

Domestic Market Highlights:

- Steady sentiment was noticed in major spot markets during the day.
- Sources suggest that demand of Indian White Broken Rice is maintaining an upper hand over its competitor exporting countries due to feasible export prices when compared with others. Although export price of 5% Broken Parboiled Rice variety fell to \$355 -\$360 per tonne from \$357-\$365 per tonne last week, as Rupee value against dollar trumbled during past week.
- Due to early paddy sowing in Tamil Nadu, farmers are expecting early crop this season, which would be ready for harvest by last week of August. Looking at the early planting, reportedly state government has requested the Centre to procure paddy a month early in the state by 1st week of Sept 2022.
- According to sources there are reports that Rice millers in Telanagana have around 90 lakh MT of Paddy stocks piled up in the various yards and warehouses. Millers have issued the statement saying that there are possibilities of complete halting of the milling Paddy into Rice if, FCI does not resumes its Rice procurement in from the states.
- There are chances of increasing export demand of Indian Rice on the account of consumers opting Rice as staple food over Wheat due to persisting high prices of Wheat around the world. Under current scenario in upcoming season export of Indian Rice is expected jump by 1.0 million and there are chances of India to emerge as leading Rice exporter, accounting for around forty percent of total world Rice supply.
- As per the sources Paddy growing in the state of Kerala lags behind and crop cycle of Paddy happens to be getting disturbed during upcoming Kharif season, on the account of Southwest monsoon showers. This might give rise to the condition leading to reduced Rice yield in the region.
- Sources reveal that Manipur government is looking forward to procure Paddy during upcoming season to fulfil the requirement of National Food Security Act (NFSA). Concerned authorities as of now plans on procuring paddy from district officers and women stake holders.

Domestic Market Outlook (Non-Basmati):

- Foreseeing on going sluggish domestic demand and restrained exports on the account of container shortage (even after fair export demand), it is expected that domestic prices would remain range bound in near term as per existing scenario.

International Market Highlights:

- As per the sources in order to control the ongoing instability in domestic Rice market, Bangladesh government has reduced import duty rates for the import of Rice from 62.5 percent to 25 percent. This norm as of now is supposed to continue till 31st October 2022.
- As per the sources Thailand's 5% broken rice prices saw a decline for the consecutive week and fell to \$420-\$425 per tonne from \$430-\$440 last week, following lower demand along with dropped prices of Bhatt. Also surge in the oil prices has led to increased transportation cost making delivery prices not-so-feasible for the buyers.
- Sources state that Vietnam's 5% broken rice prices were down to \$418-\$423 per tonne from 420-\$425 in past week due to supply exceeding demand persisting in the market.
- Reportedly, export prices of Cambodian Rice have escalated over past few days due to persisting international food insecurity due to prolonged Russia-Ukraine conflict. Having analyzed current scenario we can expect a further rise in the prices of export at source locations like Cambodia, Thailand and Vietnam, Wheat export ban by various source countries is also acting as the catalyst for souring Rice export prices at various locations.

Indian Weather/ Monsoon Highlights:

- As of now southwest monsoon has already covered Eastern India, Chhattisgarh and Vidarbha region of Maharashtra. However, rainfall received in Central Eastern region of the country and Vidarbha region (Maharashtra) remains deficit when compared to normal rainfall, Bihar being exception while a normal precipitation for corresponding time period was recorded in Bihar.
- For upcoming days it's expected that by July 6th Southwest Monsoon would be covering remaining parts of India as well.
