BLACK PEPPER

Fundamentals:
Today's Update:

- Steady to weak sentiment witnessed in pepper spot market on Wednesday. Pepper prices reported downward correction in Kochi market today due to continuous supply.

Previous Update:

- According to preliminary statistics of the General Department of Customs, Vietnam pepper export in August 2018 is estimated at 20,000 tons, worth 58 million USD, the export of pepper in the first eight months of 2018 estimated 173 thousand tons, with USD 577 million, increasing 13.07% in volume and 11.29% in value over the same period last year.
- However, average export prices in the first seven months reached \$ 3,379 per ton, down nearly 40% over the same period in 2017. Global pepper demand ranges from 300,000-350,000 tons / year. Vietnam can supply around 200,000 tons / year, accounting for 62% - 65% of total pepper output.
- According to the survey, pepper prices in the provinces average only 48,000 VND; pepper price in Dong Nai is 47,000 VND / kg; and Ba Ria Vung Tau reported a price down to 49,000. Gia Lai maintained at 47,500 VND / kg. Currently, prices of raw materials are being purchased at a low level, 48,000 to 50,000 VND / kg.
- Due to heavy rainfall in Kodagu province, Karnataka, India, caused serious damage to the pepper production in the area. According to president of the Karnataka Pepper Association, floods damaged up to 60 percent of the pepper planted in Kodagu province. Meanwhile, the cost of pepper production has exceeded selling prices, making it difficult for farmers in this area.
- Due to heavy rainfall in Kerala and Karnataka state pepper crop reported damaged as of now around 30%. As per trade information, it will take minimum three to four years for pepper to revive this massive loss.
- According to the Vietnam Pepper Association, Pepper is currently in sharp competition with Brazil Pepper. In just over three years, Brazil's pepper output from 25,000 tones has soared to 85,000 tones. Brazilian pepper really attracts customers not only in price but also in quality. Currently farmers are willing to sell \$ 2,500 / ton pepper, while the price of the same type of Vietnam is \$ 3,200 / ton.
