**Outlook and Review:**  
**Domestic Front**

**Wholesale Prices for India as an average for 04<sup>th</sup> week of February traded firmed by 0.35% from last week. Prices are currently hovering at Rs.2920-2930/quintal and 5.10% up from price of Rs.2782/Quintal during corresponding period last year. Agriwatch expects rice market to move in firm tone as demand is continuously strong from African countries in the market.**

**As per second advance estimate released by Agriculture Ministry, Total production of rice is estimated at record 108.86 million tonnes** which is also a new record. This year's Rice production is higher by 2.21 million tonnes than previous record production of 106.65 million tonnes achieved during 2013-14. It is also higher by 3.44 million tonnes than the five years' average Rice production of 105.42 million tonnes. Production of rice has increased significantly by 4.45 million tonnes than the production of 104.41 million tonnes during 2015-16. . As a result of very good rainfall during monsoon 2016, record rice production seen in the current year.

**As per latest information available on sowing of crops, total area sown under Rabi crops in the country as on 27.01.2017** has been reported to be 637.34 lakh hectares as compared to 600.02 lakh hectares in the corresponding period of last year. This year's area coverage so far is higher by 37.3 lakh ha. than the last year and 21.2 lakh ha. than normal area coverage during the same period., Rice sowing in the period up to January 27<sup>th</sup> declined to 21.77 lakh hectares. Chhattisgarh was the only State to report a jump in acreage, while all other rice growing States including Tamil Nadu reported a fall in sowing.

**Delay in resumption of imports by Iran is likely to hinder the recovery in Basmati exports from India, however, this as a temporary delay**, as Iran's insufficient domestic rice production and depleting inventory levels to meet its demand. Agriwatch expects that Iran may import Indian rice by mid-march.

**All-India progressive procurement of Rice as on 17.02.2017 for the Kharif marketing season 2016-17 was 294.75 lakh tonnes** against the procurement of 265.42 lakh tonnes in the corresponding period of last year.

**India's rice stocks in the central pool as on February- 1, 2017 stood at around 29.29 million tons up by about 1.20% from around 28.94 million tons** recorded during the corresponding period last year, according to data from the Food Corporation of India (FCI). India's rice stocks in the central pool are down about 1.34% from around 29.69 million tons recorded on January-01, 2016. The current rice stocks are about one million tons more than the required strategic reserve norms of around 1.25 million tons for this time of the year, according to the FCI.

**In the winter season, at All-India level, the rainfall during the week (09<sup>th</sup> February, 2017 – 15<sup>th</sup> February, 2017) has been 86% lower than the Long Period Average (LPA).** Rainfall in the four broad geographical divisions of the country during the above period have been lower by 98% in North West India, 85% in South Peninsula, 76% in East & North East India and 40% in Central India.

## Agriwatch Cereals Commodity Indices – Feb-13, 2017

### Agri Commodities Index rises 0.49% as Cereals gain

The Agriwatch Agri Commodities Index fell 0.50% to 114.27 during the week ended Feb 11, 2017 from 114.85 during the previous week. The base for the Index and all sub-Indices is 2014 (= 100). Pulses fell sharply led by a 10.5% slump in the Chana Index due to the harvest around the corner, while Tur and Urad Indices fell over 4% each. Higher sugar cushioned the Index's fall. The commodity group sub-Index values and their weekly changes are as follows: Cereals Index: 116.91 (-0.04%), Pulses Index: 140.70 (-8.23%), Vegetables Index: 40.20 (-3.67%), Edible Oils Index: 110.59 (-0.49%), Oilseeds Index: 94.31 (+0.34%), Spices Index: 111.16 (-2.15%), Sweeteners Index: 127.89 (+1.85%), Fibres Index: 117.24 (+1.94%) and Other Non-Food Articles Index: 98.39 (-0.55%).

"Agriwatch has recently launched its AW Agri Commodity Indices to enable organizations access independent Indices to track and use to benchmark their purchases and sales. The Indices are based on the daily prices in the key benchmark markets for each commodity that AW has been covering for the past decade. The indices include an Aggregate Index, Category Indices and individual commodity indices. The weekly indices are free to access on our website [www.agriwatch.com](http://www.agriwatch.com). The daily indices are available on subscription. Please contact for more details."

Grand Total	270889.69	508.29	Grand Total	216807.16	812.59

Total Rice exported from India in November was 4.86 lakh tons out of which basmati rice contribute 44.45%, and non-basmati rice is 55.54% in this period with quantity of around 2.16 lakh tons and 2.70 lakh tons respectively as per latest data extract from IBIS. Major importers of Indian Basmati rice in this period were Iraq, Guinea and Cambodia. We expect Middle East countries to remain the major basmati buyers of Indian Basmati from Mundra and Kakinada Port in coming months. Major non-basmati importers were UAE, Saudi and Iran. Monthly rice exports in the month were down by around 19% from last month export of 5.98 lakh tons.

## Global Updates

**Ghana Government has set an ambitious target to increase rice production by an enormous 49% just this year as an extent to reduce rice imports to save the economy foreign exchange.** As at the end of 2016, Ghana's rice production stands at 687,680 metric tonnes and 1,025,180 metric tonnes to be produced in 2017. Production in the country is to increase by 337,500 metric tonnes this year which may impact the import from different nation include Indian non-basmati rice.

