Rice Weekly Research Report

Contents

Outlook and Review:

Domestic Front

Average weekly wholesale rice prices in India stood at around Rs.2899 per quintal in third week of July-2017, weak about 0.81*% from around Rs.2922 per quintal in last week, and up about 3.23% from around Rs.2808 per quintal a year ago. Agriwatch expects non-basmati rice market to move range bound with firm tone in coming month due to expectation of higher international demand and lower stock.*

The total sown area as on 21st July 2017, as per reports received from States, stands at 685.31 lakh hectare as compared *to 673.41 lakh hectare at this time last year. It is reported that rice has been sown/transplanted in 177.04 lakh ha, pulses in 93.36 lakh ha, coarse cereals in 130.90 lakh ha, oilseeds in 123.55 lakh ha and cotton in 104.29 lakh ha.*

All-India progressive procurement of Rice as on 14.07.2017 for 2016-17 was 386.72 lakh tonnes against the procurement *of 340.78 lakh tonnes in the corresponding period of last year. The procurement of wheat for the rabi marketing season (RMS) 2017-18 was 308.01 lakh tonnes against the procurement of 229.62 lakh tonnes in the corresponding period of RMS 2016-17.*

In the monsoon season, at All-India level, the rainfall during the week (06th July, 2017 – 12th July, 2017) has been 19% lower *than Long Period Average (LPA). Rainfall in the four broad geographical divisions of the country during the above period have been higher than LPA by 23% in East & North East India and 4% in North West India but lower than LPA by 52% in Central India and 45% in South Peninsula.*

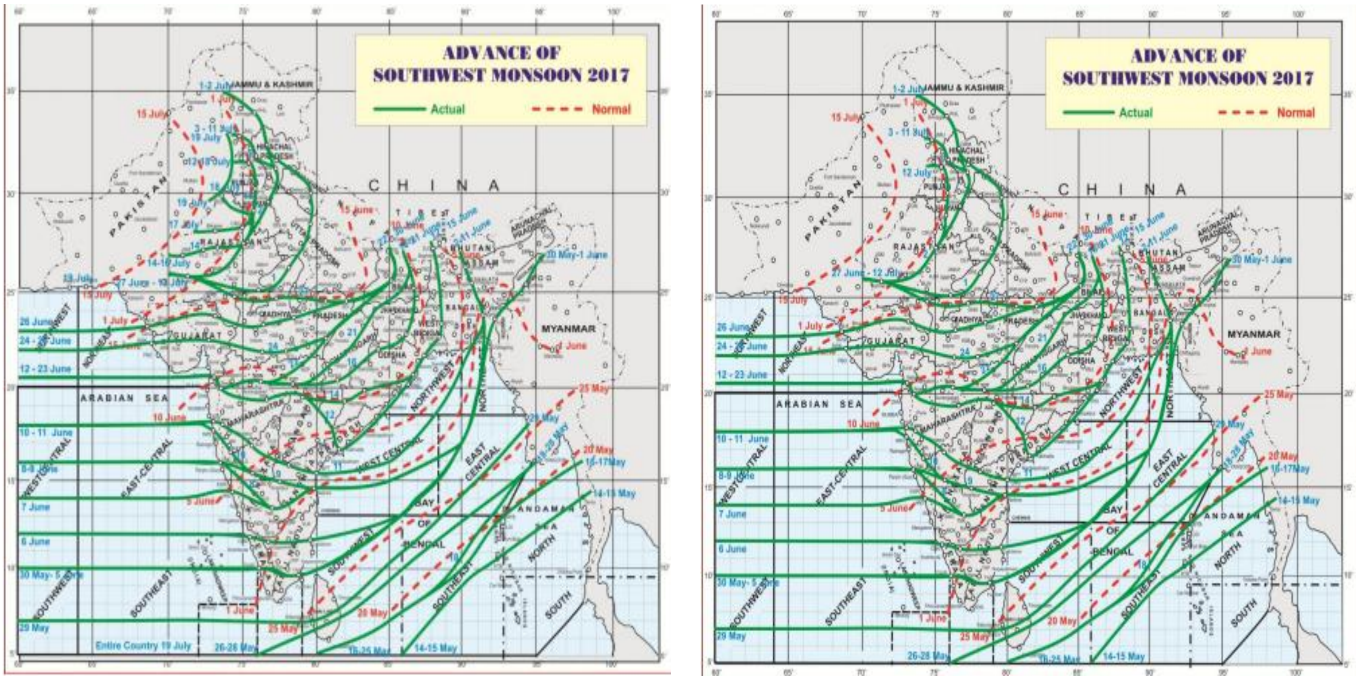
Rice basmati drifted further lower by up to Rs 200 per quintal at the wholesale grains market today owing to slackened *demand against adequate stocks position. Other grains held steady in thin trade. 1121 sella traded at Rs.6000/quintal and steam rice traded at Rs.6400/quintal and in non-basmati rice section, sugandha steam rice traded at Rs.5800/quintal, sarbati steam rice traded at Rs.4700/quintal and sambha masuri at Rs.3050-3100/quintal. We expect that basmati rice price is likely to move up in coming weeks.*

