

Latest Market Development:

All India Average rice price in the first week of April was moved firm by 1.26% from previous week and currently hover in the range of Rs.2770-2780/quintal. We expect market is likely to move in the range bound to firm in coming weeks.

Rice prices of Pusa 1121 basmati variety in Punjab and Haryana states were unchanged on account of the steady local and export demand, according to the traders. Prices of Pusa 1121 basmati (parboiled) variety was at Rs 4,600-4,700 per quintal. However, Rice prices would likely to up as basmati export may pick up from this month. Price of 1509 steam is hover in the range of Rs.5400-5500/quintal in Amritsar market.

As per data released by Ministry of agriculture, Planting for India's 2014-15 rabi (secondary) rice crop (November-May) has reached about 3.943 million hectares as of March 27, a decrease of about 9.5% from the same period last year.

All-India progressive procurement of Rice as on 27.03.2015 for the marketing season 2014-15 was 240.66 lakh tonnes against the procurement of 243.94 lakh tonnes up to the corresponding period of last year. Punjab, Chhattisgarh and Haryana are major contributor for rice procurement in the season.

China is likely to begin rice import from India in July this year, as domestic consumption is increased in 2014-15 by 1.43% from last year as per by USDA. China previously restricted the import of Indian basmati rice due to Khapra beetle.

In the pre-monsoon season, cumulative weekly Rainfall for the country as a whole during the week 19th March to 25th March, 2015 was 90% lower than Long Period Average (LPA). Rainfall (% departure from LPA) in the four broad geographical divisions of the country during the above period was lower by -85% in East & North East India, -92% in North West India, -94% in Central India and -99% in South Peninsula.

All Commodities inflation rate based on Wholesale Price Index (WPI) on a point to point basis for the month of February, 2015, decreased to -2.06% from -0.39 in the month of January, 2015. The inflation rate was 5.03% during the corresponding period of last year. Among the foodgrains, the inflation for Rice has decreased to 3.80% from the previous month's 4.00%, Cereals to 1.39% from the previous month's 1.65% and Wheat to -2.40% from the previous month's -1.63%. The inflation for Pulses has increased to 14.59% from the previous month's 12.34%.

Rice Monthly Export:

MY-2013-14	Non Basmati	Basmati	Total Export 2013-14	MY-2014-15	Non Basmati	Basmati	Total Export 2014-15

Revised (Source-DGCIS & * = IBIS)

Total Rice export for MY-2014-15 till February-15 was 49.41 lakh tonnes which was up by around 12% from same period last year export of 44.15 lakh tonnes. Non basmati rice export in the month of February was 5.74 lakh tonnes and basmati exports for MY-2014-15(Oct14-Sep-15) in the month was 1.83 lakh tonnes which is lower by around 15% and 49% respectively from last month.

The fall of basmati rice export was mainly due to import ban by Iran who is a major basmati rice importer from Iran. This year Agriwatch expects that total rice export may fall from 10.14 million tonnes to 9-9.5 million tonnes due to lower production prospects as well tough competition from Thailand, which is planning to sell rice from their stockpiles at cheaper rate in global market.

India Rice Balance Sheet:

Figure in MMT	2013-14	2014-15*
Carry in	26.19	22.65
Production	106.54	102.5
Imports	0	0

Av Monthly Consumption	8.27	8.28
Stock to Month Use	2.74	2.03
Stock to Consumption Ratio	0.23	0.17

(Source: Agriwatch Research, USDA)

Agriwatch has revised its rice production and ending stock estimates in April, 1st week. Rabi sowing is almost over in rabi rice growing states and acreage is 9.5% down from last year so we down the rice production for MY-2014-15 from 103 million tonnes in previous estimates(3rd week Of February) to 102.5 million tonnes.

At Export front, it is same from Agriwatch's last estimates, however we expect that export of rice (including basmati and non basmati rice) could vary from 8.5 million tonnes to 9.5 million tonnes depends upon global demand for Indian rice and competitive price offer by major competitors like Thailand, Pakistan and Vietnam.

Domestic consumption is likely to up by 1.17% from last year consumption of 99.18 million tonnes to 99.35 million tonnes in 2014-15. Fall in production, fall in total availability and around 9 million tonnes of export could be the main reason for lower carry stock in MY 2014-15. This may push the rice price in upward direction in medium to long term (April-August).

