

**Domestic Market Highlights:**

- Almost steady to mix sentiment was noticed in major spot markets during the day.
- In order to curb the depletion of ground water levels and reduce power usage, Punjab government is trying to diversify crops where around 1 Mha of paddy grown areas would be gradually shifted to cotton, maize, oilseeds and pulses over next five years.
- In Punjab, the current spell of rainfall across Punjab has proved to be helpful for the farmers during the ongoing paddy sowing season, raising hopes for a bumper rice crop. The temperature has also fallen by around 5-8 degree Celsius, leading to fall in power consumption by about 1,500 megawatts, which peaked to 12,500 megawatts few days ago.
- Indian Rice export prices fell this week due to low demand and a slide in the domestic currency, while traders in Bangladesh is awaiting supply from neighbouring India after heavy rains damaged crops.
- Prices of India's 5% broken rice were unchanged at \$357-\$362 per tonne. Indian exporters are not raising prices as the rupee depreciated to a record low which is increasing their margin. India's ban on wheat exports has prompted rice traders to increase purchases.

**International Market Highlights:**

- Sri Lanka has decided to 50,000 MT of rice under Indian loan program. There is an economic crisis which is going in Sri Lanka as a result their dependency on rice has increased. India is a major source of rice for Sri Lanka.
- Thailand's 5% broken rice prices fell to \$430-\$440 per tonne from \$450-\$460 last week. The prices have dropped because the baht was weaker, and will fluctuate along with the exchange rate as demand dropped. The baht hit a more than five-year trough this week, translating into weaker export prices in U.S. dollar terms.
- Vietnam's 5% broken rice prices were also unchanged at \$420-\$425 per tonne. Demand is picking up as countries are increasing purchases amid concerns about further increase in global food prices. Domestic paddy prices are edging up slightly from a week ago, and could put upward pressure on rice export prices over coming weeks.

**Indian Weather/ Monsoon Highlights:**

- Monsoon has advance into more parts of Gujarat, far southern Madhya Pradesh and far southern Odisha. Currently conditions are favourable for advance into more of Odisha and parts of West Bengal in next couple of days.
