

Domestic & International Market Highlights:

- The basmati rice sentiments remain weak in benchmark markets. While for non-basmati rice the sentiments were steady to weak.
- India's 5% broken rice were quoted at \$361 to \$365 per tonne FOB, down from last week's \$364-\$368, also weighed down by a weaker rupee which is generally increasing traders' margin from overseas sales. Demand is very good, but prices are coming down because of rupee. Supplies have also improved in the last few weeks.
- Vietnam's 5% broken rice was offered at \$415 per tonne FOB, down from \$420-\$425 last week, due to ample domestic supplies with farmers in the Mekong Delta having harvested about 90% of their winter-spring crop. Vietnam's exports are expected to pick up in the coming months, with stronger demand from such markets as China, Bangladesh, Iran and Sri Lanka. Preliminary shipping data showed 291,690 tonnes of rice is to be loaded at Ho Chi Minh City port in April, with most of it heading to the Philippines and Cuba.
- Thailand's 5% broken rice prices rose slightly to \$410-\$414 per tonne from \$408-\$412 two weeks ago, with traders saying that while the market saw small purchases, activity was muted overall. The country exported 1.1 MMT of rice between January and February this year, up 29% from the same period last year.
- As on 20th April 2022, a quantity of 756.25 LMT of paddy has been procured in KMS 2021-22. Till now about 109.17 Lakh farmers have been benefitted.
- In Andhra Pradesh, 60-70% of the rabi paddy has been harvested with good quality crops arriving. The yield is also better compared to previous year.
- In Chhattisgarh, the stock availability is limited and the rabi crop is expected to be harvested by 15th May 2022.
- India's non-basmati rice exports increased to \$6.11 billion in 2021-22, which is 109 per cent higher compared to \$2.92 billion which is recorded in 2013-14.
- As per reports, Pakistan's Rice export has increased by 14.96 percent, increased from \$1,560.429 million to \$1,793.909 million. The exports of Basmati rice increased from \$408.117 million to \$496.389 million, which is a 21.63 percent increase. Moreover, an increase in other rice products were recorded from \$1,152.312 million to \$1,297.519 million, which is a 12.60 sharing growth increase.