Progressive Procurement of Rice as on 27.03.2015 (lakh tonnes):

State	Total procurement in marketing season	Progressive Procurement as on 27.03.2015

As per the data reported by APMCs

Price Projection for April 02nd Week in Domestic Market:

Duration	Trend	Average Price Range
02 nd Week of Apr, 2015	Steady to Firm	Rs.2750-2850/Q

Global Updates:

Colombian rough/paddy rice production is expected to increase 130,000 MT to 1.98 million MT in MY2015/16. In 2014, the area planted fell by about 60,000 hectares (148,000 acres). As a result, rice production declined 132,000 MT. Reduced supplies at the end of CY 2014 put upward pressure on rice prices, increasing 53% since December 2014. This price surge is stimulating expanded planting and Post forecasts that area planted will recover to about 450,000 hectares (1.1 million acres) in MY 2015/2016.

The International Rice Research Institute (IRRI) and its partners have announced that they had released at least 28 new rice varieties to eight countries in Asia and Africa last year.

A delegation of Guangdong Grain Association of China, during a B2B meeting, has sealed an agreement with Rice Exporters Association of Pakistan (REAP) to import 1,500 metric tonnes of rice from Pakistan.

Peru a country in western South America's Rice production in MY 2015/16 is forecast at 2.15 MMT (milled basis), remaining in the same level as current production. Rice production has reached a maximum level and is now limited by water availability and demand. The total rice harvested area for MY 2015/16 is forecast to fall to 400,000 hectares, about the same as the previous year. With good weather conditions and plentiful water, rice production in CY 2014 reached almost 2 MMT. Rice is normally harvested April through May in the country, averaging \$317 per MT in CY 2014. This price represents a 3.6 percent increase compared to the previous year.

The International Grains Council estimates 2015 world rice trade will reach about 42 million tons, down about 3% from a record 43 million tons in 2014. The IGC estimates world rice production for 2014-15 will be about 475 million tons, down slightly from 2013-14. World rice consumption in 2014-15 may increase to about 483 million tons, up about 1% from the previous year. World rice ending stocks are expected to decline from the previous year to around 101 million tons in 2014-15.

FOB Quotes for Long Grain White Rice, High Quality

Source-Oryza

FOB quotes for high quality white rice in the month of March was weak in all major exporters except Pakistan. FOB for Thailand, Vietnam and India were down by -4%, -1.3 and -3.75% respectively in the month of March from last month. On the other hand due to lower production prospects and lower carryover stock in Pakistan, rice international price was moved up in last month by 4.34%.

IGC Balance Sheet:

(Fig. In Million Tonnes)

	2012-13	2013-14 est.	projection 26.02.15	2014-15 Forecast 22.01.15	projection 26.0315 2015-16
Production	467	472	476	474	475
Trade	39	29	43	42	42
Consumption	458	468	479	483	483
Carryover stocks	109	113	110	101	101
Y-O-Y change	8	4	-3		-8
Major Exporters	37	40	38	30	31

Note: Major exporters are India, Pakistan, Thailand, Vietnam, and United States

IGC Rice Balance sheet Highlights:

World rice output in 2014/15 is placed fractionally higher than before, at 475m t, only slightly lower y/y. The increase from February is absorbed through upward adjustments to use and stocks. Nevertheless, world carryovers are still seen at a four-year low of around 101m t, led by a steep contraction in leading exporters. Forecast world trade in 2015 (Jan/Dec) is cut marginally, to some 42m t, only 3% below last year's high. Underpinned by increased food demand in Asia, global rice consumption in 2014/15 is anticipated to rise by 1% y/y, to a fresh peak. And with total use set to exceed world production, end-season carryovers are expected to fall by 8%. Much of the contraction will be due to the major exporters, namely Thailand and India. World trade in 2015 (Jan/Dec) is forecast to fall by 3% from the previous year's record on a contraction in shipments to South Asian markets.

Rice Price Trend @ CBOT May- 15, Rough Rice): (Prices in US\$/hundredweight)

Market Analysis:

The CBOT May month rough rice chart indicates range bound to slightly firm movement in previous session. We expect market will hover in the range USD 10.70 to USD 11.10/ hundredweight in coming sessions.

Price Projection (International-CBOT):

Duration	Trend	Price Range
02 nd Week of April, 2015	Steady	USD/ Hundred Weight 10.70-11.10