**Unofficial preliminary Thailand rice exports (excluding premium white and fragrant rice) for February 6-12, 2017, totaled 83,850 metric tons,** down 102,043 metric tons from the previous week, and down 70,829 metric tons from the four-week moving average of 154,679 metric tons. Rice exports from January 1 – February 12, 2017, totaled 835,957 metric tons.

**During the period from July-January, 2016-17 rice exports from Pakistan reduced by 14.62 percent as compared to the same period** of last year. Meanwhile, in last seven months about 1,844,048 metric tons of rice other than basmati rice exported and earned \$670.737 million as compared to 2,023,778 metric tons valuing \$785.141 million of same period of last year. On month on month basis, rice exports grew by 3.85 percent in month of January, 2017 as compared to exports of same period of last year.

**For 2016/17, global rice production, already at a record, is raised fractionally this month on revisions to the crops in Bangladesh** and Kazakhstan. Global trade is up, with larger imports for the United Arab Emirates and Brazil. Exports are raised for India, Thailand, and Burma. Global stocks are revised slightly lower, but are still the highest in 15 years.

**Global rice trade is forecast to rise in 2017, on larger imports by Asian and Middle Eastern countries. Trade is projected** up 3 percent from the prior year to the third-largest on record. This reverses the recent 2-year contraction that occurred as countries sought to increase domestic production and selfsufficiency, at times through restrictive trade measures.

**The Philippines' state grains agency has approved permits for local rice traders to import 641,080 tons of the staple grain from** Thailand, Vietnam, Pakistan and India. The approved imports, which must be brought in by Feb. 28, 2017, account for 80 percent of the maximum volume of 805,200 tons that private traders are allowed to bring in under an annual country-specific quota scheme. Private traders will import 284,780 tons of rice from Thailand; 294,020 tons from Vietnam; 56,140 tons from Pakistan; and 6,140 tons from India. Fresh demand from the Philippines, one of the world's biggest rice buyers, could underpin export prices particularly in Vietnam and Thailand, traditionally its main suppliers. Rice export prices in India and Vietnam weakened last week on thin demand, but still failed to attract buyers, while prices rose slightly in Thailand amid a slowing harvest.

**Indonesia plans to export rice, after national production reached 79.17 million tons in 2016, which is above the target set at 72 million tons.** Indonesia has already exported organic rice to five countries, including Belgium.

**FOB Quotes Aromatic Rice (1121 Steam)**

Source-FAO& Agriwatch

Indian FOB for 1121 steam in the month of January moved firm from last month and currently is in the range of USD 950-955/MT which is up by 4.18% from last month price of 916 USD/T. Average basmati rice price too firm even with arrival pressure as aromatic rice production estimates is 25-30% lower than last year also expectation of higher demand from Iran and other middle east countries supporting price. According to the UN's Food and Agriculture Organization (FAO), currently Pakistani basmati FOB is hovering in the range of USD 960-970/MT which is 10% up from last month FOB of USD 873/MT.

**IGC Rice Balance Sheet**

(Fig. In Million Tons)

Attributes ( Fig in Million Tons)	2013-14	2014-15 Estimate	2015-16 Forecast 25.02.16	Projection 24.11.16	Projection (2016-17) 19.01.2017

<b>Y-O-Y change</b>	0	-2	-10	2	0
<b>Major Exporters</b>	38	32	20	30	29

Note: Major exporters are India, Pakistan, Thailand, Vietnam, and United States

**IGC Rice Balance sheet Highlights**

The Council's outlook for world rice production in 2016/17 is lowered on account of diminished prospects in South Asia, notably in Sri Lanka. Nevertheless, it is still expected to post a 10m t y/y increase, to a record of 482m. With total uptake cut fractionally, world ending stocks are forecast unchanged from previously and steady y/y, at 118m t. The prediction for trade is kept at 41m t (+5%), in line with average. After a season in which harvests in Asian producers were negatively affected by dryness, world rice output could recover in 2016/17, by 2% y/y, to a peak of

482m t, under improved conditions. Larger availabilities are expected to be absorbed by a population-driven expansion in food use across Africa and Asia, resulting in little change in the world carryover, placed at 118m t. However, major exporters' inventories may retreat for the fourth consecutive year, especially on efforts by the Thai government to offload state reserves. Trade is predicted to rise by 5%, to 41m t, in 2017, as depressed world market values stimulate bigger purchases by some importers.

### IGC Forecast the World Rice Production Up in 2016-17

In its January 2016 Grain Market Report (GMR), the International Grains Council (IGC) forecasts 2016-17 global rice production at around 484 million tons, up about 2 % from an estimated 473 million tons in 2015-16 on improved Asian production.

### Global Trade of Rice Unchanged from Last Month

The IGC forecasts 2016-17 global rice trades at around 41 million tons, unchanged from its estimates for 2015-16. It expects world rice trade in 2017 to increase on high demand from buyers in Africa and Asia.

### Global Consumption of Rice Decreases in 2016-17

The IGC forecasts 2016-17 global rice consumption to up about 1.90% to around 482 million tons from an estimated 473 million tons in 2015-16.

### Rice Price Trend @ CBOT March- 17, Rough Rice) (Prices in US\$/hundredweight)

### Market Analysis

The CBOT March month rough chart for rice indicates steady to weak movement in last couple of weeks; overall market is in weak tone. We expect market to hover in the range of USD 9.25-10.00 hundred weights in coming sessions.

**Price Projection (International-CBOT)**

Duration	Trend	Price Range
01 <sup>st</sup> Week of March,2017	Steady	USD/ Hundred Weight 9.25-10.00