As per Bangladesh food minister, Bangladesh could suspend a plan to import rice from India due to high prices, Bangladesh, the world's fourth-*biggest rice producer, has emerged as a major importer of rice this year due to depleted stocks and record local prices following flash floods. Bangladesh, the world's fourth-biggest rice producer, has emerged as a major importer of rice this year due to depleted stocks and record local prices following flash floods, but deals with the world's biggest rice exporter, India, might not happen.*

India's rice stocks in the central pool as on July- 1, 2017 stood at around 26.46 million tons down by about 8.75% from around 29 *million tons recorded during the corresponding period last year, according to data from the Food Corporation of India (FCI). India's rice stocks in the central pool are down about 8.25% from around 28.84 million tons recorded on June-01, 2017. The current rice stocks are about one million tons more than the required strategic reserve norms of around 1.25 million tons for this time of the year, according to the FCI.*

Weather Watch:

Advance of Southwest Monsoon This week Vs. Previous Week-2017:



As per IMD, India has received cumulative rainfall of 103% of the benchmark LPA. The northwest and central regions have received rainfall with 116% and 113% of the LPA respectively whereas the southern peninsula and east/north-east region have received rainfall with 91% and 90% of the LPA respectively. IMD has further forecasted that rainfall is likely to decrease between July 27 and August 02. The only regions suffering with deficient rains include Kerala, Parts of Karnataka and Tamil Nadu.

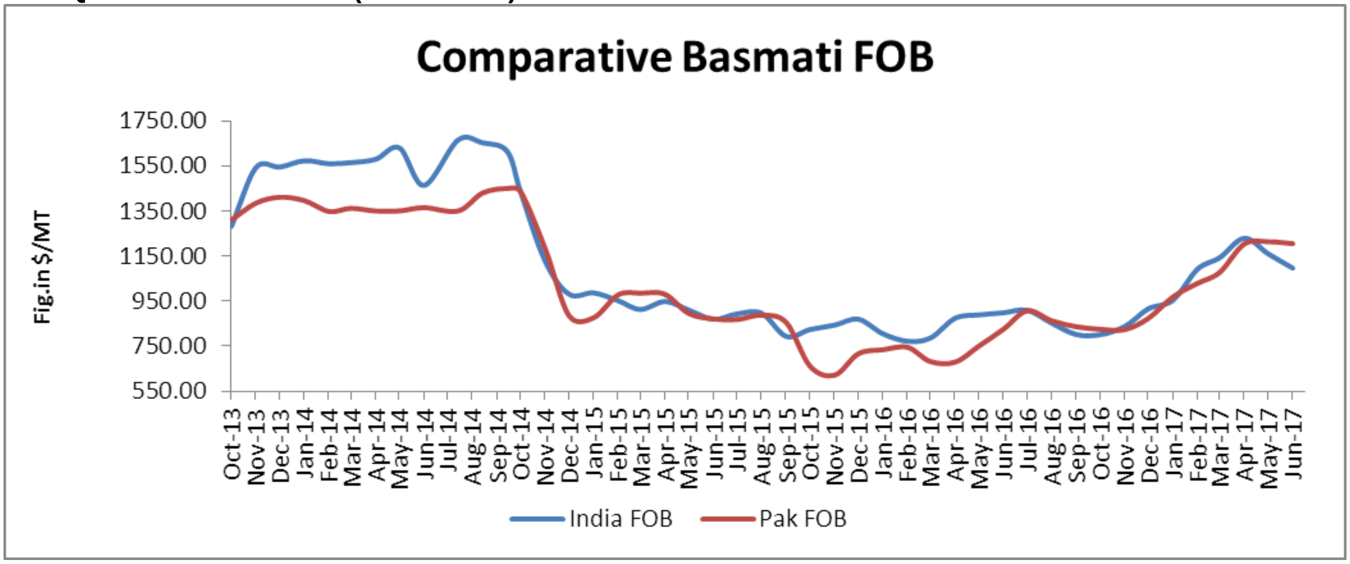
Riding a record harvest, public rice procurement in MY 2016/17 through July-07, 2017, was estimated at 38.72 MMT, an increase over the 34.07 MMT procured during the corresponding period last year. All major rice producing states procured at higher levels except for the southern states of Andhra Pradesh, and Tamil Nadu where dry conditions affected production levels. With additional procurement of rabi and summer rice likely to continue in eastern and southern states, although less than last year, public rice procurement in MY 2016/17 is already exceed the target of 38 MMT for MY 2016-17 and it is expected to procure around 40 MMT rice in this season.

FOB Quotes Aromatic Rice (1121 Steam)



Source-FAO& Agriwatch

Indian FOB for 1121 steam in the month of June moved weak from last month and currently is in the range of USD 1096-1097/MT which is down by 5.48% from last month price of USD 1160/T. Average basmati rice price too frail this month with lower demand and current GST issues even with lower stocks, however overall sentiments for basmati rice price remains firm in coming months. According to the UN's Food and Agriculture Organization (FAO), Currently Pakistani basmati FOB is moving weak and now it's hovering in the range of USD 1205/MT which is also down by 0.72% from last month FOB of USD 1214/MT.

