

**Domestic & International Market Highlights:**

- After Eid and Ramzan, the basmati rice start seeing an upward trend as the wedding season has started and demand from Iran and other middle east countries has increased. Also, the government has banned wheat exports. Earlier, the wheat exports were impacting the rice exports as most of the vessels and rakes were imposed for wheat. But with the export ban decision, we are expecting the prices to trade firm in coming days
- Andhra Pradesh is planning to improve its export policy for better export potential of various commodities including Rice. The state is planning to develop three major ports to increase cargo handling capacity. From overall exports, 4.6% of the exports was for rice. Currently, Vizag, Kakinada and Krishnapatnam ports are the major ports in Andhra Pradesh.
- China has significantly increased the grain exports on monthly basis on April, as more countries has restricted food exports. Grain exports totaled 312,000 MT in April, up by 97.4 percent month-on-month. From January to April, grain exports totaled 916,000 MT.
- USDA has estimate record production for at record 515 MMT which is 2 MMT greater than previous year as larger crop in South and South East Asia including India, Indonesia, Bangladesh, Thailand and Pakistan. Global consumption is also expected to rise due to increase in consumption from India, China and Sub-Saharan countries.
- India's 5% broken rice was quoted at \$357 to \$361 per tonne FOB, which is down from last week's \$363-\$367, as the rupee touched a record low versus the dollar. Falling rupee is helping exporters to lower prices. Across all the parts, the demand for Indian rice is firm.
- Vietnam's 5% broken rice was quoted at \$415-\$420 per tonne FOB against \$420 a week ago. Trading activity is weak due to tight domestic supplies, but is expected to pick up from June with anticipated high demand from the Philippines, Africa, China and Bangladesh. Vietnam's rice exports are estimated at 6.0-6.2 MMT this year, compared to 6.24 MMT last year.
- Thailand's 5% broken rice prices rose to \$450 per tonne FOB from \$432-\$435 last week. There continues to be demand from Iraq and Iran which are buying in bulk with their own ships, driving prices up. Also contributing to rising prices, supplies have begun to gradually decrease.
- Due to the new regime of fixing the exchange rate in Myanmar is impacting the competitiveness of Myanmar rice. The orders from international market started becoming low. In January, exports of rice (including broken rice) hit 260,000 MT. Due to increase in prices, the 5 percent broken rice, which exporters in Pakistan are selling for \$350 per metric tonne, Myanmar exporters are offering \$370 to \$380 a tonne, up from \$330 to \$335 a tonne at the start of this year.
