rice at 56.08 million tonne. Next year's target is lower than the 2022 target at 57.5 million tonne for unhusked rice. In the January-April period of 2022, it is estimated that unhusked rice output is 25.40 million tonne, up by 7.7% from the same period a year earlier.
- There was suspension of rice exports for 100% broken rice as the Rice Exporter Association has issued a notice regarding benchmark pricing on 17th March 2022. Huge demand from South East Asian market is seen for the near term. For most of the other destinations, the demand remains average.
- The US has questioned India's rapidly increasing exports of rice in 2021 by questioning the WTO's
 'Bali interim peace clause' on exceeding subsidy limitations without informing its public
 stockholding programs. Though, Indian government has confirmed that the rice exports which is
 estimated at 21.4 million metric tonne (MMT) in 2021 was not generated from its stockpiles from
 its PSH programs acquired at MSP.
- As per sources, Thailand is expected to export more than 7 MMT of rice this year, exceeding its initial target. Rice exports are expected to be boosted by competitive prices due to the weak Thai baht. Thailand is expected to export about 2 MMT of rice in the first quarter of 2022. It is also expected that with this pace the exports could possibly reach 8 MMT of rice exports this year. They shipped a higher volume to markets in the Middle East such as Iraq, and observed consistent demand from African markets. Asian markets are also turning to Thai rice over Vietnamese because of competitive prices.
- South Korea purchased an estimated 26,791 tonne of rice to be sourced from Vietnam in an international tender which closed in late February. The purchase all involved Vietnamese long grain rice, with 9,000 tonne bought at \$510.70 a tonne CIF for arrival in South Korea around June 30th, another 9,000 tonne bought at \$507.99 a tonne CIF for arrival around September 30th and 8,791 tonne bought at \$517 a tonne CIF also for arrival around September 30th. No purchase was reported of about 44,000 tonne of U.S.-origin wheat also sought in the tender.
- China has decided to increase milled rice imports from Cambodia after a free trade agreement came into force. The growth of milled rice exports from Cambodia to China in the first two months increased by more than 56 percent compared to the same period in 2021. At just over 120,000 tonne, so far, Cambodia has achieved more than 22 percent of the 2022 export quota of 400,000 tonne.

- Currently, 5% broken rice is trading at FOB \$355 per tonne from Mundra Port and 5% broken rice
 of IR-64 is trading at FOB \$350 per tonne from Kolkata Port and FOB \$368 per tonne from Nhava
 Sheva Port. Also 5% broken rice of Swarna variety is trading at FOB \$334 per tonne from Vizag
 Port and FOB \$335 per tonne from Kolkata Port.
- The CIF for 5% broken rice for various location include, \$490 per tonne for Togo, \$492 per tonne for Benin and \$485 per tonne for Somalia and \$425 per tonne for Singapore.
- There are a flat to bullish sentiments seen for short term in case of non-basmati broken rice, though the exchange rate volatility is putting pressure on prices.
- Traders are still completing previous shipments on FOB only basis and freight charges and uncertainty over containers is escalating in the market.