Global Updates

Sri Lanka has offered to purchase 500,000 tonnes of high-quality rice from Myanmar through a government-to-government contract, the offer to buy 200,000 tonnes of parboiled rice and 300,000 tonnes of white rice was made last week. Parboiled rice, or converted rice, is rice that has been partially boiled in the husk. Each year, Myanmar exports between 1.5 million and 2 million tonnes of rice, according to the Myanmar Rice Federation (MRF).

Turkey forecasts rice production at 776,000 MT in MY2017/18. Rice planting finished in May 2017. Although planting area is similar with last year, some farmers are hopeful about yields due to new seed varieties. Rice imports during the first nine months of MY 2016/17 were about 250,000 MT. Rice import into Turkey will be 300,000 tons, milled equivalent. According to Turkish Statistic Institute, Turkey imported 146,000 Mt of paddy rice (102,000 MT milled equivalent) from United States during the first nine months of MY 2016/17. When comparing importer and exporter data regarding Turkish rice trade, there are some differences due to transshipments. Also, another reason is that Turkish importers store the rice in bonded warehouses for 2-3 months until they find buyers to avoid advance payment of the 45 percent tariffs and VAT. Rice exports during the first nine months of MY 2016/17 were about 50,000 MT. Libya is the main destination with 18,300 MT, followed by Sudan with 7,300 MT. Rice export forecast at 75,000 MT in MY2016/17, milled equivalent due to strong demand from neighboring and African counties.

Bangladesh rice production in marketing year (MY) 2017/18 is forecast lower at 34.18 million metric tons (MMT). Unfavorable weather conditions during critical development stages drove yields lower for the Boro rice season. MY 2017/18 rice imports are forecast up at 1.2 MMT due to significantly reduced domestic production. MY 2017/18 projected wheat imports are raised to 6 MMT on increased consumption demand and lower domestic production in MY 2016/17. Corn consumption as feed is raised to 3.8 MMT in MY 2017/18 on expanding aqua culture production and increased feed processing capacity.

It is forecasts that Egyptian milled rice production in MY2017/18 will decrease to 4.0 MMT from an estimated 5.1 MMT in MY2016/17 which was revised upward from USDA's official estimate of 4.5 MMT.The projected reduction is attributed to a decrease in the planted area to 700,000 ha in MY2017/18 down from 920,000 ha in MY 2016/17, which was revised upward from USDA official estimate of 750,000 ha. For this year's crop, farmers are expected to shift to cotton and yellow corn production due to attractive prices for these crops. Moreover, the Ministry of Water Resources (MWRI) is expected to step up enforcement of the limit on rice area by issuing hefty fines to those farmers found planting outside the government's specified rice acreage.

IGC Rice Balance Sheet **(Fig. In Million Tons)**

IGC Rice Balance sheet Highlights

Reflecting recent data which show large shipments to Asian and African markets in the early months of this year, the Council's outlook for rice trade in 2017 is now placed at a three-year high of 41.6m t, up by 6% y/y. The global production outlook for 2017/18 is trimmed from before, but because of bigger carry-ins, supplies are seen little changed m/m. World ending stocks are pegged slightly lower, at 118m t, a modest contraction y/y, but trade in 2018 is projected to climb to 41.8m t, only slightly short of the 2014 all-time peak. Global rice trade is forecast to expand by 6% y/y in 2017 on firm demand from Asian and African buyers (see Market Focus). Prospects for 2017/18 are highly provisional, but production is seen edging up amid modest area expansion in Asia, notably in India and Thailand. Population growth is likely to underpin food use, while stocks might contract slightly, tied to a reduction in the major exporters. In Thailand, where the government continues to dispose of old crop reserves, inventories are projected at a ten-year low. Trade in 2018 is anticipated to remain elevated and only slightly below the peak of four seasons earlier.

IGC Forecast the World Rice Production Up in 2017-18

In its June 2017 Grain Market Report (GMR), the International Grains Council (IGC) projection for 2017-18 global rice production at around 486 million tons, up about 0.72% from an estimated 484 million tons in 2016-17 on improved Asian production.

Global Trade of Rice Unchanged from Last Month

The IGC forecasts 2017-18 global rice trades at around 42 million tons, unchanged from its estimates for 2016-17. It expects world rice trade in 2017 to remain same on normal demand from buyers in Africa and Asia.

Global Consumption of Rice Increases in 2016-17

The IGC forecasts 2017-18 global rice consumption to up about 1.0% to around 488 million tons from an estimated 484 million tons in 2016-17

Rice Price Trend @ CBOT September- 17, Rough Rice)
(Prices in US$/hundredweight)

Market Analysis

The CBOT September-17 month rough chart for rice indicates firm movement from last month. We expect market to hover in the range of USD 10.70-12.50 hundred weights in coming sessions.

Price Projection (International-CBOT)
