

Domestic Market Highlights:

- Market prices remained firm for the day in most of the mandis throughout the country due to less arrivals and strong demand.
- As per sources, in Punjab, a record 22 lakh tonnes (LT) of basmati, or the aromatic rice type, have been purchased so far in the harvest cycle of 2022–23, and farmers anticipate selling the grain for an additional 3–4 months.
- As per sources, in Chhattisgarh, A total of 1.89 million farmers in the state have received payments totalling Rs 16,217 crore in exchange for the 7.9 MT of paddy that has already been purchased. The acquisition process started on November 1 and will last through January 31, 2023.
- Market prices upsurged during this week. There is strong demand in the majority of Haryana's mandis from exporters, millers, and private players amid decline in arrivals by each passing day which remains supportive to current market prices and market will move further up in the coming week as we are approaching towards Makar Sankranti. Arrivals in South Indian paddy growing belt and West Bengal are still incoming in the market.
- As of January 1, FCI had 12.4 MT of rice on hand and 32.5 MT more to receive from millers, far exceeding the 7.6 MT buffer requirement.
- According to data released on 30th December, 2022 by Ministry of Agriculture, paddy has been sown in 16.53 lakh Ha. of area compared to 13.70 lakh Ha of previous year, higher by 20.7% in this rabi season.
- The price of the 5% broken parboiled variety from India was reported at \$375 to \$382 per tonne, up from the previous week's range of \$374 to \$380 due to robust demand but gains were limited by the increasing supply from new-season crops.
- As per reports, paddy is typically grown on about 20,000 hectares in Dharmapuri district of Tamil Nadu. The area under cultivation now totals 60,000 hectares as a result of this year's abundant rains. A further aim set by the agriculture department for 2022–2023 is 1,67,000 hectares. The district got more than 1,200 mm of rain this year. Through DPCs, the government purchases paddy for Rs 19 per kg. However, private parties offer Rs. 9 to 12 per kilogramme. Farmers who sell in the private market cannot make money after accounting for labour and input costs.

- As per reports, in Telangana, the procedure of paddy procurement for the kharif season is concluded. At the minimum support price (MSP), the government has so far acquired 59 lakh tonnes of paddy from 10.4 lakh farmers for Rs 12,051 crore, crediting Rs 11,000 crore to their bank accounts. 4,607 of the 7,011 procurement centres have been shuttered as a result of the successful paddy purchase. At 6,00,000 MT, Nizamabad district had the largest procurement, followed by Kamareddy district with 5,00,000 MT and Nalgonda district with 4,00,000 MT.
- According to sources, till December 28, the Andhra Pradesh Civil Supplies Corporation purchased 17.53 lakh metric tonnes of paddy from around 3.10 lakh farmers for a total of Rs 3,578.43 crore. For the purchased paddy, a total of Rs 1,773.98 crore has been put into the bank accounts of 1.67 lakh farmers. Farmers' accounts have been credited with Rs 17.66 crore for the cost of hamali, gunny bags, and transportation.
- As per reports, despite shipping restrictions, India's exports of aromatic basmati and non-basmati rice increased 7.37 percent to 126.97 lakh tonnes from April to October of the current fiscal year. 118.25 lakh tonnes were exported during the same time of the prior fiscal. The amount of basmati rice exported as a percentage of all exports increased from 21.59 lakh tonnes in the April–October 2022–23 fiscal term to 24.97 lakh tonnes. Exports of non-basmati rice grew from 96.66 lakh tonnes to 102 lakh tonnes over the same time period.
- According to sources, due to an increase in the purchase of food grains during the previous eight years, the minimum support price (MSP) for rice has increased by 42.64 % during the eight years of the Narendra Modi government. Total procurement was 1,926 million tonnes from 2006 to 2014, and from 2014 to 2022, it rose to 2,273 million tonnes.

Domestic Market Outlook (Non-Basmati):

- As per prevailing market fundamentals, arrivals of non-basmati have almost come to an end so, it is expected that domestic prices would improve in near term.

International Market Highlights

- The price for Vietnam's 5% broken rice was \$458 a tonne free on board, up from \$448-\$453 a week earlier and the highest price since mid-July as China's decision to relax its coronavirus restrictions is likely to help Vietnam to increase exports.

- As per estimates, Vietnam's rice exports will have increased 15.7% to 7.22 million tonnes in 2022. An estimated 550,000 tonnes of rice were exported from Vietnam in December, worth \$283 million.
- Price quotes for Thailand's 5% broken rice ranged from \$452 to \$465 per tonne, up from last week's \$452 to 460 range. The strong baht was the cause of the export price peak. While acknowledging that supply would not be a problem to satisfy increased demand, farmers and mills decreased operations in preparation for the holidays, which generally tempered price volatility. When prices are trending upward, millers would purchase more in order to stock up in expectation of future price increases.
- As per news reports, in contrast to the pricing offered by the private trade in a global import tender, Bangladesh has offered Indian cooperatives almost \$40 per tonne extra to import 2.5 lakh tonnes of parboiled rice in a government-to-government transaction. According to trade sources, the import agreement would be made through NCCF (National Cooperative Consumers Federation) and Kendriya Bhandar in two installments, with Dhaka receiving rice at a price of \$443 and \$443.5 per tonne, respectively. Bangladesh will receive parboiled rice for at least \$25 less than Thailand or Pakistan, despite paying Indian cooperatives more for the G2G transaction. Currently, Pakistan is offering parboiled rice for \$453-457 per tonne, while Thailand is bidding \$486 per tonne.
- As per sources, in order to obtain at least 0.5 million tonnes (MT) of parboiled rice on a government-to-government (G2G) basis for distribution through ration shops, Bangladesh has approached India.
